Consciousness Richard Maurice Bucke, 1991-10-05 This classic study in the evolution of the human mind is a pioneering work as valuable today as when it was first published in 1901 At that time it was enthusiastically acclaimed by both William James and P D Ouspensky It has long been accepted as a landmark in the field of mysticism In reviewing the mental and spiritual activity of the human race Dr Bucke discovers that at intervals certain individuals have appeared who are gifted with the power of transcendent realization or Illumination Their experiences constitute a definite advance in man s relation with the Infinite Moreover the author shows from available records that this transfiguring endowment of Illumination is on the increase and he gives full details of practically all the cases on record up to the time when the book was written

Cosmic Consciousness Richard Maurice Bucke, 2025-02-17 Richard Maurice Bucke s Cosmic Consciousness is a profound exploration into the nature of human consciousness and its potential for evolution Bucke s work is not just a dry academic treatise it s a passionate personal quest to understand a higher state of awareness that he believes is the next step in human development The book is dedicated to his son Maurice who died tragically and the inscription reflects the author s deep grief and his hope for a life beyond the physical realm This personal context frames the entire work giving it an emotional depth and urgency *Cosmic Consciousness and Human Excellence* Mahmoud Masaali, Rico Sneller, 2019-01-29

Cosmoconsciousness or cosmic consciousness is a term used to characterize a transcendence of the limits of self consciousness As an ultra state of illumination of the mind the roots of the conception are embodied in the quest for a spiritual connection with multi dimensional cosmos This quest searches for spiritual development as a pathway to human excellence and can be associated with the mystics of ancient wisdom as well as contemporary psycho spiritual analysts After its emergence in the late 19th century cosmic consciousness rapidly became a source of inspiration for transpersonal psychology moral therapy and a thoughtful link to mystical quantum physics By encouraging a spiritual way of perceiving the real world cosmic consciousness also provides a source of inspiration for human excellence as the central idea of global ethics In this perspective the world cannot be changed for the better without changing individual consciousness Global concerns including ecological issues violence and acts of terrorism materialistic gratification and hedonism could not be addressed effectively unless people s consciousness is changed Cosmic consciousness by the very perception of the inner life has the potential to struggle with global concerns and hence it holds a promise of human excellence This book discusses cosmic consciousness against the backdrop of the emergence of the rational and autonomous conception of the self and the

modern psychological depiction of selfhood It places the idea of cosmic consciousness at the centre of contemporary arguments on the nature of consciousness *Cosmic Consciousness* Richard M. Bucke, 2007-12-01 Wildly arrogant stunningly bombastic and undeniably fascinating This 1901 work the masterpiece of an eclectic genius whose life encompassed medical science mystical transcendence and prospecting for gold posits a higher form of sentience that only a few humans have ever achieved among them Jesus Buddha Mohammed Dante William Blake and the author himself of course As Bucke shares his metaphysical experience of the cosmic consciousness and offers evidence for the few instances in history of its occurrence it may as well be frankly stated at once that the view of the present editor is that Francis Bacon wrote the Shakespeare plays and poems the reader may well be moved to throw this bizarre and highly intriguing book furiously across the room if the reader can put it down at all that is Canadian mystic and doctor RICHARD MAURICE BUCKE 1837 1902 was a pioneer in the medical treatment of mental illness his famous friendship with Walt Whitman was the subject of the 1992 movie Beautiful Dreamers He also wrote Man's Moral Nature 1879 and an 1883 authorized biography of Whitman

Richard Maurice Bucke's Cosmic Consciousness Jeff Carreira, 2021-06 A fresh look at a modern spiritual classic This is an edited updated and interpreted edition of Richard Maurice Bucke's spiritual classic Cosmic Consciousness A Study in the Evolution of the Human Mind Bucke originally published his magnificent treatise in 1901 and it has been read admired and even revered ever since In this edition you will find the same insights and inspirations of the original text written in modern language and edited with modern sensibilities The purpose here is not to improve upon the original but to make its great wisdom more accessible to readers and spiritual seekers of today When Jeff Carreira first encountered the book Cosmic Consciousness he found a vision of conscious evolution that rang deeply resonant with his own spiritual experiences while contextualizing them within a vast narrative of universal history Of course the language and ideas of even a work as great as this can become dated with time Languages change new ideas develop and many readers find the original text difficult to approach Often the wisdom of spiritual classics is simply incorporated into the books and insights of present day authors with minimal reference to the original source This edition offers a different possibility It attempts to preserve the wisdom and logical flow of the original book in a creatively edited and interpreted text that can be freshly appreciated by a new audience This edition of Cosmic Consciousness is offered to honor the spirit and brilliance of the original **Birding and Mysticism**

Lowe, 2009-09-29 In volume 2 of Birding and Mysticism Enlightenment Through Bird Watching there is no traditional table of contents rather there are the five main parts and their sections and subsections which contain the substantive ideas and memes of volume 2 followed by six appendices The main thrust of volume 2 concerns the many aspects faces and forms of mysticism religious spiritual rational scientific personal and practical **The New Consciousness**

humanitarians the medical missionary theologian philosopher organist and Nobel Peace Prize winner Dr Albert Schweitzer 1875 1965 I thought about his life and pondered over his statements such as When you portray me it should be not as the doctor who ministered to the sick It is my philosophy of Reverence for Life that I consider my primary contribution to the world and Will we be able again to entertain and exercise ideals which transform reality This is the question before us today I found that his words are as valid today as when he spoke them Physician of the Soul I used letters I had addressed the Man of the Century Albert Schweitzer I used this format as a process to describe the changes in consciousness occurring as I proceed with my quest for growth truth and understanding I describe my childhood and my experience of marriage and divorce to my mentor and teacher who had become my ideal of what a human being is capable of becoming I address the subjects of meditation reincarnation karma intuition responsibility purpose and how they relate to our destiny By pressing beyond the limitations of thoughts often born of doubt ignorance and fear I discovered that I am a soul growing through every experience Life is the journey leading us to the path not only of self discovery but a journey of remembrances I talk to my teacher about the truth I discovered that life itself is my teacher Looking at myself has been the most painful and at the same time the most liberating experience of my life I also found that comparison to someone else causes pain suffering and unhappiness I present the reader with the opportunity to undertake his or her own courageous journey towards liberation and self healing as Know Thyself becomes the quest

Library Critic** ,1913 *Cosmic Consciousness - facsimile edition* Dr. Richard Maurice Bucke,2007-05-04 There is an ages old unexplained mystery of genius and enlightenment Many people talk of seeing the light as a temporary intense affair where all the world s knowledge and understanding is unveiled to an individual in a brief moment outside of time Bucke himself experienced this unique state in 1876 And spent the rest of his life working out how to understand and apply what he had learned in that instant Bucke provides three dozen very consistent examples of cosmic consciousness Some of these were contemporary case histories which he collected Bucke proposed that these enlightened figures are evolutionary jumps the predecessor of a more advanced species His 1901 final work was the masterpiece of an eclectic genius whose life encompassed medical science and mystical transcendence and posits a higher form of sentience that only a few humans have ever achieved This is a fascimile reproduction of Bucke s original work Get Your Copy Now
