The Copper Industry In Zambia Foreign Mining Companies In A Developing Country:

The Copper Industry in Zambia Simon Cunningham,1981 **The Copper Industry in Zambia S**
Cunningham,1981-12-15 White Mineworkers on Zambia's Copperbelt, 1926-1974 Duncan Money,2021-12-06 Life and work on the Zambian Copperbelt a concentrated industrialised mining region along the border with DR Congo has been a perennial subject for Africanist historians In this book Duncan Money for the first time focusses on the white mineworkers who monopolised skilled jobs on the mines from the 1920s to the 1960s and became one of the most affluent groups of workers on the planet Money argues that this group was a highly mobile global workforce which constituted and saw itself as a racialised working class For much of the twentieth century this white working class moved between mining and industrial centres across and beyond the British Empire and their actions and forms of organisation were strongly influenced by their international connections and by their mobility These transnational connections and the white working class militancy they produced played a crucial role in shaping social categories of race and class on the Copperbelt and determining the evolution of a region which quickly became one of the world s largest sources of copper See inside the book **Copper King in Central Africa** Hyden Munene,2022-01-31 Copper King in Central Africa offers a detailed account of the corporate history of the Rhokana Rokana Corporation and its Nkana mine Thematically and chronologically organised it explores the discovery of viable ores on the Northern Rhodesian Zambian Copperbelt in the late 1920s which attracted foreign capital from South Africa Britain and the USA prompting the development of the Nkana mine and the formation of the Rhokana Corporation in the early 1930s It follows through the evolution of the copper mining industry up to the re privatisation of the Zambian mining sector in 1991 The book ties into a single narrative the disparate themes of corporate organisation labour relations and profitability of Rhokana demonstrating how the firm was for a time the most important mining entity in the Northern Rhodesian Zambian mining industry Rhokana was both an investment firm on the Copperbelt and a mining company through Nkana mine Thus the Corporation was central to the development and profitability of the copper industry in Zambia Its corporate and labour policies influenced the Copperbelt as a whole Employing the largest labour force in the mining sector Rhokana spearheaded the labour movement on the Copperbelt Its Nkana mine was also the largest producer of copper in the Northern Rhodesian mining industry between 1940 and 1953 and contributed hugely to the war economies of Britain and the USA Throughout its history Nkana was also a major source of cobalt After nationalisation of the mining sector in 1970 Rhokana surrendered its investments in the wider copper industry but remained central to the Copperbelt s smelting and refining operations owning the biggest metallurgical facilities in the industry **Copper Empire** Larry Butler,2007-10-11 This is a study of the evolving relationship between the British colonial state and the copper mining industry in Northern Rhodesia from the early stages of development to decolonization encompassing depression wartime mobilization and fundamental changes in the nature and context of colonial rule **Zambia** Marcia Burdette,2021-12-12 This accessible case

study offers a fully rounded picture of Zambia's course since independence chronicling the periods of boom and decline after the fall in the price of copper around the mid 1970s. The author advocates an internally oriented economic strategy to retain industries and livelihoods and investigates the ability of the current leadership to achieve this. *Historical Dictionary of Zambia* Bizeck Jube Phiri, Thokozile Shaba, 2023-08-15. Zambia is a nation with a long record of peace that has enjoyed decades of constitutional rule and even in recent years an increasingly competitive democracy. Peace, constitutionalism, democracy and nationhood face constant challenges such as in the elections of 2006 when the ugly language of ethnic confrontation found renewed currency. Moreover, Zambia's economic record and prospects are less equivocal after over four decades: per capita incomes are lower than they were at the dawn of independence. *Historical Dictionary of Zambia* Fourth Edition contains a chronology, an introduction and an extensive bibliography. The dictionary section has more than 1 000 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion and culture. This book is an excellent resource for students, researchers and anyone wanting to know more about Zambia. Arbitration and Renegotiation of International Investment Agreements: A Study with Particular Reference to Means of Conflict Avoidance Under Natural Resources Investment Agreements Wolfgang Peter, Jean-Quentin de Kuyper, Bénédicte de Candolle, 1995-06-08. This book is a second revised edition of the original 1986 publication. Since then the issue of contract change has increasingly challenged the business community and legal practitioners. The world-wide recession may well have accelerated the need to secure contractual relationships by reasonable flexibility. Successful foreign investment: a relentless challenge is subject to many unpredictable errors. Of all these variables, however, successful investment is most dependent on the investor-host country relationship, which is the object of the present study. In particular, the pressure by host countries for contract change and its counterpart, the investor's defence of contract stability. The book is essentially a reference handbook for legal practitioners. It analyzes a variety of increasingly important questions concerning international investment agreements that come under pressure for change by one of the contracting parties, either a transnational corporation or a host country government. The seven case studies and the analytical chapters which follow are based on the author's research and the assistance of corporate and government officials, experts from the United Nations and other organizations and members of academic research institutes. *States in the Developing World* Miguel A. Centeno, Atul Kohli, Deborah J. Yashar, 2017-02-27. What should states in the developing world do and how should they do it? How have states in the developing world addressed the challenges of promoting development, order and inclusion? States in the developing world are supposed to build economies, control violence and include the population. How they do so depends on historical origins and context as well as policy decisions. This volume presents a comprehensive theory of state capacity: what it consists of and how it may be measured. With historical empirical illustrations, it suggests that historical origins and political decisions help drive the capacity of states to meet their goals. International Bibliography of Business History

Francis Goodall,Terry Gourvish,Steven Tolliday,2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians Labour and Economic Change in Southern Africa c.1900-2000 Rory Pilosof,Andrew Cohen,2021-06-03 This book explores the social and economic development of Zimbabwe Zambia and Malawi over the course of the twentieth century These three countries have long shared and interconnected pasts All three were drawn into the British Empire at a similar time and the formation of the ill fated Federation of Rhodesia and Nyasaland formally linked these countries together for a decade in the mid twentieth century This formal political relationship created dynamics that resulted in yet closer economic and social links After Federation the economic realities of industry transport and labour supplies meant that these three countries continued to be intricately interconnected Yet despite these connected pasts comparative work on the economic histories of Malawi Zambia and Zimbabwe and how these change over time is rare This book addresses the gap by providing the first comprehensive collection of labour and census data across the twentieth century for these three countries The different economic models and performances of these states offer good comparison allowing researchers to look at different models of development and how these played out over the long term The book provides data on population growth and change industrial and occupational structure and the various shifts in what the economically active population did It will be useful for historians economists development studies scholars and non governmental organisations working on twentieth century and contemporary southern Africa *State Mineral Enterprises* Marian Radetzki,2016-03-17 State ownership in mineral industries has increased massively from the 1950 s affecting the world mineral sector greatly Originally published in 1985 this study analyses the effects this had on the international market covering topics such as state takeovers of mineral firms price stabilisation methods state owned enterprises in developing countries and whether state ownership will negatively impact private multinational companies This title will be of interest to students of environmental studies The Tentacles of Progress Daniel R. Headrick,1988-03-10 This penetrating examination of a paradox of colonial rule shows how the massive transfers of technology including equipment techniques and experts from the European imperial powers to their colonies in Asia and Africa resulted not in industrialization but in underdevelopment Examining the most important technologies shipping and railways telegraphs and wireless urban water supply and sewage disposal economic botany and plantation

agriculture irrigation and mining and metallurgy Headrick provides a new perspective on colonial economic history and reopens the debate on the roots of Asian and African underdevelopment

Polycrisis and Economic Development in the Global South Hebatallah Adam,Ravinder Rena,2024-11-08 Global polycrisis refers to the simultaneous occurrence of multiple interconnected crises It is marked by the convergence and interaction of combined events such as geopolitical tensions economic instability environmental degradation public health emergencies and social disturbance In this context this book explores the challenges and opportunities encountered by the Global South amid political instability climate change humanitarian crises technological advancements and regional cooperation The book adopts a multidisciplinary framework integrating theoretical studies with empirical cases from various southern regions in Africa Asia and Latin America This approach helps to foster an in depth understanding of the complex challenges associated with development in these regions The book emphasizes the perspectives and experiences of Global South countries providing a platform for their voices to be heard This allows readers to gain a more nuanced understanding of the unique contexts perspectives and successful experiences of countries in Africa Asia and Latin America Furthermore it investigates issues such as governance security migration development and emergent technologies illuminates the role of regional organizations in fostering regional integration peace and stability and ultimately provides a comprehensive and refined analysis of the Global South that challenges prevalent stereotypes and offers new perspectives on the world s complex realities today It includes case studies that enhance the practical relevance of the book offering real world examples that illustrate the theoretical concepts and highlightingsuccessful approaches to addressing development challenges The book will appeal to scholars researchers and students interested in comprehending and addressing the challenges encountered by the Global South in a time of global polycrisis

The Palgrave Handbook of Africa and the Changing Global Order Samuel Ojo Oloruntoba,Toyin Falola,2021-11-22 This handbook fills a large gap in the current knowledge about the critical role of Africa in the changing global order By connecting the past present and future in a continuum that shows the paradox of existence for over one billion people the book underlines the centrality of the African continent to global knowledge production the global economy global security and global creativity Bringing together perspectives from top Africa scholars it actively dispels myths of the continent as just a passive recipient of external influences presenting instead an image of an active global agent that astutely projects soft power Unlike previous handbooks this book offers an eclectic mix of historical contemporary and interdisciplinary approaches that allow for a more holistic view of the many aspects of Africa s relations with the world

Contemporary Customary Land Issues in Africa J. Oloka-Onyango,Bridget Bwalya Umar,2018-07-26 This book examines current trends in customary land issues in Africa focusing on the practice of converting customary land into leasehold tenure particularly in Zambia Since the enactment of the 1995 Lands Act No 29 in Zambia conversion of customary land has become a controversial policy raising questions about the future of customary land and rural communities and the

role of traditional authorities in a changing environment Alienating customary land into leasehold tenure has serious implications for local and national politics and gender dynamics Analysis of these trends suggests that the policy of creating land markets on customary land is subjecting customary systems to the forces of change However governments that have adopted this policy have not by and large adopted measures to respond to these challenges Although customary tenure is widely believed to be resilient it is not clear how the customary system will navigate the current winds of change Chapters in this book draw from the Land Use and Rural Livelihoods in Africa Project LURLAP a collaborative research project undertaken by staff and students at the University of Cape Town and the University of Zambia *Living the End of Empire* Jan-Bart Gewald, Marja Hinfelaar, Giacomo Macola, 2011-08-25 Building on the foundational work of the Rhodes Livingstone Institute the essays contained in *Living the End of Empire* offer a more nuanced and complex picture of the late colonial period in Zambia than has hitherto been presented in nationalist histories **Europe and Economic Reform in Africa** Obed O. Mailafia, 2005-08-12 This book explores the complex post colonial relationship between Europe and African states Using new field work as well as existing material the author explores the dynamics of diplomacy the operating practices of EU agreements responses to debt and structural adjustment **Africa**, 1984 Includes Proceedings of the Executive council and List of members also section Review of books Ecological Imperialism, Development, and the Capitalist World-System Mariko Lin Frame, 2022-10-13 Two major trends are currently challenging the sustainability of human civilization extreme inequality and the ecological crisis This book argues that these are intrinsically linked by further exploring the complex relationships between global ecological crises neoliberal globalization orthodox development policies and imperialism Drawn from extensive theoretical historical policy and empirical research as well as fieldwork in Africa and Asia this book examines the crucial characteristics of the capitalist world system and how it enables and drives ecological imperialism Neoliberal globalization has allowed for capital's unfettered access to and exploitation of Nature across the planet and neoliberal development policies have reinforced a contemporary form of ecological imperialism where the environments of the Global South are enclosed and exploited and local communities are dispossessed of their land and livelihoods Simultaneously resources from the Global South are funneled to the Global North in the form of consumer goods and ecologically unequal exchange while the profits from those resources are siphoned away to transnational corporations financiers and government elites This work traces the historical development of free market policies while also paying special attention to the role of Northern international financial institutions emerging economies the semi periphery and the often hidden role of international finance in ecological imperialism This volume will be of keen interest to scholars and students of political economy critical development studies environmental sociology and political ecology
