Selections, 1877-1934 Edited by Herbert Aptheker

The Honorable Board of Trustees of the John F. Slater  
Fund,

Gentlemen:

In accordance with your direc-  
tions I send herewith a sketch of my  
life.

My name is William Edward  
Burghardt Du Bois; I was born at Great  
Barrington, Massachusetts, on the 23<sup>rd</sup> day  
of February, 1868, being the sole issue of  
the marriage of Mary S. Burghardt and  
Alfred Du Bois.

My paternal great-grandfather was  
a French doctor in the West Indies, and  
brought my grandfather and his brother to  
the United States when quite young. My grand-  
father settled in Connecticut and afterward re-  
moved to New Bedford, Mass. He was a boat  
steward by trade. My father was one of many  
children, and a barber by trade. He died when  
I was young.

My ~~ancestral~~ mother was a mulat-  
to, the fourth in direct descent from Thomas  
Burghardt, who, when young, was brought from  
Africa as a slave to the Dutch in New York  
state, early in the 18<sup>th</sup> century. He fought in  
the Revolutionary war. His son Jack Bur-  
ghardt had several children, among whom  
was Otello my grandfather. Otello and

**The Correspondence of W. E. B. Du Bois: Selections, 1944-1963** William Edward Burghardt Du Bois, 1973 Scholar author editor teacher reformer and civil rights leader W E B Du Bois 1888 1963 was a major figure in American life and one of the earliest proponents of equality for black Americans This is the third volume of three and incorporates correspondence from 1944 to 1963 *W. E. B. Du Bois and the Problems of the Twenty-First Century* Reiland Rabaka, 2008-04-29 W E B Du Bois and the Problems of the Twenty First Century utilizes Du Bois s thought and texts to develop an informed critical theory of contemporary society This book broadens the base of critical theory making it more multicultural transethnic transgender and non Western European philosophy focused by placing it in dialogue with theory and phenomena that had been heretofore woefully neglected Taking the preeminent black intellectual of the twentieth century as his primary point of departure Reiland Rabaka identifies and analyzes several key contributions that Du Bois and the black racial tradition offer to those interested in redeveloping and racially revising contemporary critical social theory With chapters on critical race theory postcolonial theory feminism and Marxism this volume builds bridges from Africana Studies to disparate discursive communities accessibly demonstrating Du Bois s and the black radical tradition s contributions to and the potential impact on a wide range of new social scientific research and radical political struggles *Co-workers in the Kingdom of Culture* David Withun, 2022 Classical influences and allusions are found throughout the works of W E B Du Bois the prominent African American intellectual and pioneering sociologist historian and educator This is the first book length discussion of the influence of classical authors such as Plato and Cicero on this important twentieth century thinker *Leadership in Colonial Africa* B. Jallow, 2014-12-04 Taken together the chapters in this book represent a tapestry of leadership frameworks and cultures in colonial Africa Scholars across disciplines explore the nature and evolution of leadership born of the colonial encounter between white colonialists and native Africans as well as the leadership that ultimately led to independence *Leadership in Colonial Africa* highlights colonial disruptions of traditional leadership patterns in Africa and how African leaders traditional and nationalist reacted to these disruptions Jallow examines the emergence of modern leadership cultures in Africa and argues that leadership studies theory may usefully be deployed in the study of African leadership *Habeas Viscus* Alexander Ghedi Weheliye, 2014-08-20 *Habeas Viscus* focuses attention on the centrality of race to notions of the human Alexander G Weheliye develops a theory of racializing assemblages taking race as a set of sociopolitical processes that discipline humanity into full humans not quite humans and nonhumans This disciplining while not biological per se frequently depends on anchoring political hierarchies in human flesh The work of the black feminist scholars Hortense Spillers and Sylvia Wynter is vital to Weheliye s argument Particularly significant are their contributions to the intellectual project of black studies vis vis racialization and the category of the human in western modernity Wynter and Spillers configure black studies as an endeavor to disrupt the governing conception of humanity as synonymous with white western

man Weheliye posits black feminist theories of modern humanity as useful correctives to the bare life and biopolitics discourse exemplified by the works of Giorgio Agamben and Michel Foucault which Weheliye contends vastly underestimate the conceptual and political significance of race in constructions of the human. Habeas Viscus reveals the pressing need to make the insights of black studies and black feminism foundational to the study of modern humanity. *'Abdu'l-Bahá's Journey West* N. Mottahedeh, 2013-04-03 This edited volume of specially commissioned essays written for the anniversary of Abdu'l Baha's journey to America tells the story of this former prisoner's interactions with the white upper echelon of American society as well as his impact on the lives and writings of important early figures in the African American civil rights movement.

**The Anticolonial Front** John Munro, 2017-09-21 This is a transnational history of the activist and intellectual network that connected the Black freedom struggle in the United States to liberation movements across the globe in the aftermath of World War II. John Munro charts the emergence of an anticolonial front within the postwar Black liberation movement comprising organisations such as the National Association for the Advancement of Colored People, the Council on African Affairs and the American Society for African Culture and leading figures such as W. E. B. Du Bois, Claudia Jones, Alphaeus Hunton, George Padmore, Richard Wright, Esther Cooper Jackson, Jack O. Dell and C. L. R. James. Drawing on a diverse array of personal papers, organisational records, novels, newspapers and scholarly literatures, the book follows the fortunes of this political formation recasting the Cold War in light of decolonisation and racial capitalism and the postwar history of the United States in light of global developments.

**In the Lion's Mouth** Omar H. Ali, 2011-02-03 Following the collapse of Reconstruction in 1877, African Americans organized a movement distinct from the white Populist movement in the South and parts of the Midwest for economic and political reform. Black Populism. Between 1886 and 1898, tens of thousands of black farmers, sharecroppers and agrarian workers created their own organizations and tactics, primarily under black leadership. As Black Populism grew as a regional force, it met fierce resistance from the Southern Democrats and constituent white planters and local merchants. African Americans carried out a wide range of activities in this hostile environment. They established farming exchanges and cooperatives, raised money for schools, published newspapers, lobbied for better agrarian legislation, mounted boycotts against agricultural trusts and business monopolies, carried out strikes for better wages, protested the convict lease system, segregated coach boxes and lynching, demanded black jurors in cases involving black defendants, promoted local political reforms and federal supervision of elections and ran independent and fusion campaigns. Growing out of the networks established by black churches and fraternal organizations, Black Populism found further expression in the Colored Agricultural Wheels, the southern branch of the Knights of Labor, the Cooperative Workers of America, the Farmers Union and the Colored Farmers Alliance. In the early 1890s, African Americans together with their white counterparts launched the People's Party and ran fusion campaigns with the Republican Party. By the turn of the century, Black Populism had been crushed by relentless attack, hostile propaganda and targeted assassinations of leaders and foot soldiers of the

movement The movement's legacy remains though as the largest independent black political movement until the rise of the modern civil rights movement

**Ending British rule in Africa** Carol Polsgrove, 2017-03-01 On the eve of World War II a small impoverished group of Africans and West Indians in London dared to imagine the unimaginable the end of British rule in Africa In books pamphlets and periodicals they launched an anti colonial campaign that used publishing as a pathway to liberation West Indians George Padmore C L R James and Ras Makonnen Kenya's Jomo Kenyatta and Sierra Leone's I T A Wallace Johnson made their point that colonial rule was oppressive and inconsistent with the democratic ideals Britain claimed at home *Ending British Rule in Africa* draws on previously unexplored manuscript and archival collections to trace the development of this publishing community from its origins in George Padmore's American and Comintern years through the independence of Ghana in the 1957 This original study will be of interest to scholars and general readers interested in social movements diaspora studies empire and African history publishing history literary history and cultural studies

**American Africans in Ghana** Kevin K. Gaines, 2012-12-30 In 1957 Ghana became one of the first sub Saharan African nations to gain independence from colonial rule Over the next decade hundreds of African Americans including Martin Luther King Jr George Padmore Malcolm X Maya Angelou Richard Wright Pauli Murray and Muhammad Ali visited or settled in Ghana Kevin K Gaines explains what attracted these Americans to Ghana and how their new community was shaped by the convergence of the Cold War the rise of the U S civil rights movement and the decolonization of Africa Kwame Nkrumah Ghana's president posed a direct challenge to U S hegemony by promoting a vision of African liberation continental unity and West Indian federation Although the number of African American expatriates in Ghana was small in espousing a transnational American citizenship defined by solidarities with African peoples these activists along with their allies in the United States waged a fundamental if largely forgotten struggle over the meaning and content of the cornerstone of American citizenship the right to vote conferred on African Americans by civil rights reform legislation

*Du Bois's Dialectics* Reiland Rabaka, 2009-01-01 With chapters that undertake ideological critiques of education religion the politics of reparations and the problematics of black radical politics in contemporary culture and society Du Bois's *Dialectics* employs Du Bois as its critical theoretical point of departure and demonstrates his and Africana Studies contributions to as well as contemporary critical theory's connections to critical pedagogy sociology of religion and reparations theory Rabaka offers the first critical theoretical treatment of the W E B Du Bois Booker T Washington debate which lucidly highlights Du Bois's transition from a bourgeois black liberal to a black radical and revolutionary democratic socialist

**Black Prophetic Fire** Cornel West, Christa Buschendorf, 2015-09-01 An unflinching look at nineteenth and twentieth century African American leaders and their visionary legacies In an accessible conversational format Cornel West with distinguished scholar Christa Buschendorf provides a fresh perspective on six revolutionary African American leaders Frederick Douglass W E B Du Bois Martin Luther King Jr Ella Baker Malcolm X and Ida B Wells In dialogue with Buschendorf West examines the impact of these

men and women on their own eras and across the decades He not only rediscovers the integrity and commitment within these passionate advocates but also their fault lines West in these illuminating conversations with the German scholar and thinker Christa Buschendorf describes Douglass as a complex man who is both the towering Black freedom fighter of the nineteenth century and a product of his time who lost sight of the fight for civil rights after the emancipation He calls Du Bois undeniably the most important Black intellectual of the twentieth century and explores the more radical aspects of his thinking in order to understand his uncompromising critique of the United States which has been omitted from the American collective memory West argues that our selective memory has sanitized and even Santaclausified Martin Luther King Jr rendering him less radical and has marginalized Ella Baker who embodies the grassroots organizing of the civil rights movement The controversial Malcolm X who is often seen as a proponent of reverse racism hatred and violence has been demonized in a false opposition with King while the appeal of his rhetoric and sincerity to students has been sidelined Ida B Wells West argues shares Malcolm X s radical spirit and fearless speech but has often become the victim of public amnesia By providing new insights that humanize all of these well known figures in the engrossing dialogue with Buschendorf and in his insightful introduction and powerful closing essay Cornel West takes an important step in rekindling the Black prophetic fire

**Un-American** Bill Mullen,2015-09-15 Un American is Bill Mullen s revisionist account of renowned author and activist W E B Du Bois s political thought toward the end of his life a period largely dismissed and neglected by scholars He describes Du Bois s support for what the Communist International called world revolution as the primary objective of this aged radical s activism Du Bois was a champion of the world s laboring millions and critic of the Cold War a man dedicated to animating global political revolution Mullen argues that Du Bois believed that the Cold War stalemate could create the conditions in which the world powers could achieve not only peace but workers democracy Un American shows Du Bois to be deeply engaged in international networks and personal relationships with revolutionaries in India China and Africa Mullen explores how thinkers like Karl Marx Jawaharlal Nehru Mohandas Gandhi and C L R James helped him develop a theory of world revolution at a stage in his life when most commentators regard him as marginalized This original political biography also challenges assessments of Du Bois as an American race man

**Red Racisms** I. Law,2016-01-14 This book analyzes racism in Communist and post Communist contexts examining the Red promise of an end to racism and the racial logics at work in the Soviet Union Central and Eastern Europe Cuba and China placing these in the context of global racialization

*New Negro Politics in the Jim Crow South* Claudrena N. Harold,2016-10-01 This study details how the development and maturation of New Negro politics and thought were shaped not only by New York based intellectuals and revolutionary

transformations in Europe but also by people ideas and organizations rooted in the South Claudrena N Harold probes into critical events and developments below the Mason Dixon Line sharpening our understanding of how many black activists along with particular segments of the white American Left arrived at their views on the politics of race nationhood and the capitalist political economy Focusing on Garveyites A Philip Randolph s militant unionists and black anti imperialist protest groups among others Harold argues that the South was a largely overlooked incubator of black protest activity between World War I and the Great Depression The activity she uncovers had implications beyond the region and adds complexity to a historical moment in which black southerners provided exciting organizational models of grassroots labor activism assisted in the revitalization of black nationalist politics engaged in robust intellectual arguments on the future of the South and challenged the governance of historically black colleges To uplift the race and by extension transform the world New Negro southerners risked social isolation ridicule and even death Their stories are reminders that black southerners played a crucial role not only in African Americans revolutionary quest for political empowerment ontological clarity and existential freedom but also in the global struggle to bring forth a more just and democratic world free from racial subjugation dehumanizing labor practices and colonial oppression **African Americans Against the Bomb** Vincent J

Intondi,2023-05-25 A well researched succinct account of African American involvement in the crusade to contain the threat of atomic warfare Highly recommended CHOICE Well before Rev Dr Martin Luther King Jr spoke out against nuclear weapons African Americans were protesting the Bomb Historians have generally ignored African Americans when studying the anti nuclear movement yet they were some of the first citizens to protest Truman s decision to drop atomic bombs in Hiroshima and Nagasaki in 1945 Now for the first time African Americans Against the Bomb tells the compelling story of those black activists who fought for nuclear disarmament by connecting the nuclear issue with the fight for racial equality Intondi shows that from early on blacks in America saw the use of atomic bombs as a racial issue asking why such enormous resources were being spent building nuclear arms instead of being used to improve impoverished communities Black activists fears that race played a role in the decision to deploy atomic bombs only increased when the US threatened to use nuclear weapons in Korea in the 1950s and Vietnam a decade later For black leftists in Popular Front groups the nuclear issue was connected to colonialism the US obtained uranium from the Belgian controlled Congo and the French tested their nuclear weapons in the Sahara By expanding traditional research in the history of the nuclear disarmament movement to look at black liberals clergy artists musicians and civil rights leaders Intondi reveals the links between the black freedom movement in America and issues of global peace From Langston Hughes through Lorraine Hansberry to President Obama African Americans Against the Bomb offers an eye opening account of the continuous involvement of African Americans who recognized that the rise of nuclear weapons was a threat to the civil rights of all people Praise for African Americans Against the Bomb Intondi s original research will shake the complacent assumption that the civil rights and anti nuclear movements

could be segregated Intondi shows that ever since the Bomb first was dropped on people of color in 1945 African Americans have been in the forefront of the campaign to stop the deployment of nuclear weapons Brilliant Tom Hayden Director of the Peace and Justice Resource Center Dr King spoke of the need to fight against racism materialism and militarism and Intondi s stirring narrative effectively shows how nuclear disarmament was part of the broader struggle This is an important read for those who are interested in properly understanding the black freedom movement and U S foreign policy Benjamin Todd Jealous former President and CEO of the NAACP

*The Haiti Exception* Alessandra Benedicty-Kokken, Kaiama L. Glover, Mark Schuller, Jhon Picard Byron, 2016 This collection of essays considers the ways and extent of Haiti s exceptionalisation its perception in multiple arenas as definitively unique with respect not only to the countries of the North Atlantic but also to the rest of the Americas Painted at once as repulsive and attractive abject and resilient singular and exemplary Haiti has long been framed discursively by an extraordinary epistemological ambivalence The nation has served at once as cautionary tale model for humanitarian aid and development projects and point of origin for general theorizing of the so called Third World What to make of this dialectic of exemplarity and alterity How to pull apart this multivalent narrative so as to examine its constituent parts The contributors to *The Haiti Exception* take up these and other such questions from a variety of methodological and disciplinary perspectives among which Africana Studies anthrohistory art history Black Studies Caribbean Studies education ethnology Jewish Studies literary studies performance studies and urban studies As they revise and interrogate their respective praxes they accept the challenge of thinking about the particular stakes of and motivations for their own commitment to Haiti Engaging in the decidedly risky anthropological practice of reflexivity the scholars activists and other social actors gathered here consider their own often fraught role in constructing Haiti in and as narrative

*The Souls of Black Folk* Jason Xidias, 2017-07-05 W E B Du Bois *The Souls of Black Folk* is a seminal work in the field of sociology a classic of American literature and a solid example of carefully structured reasoning One of the most important texts ever written on racism and black identity in America the work contains powerful arguments that illustrate the problem of the position of black people in the US at the turn of the 20th century Du Bois identified three significant issues the color line double consciousness and the veil that acted as roadblocks to true black emancipation and showed how each of these in turn contributed to the problem of inequality Du Bois carefully investigates all three problems constructing clear explanations of their significance in shaping the consciousness of a community that has been systematically discriminated against and dealing brilliantly with counter arguments throughout *The Souls of Black Folk* went on to profoundly influence the civil rights movement in the US inspiring post colonial thinking worldwide

**Another white Man's Burden** Tommy J. Curry, 2018-12-01 Demonstrates the extent to which Josiah Royce s ideas about race were motivated explicitly in terms of imperial conquest *Another white Man s Burden* performs a case study of Josiah Royce s philosophy of racial difference In an effort to lay bare the ethnological racial heritage of American philosophy Tommy J Curry challenges the common notion that

the cultural racism of the twentieth century was more progressive and less racist than the biological determinism of the 1800s. Like many white thinkers of his time, Royce believed in the superiority of the white races. Unlike today, however, whiteness did not represent only one racial designation but many. Contrary to the view of the British-born Germanophile philosopher Houston S. Chamberlain, for example, who insisted upon the superiority of the Teutonic races, Royce believed it was the Anglo-Saxon lineage that possessed the key to Western civilization. It was the birthright of white America, he believed, to join the imperial ventures of Britain to take up the white man's burden. To this end, he advocated the domestic colonization of Blacks in the American South, suggested that America's xenophobia was natural and necessary to protecting the culture of white America, and demanded the assimilation and elimination of cultural difference for the stability of America's communities. Another white Man's Burden reminds philosophers that racism has been part of the building blocks of American thought for centuries and that this must be recognized and addressed in order for its proclamations of democracy, community, and social problems to have real meaning. Curry has paid attention to the odd and icky bits of Royce, tracking down the offhand cultural references, the unfamiliar names, and historical contexts. A solid analysis of early twentieth-century conceptions of race and colonialism reveals an unseemly picture before our contemporary eyes. Curry is right; we shouldn't ignore or soft-pedal this.
