## **The Creating Consciousness Science As The Language Of God:**

**The Creating Consciousness** Arne A. Wyller, 1999 Ours is a literal world We spend so many words arguing the fundamental truth of a few ancient metaphors that we finally close them to personal meaning Or we commit our energies to washing every literary form and figure of speech cleanly away to protect our definitions of correctness and to make everyday thinking even safer But the arguing gives us doctrines And the purging denies us poetry And when all the metaphors are gone we find we've lost the richest ways of knowing We find we've even narrowed the possibility Divina is a line of speculative dimensional and metaphorical books that will Challenge conventional wisdom Offer alternative theories Recreate noumenal experiences Reach for poetry and Promise other ways of knowing The most rewarding reading addresses us personally and challenges what we believe Divina will bring you books that do just that chosen and published with the same dedication and editorial sensibility that have established our commitment to literary quality **Rhetorics and**

**Hermeneutics** James D. Hester, David Hester, 2004-01-01 This collection of essays provides original studies of various New Testament texts read through the eyes of rhetorical criticism as well as a tribute to the continuing influence of Wilhelm Wuellner and his work *The American Book of the Dead* Henry Baum, 2011-11 Eugene Myers is working on a novel about the end of the world Meanwhile he discovers his daughter doing porn online and his marriage is coming to an end When he begins dreaming about people who turn out to be real he wonders if his novel is real as well Eugene Myers may just be the one to stop the apocalypse This history of the future covers every conspiracy imaginable UFOs secret societies and World War III as well as theories on life after death and human evolution by a writer whose last novel was called by Dogmatika A page turner and an example of an effective piece of storytelling that should be envied In the tradition of Philip K Dick and Robert Anton Wilson *The American Book of the Dead* explores the nature of reality and the human race's potential to either disintegrate or evolve **Ayahuasca Awakening A Guide to Self-Discovery, Self-Mastery and Self-Care** Jessica

but a fact that all reputable scientists accept Disclaimers from the evolutionary community notwithstanding such a claim is quite simply wrong We believe it is time for someone to offer what renowned news commentator Paul Harvey would call the rest of the story That is what *The Truth About Human Origins* does It tells the rest of the story as it discusses the scientific facts about mankind s beginning For example it investigates the record of the rocks as that record relates to human evolution It demonstrates how evolutionary theory is unable to explain things like the origin of gender and sexual reproduction the origin of language and communication the origin of the brain the mind and human consciousness and the origin of skin colors and blood types It also examines in an in depth fashion the so called molecular evidence of human evolution     *The Publishers Weekly* ,1999     *Science and Spiritual Quest* ,2008     *The Utne Reader* ,1999     **God Created the Universe with the Purpose to Serve Humankind** Fateh Ullah Khan,2009     *The Science of the Sacred* Nicole Redvers, N.D.,2019-03-26 Indigenous naturopathic doctor Nicole Redvers pairs evidence based research with traditional healing modalities addressing modern health problems and medical processes Modern medical science has finally caught up to what traditional healing systems have known for centuries Many traditional healing techniques and medicines are often assumed to be archaic outdated or unscientific compared to modern Western medicine Nicole Redvers a naturopathic physician and member of the Deninu K ue First Nation analyzes modern Western medical practices using evidence informed Indigenous healing practices and traditions from around the world from sweat lodges and fermented foods to Ayurvedic doshas and meditation Organized around various sciences such as physics genetics and microbiology the book explains the connection between traditional medicine and current research around epigenetics and quantum physics for example and includes over 600 citations Redvers who has traveled and worked with Indigenous groups around the world shares the knowledge and teachings of health and wellness that have been passed down through the generations tying this knowledge with current scientific advances Knowing that the science backs up the traditional practice allows us to have earlier and more specific interventions that integrate age old techniques with the advances in modern medicine and technology     *The Christian Science Journal* ,1921     *When Texas Prison Scams Religion* Michael G. Maness,2023-05-22 *When Texas Prison Scams Religion* exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ s executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many

times in the last 25 years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the most scandal ridden in penal history according to a host of published news stories for 20 years Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars

**Perspectives on Science and Christian Faith** ,2007 The Anthroposophical Soul Calendar and the Incarnation Cycle of Man Roland Schrapp,2021-01-14 This book takes a completely new look at the Anthroposophical Soul Calendar It is about the deeper meaning of the fifty two weekly verses which has remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner A dense veil of Isis was spread over them of which is well known that no mortal person can lift it Only the immortal psycho spiritual human being who knows himself at home in the extrasensory higher worlds is capable of doing this Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual cosmic realms until he reaches the experience of God from where he gradually descends again into a new life on Earth enriched in spirit and fertilized in his soul If the reader embarks on this journey the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ By many quotations from Rudolf Steiner s lectures and books the author virtually lets Steiners himself elucidate the breathtaking depths of his mysterious weekly verses Science of the Cosmos, Science of the Soul William C.

Chittick,2013-10-01 With academic courses either encouraging commercialism or cultivating zealots Chittick states that it is impossible to understand classical Islamic texts without the years of contemplative study that are anathema to the modern education system Insisting upon a return to the ways of the ancient wisdom tradition which saw the quest for knowledge of the soul the world and God as a unifying spiritual discipline Chittick maintains that the study of Islamic texts cannot be treated separately from self understanding Fascinating radical and a true challenge to modern trends in academic study this book opens a new debate in Islamic thought Creation Research Society Quarterly Creation Research Society,2004

**The Christian Science Journal** ,1996 **From Existence To Life: The Science Of Self-Consciousness** James Porter Mills,1921 There has been a growing feeling in my mind that Health is too small a title with which to introduce a book that sets forth the noblest science that can possibly be formulated Although health is one of the most desirable conditions in personal life and one of the most essential yet it is but one of the ways of Life that are set forth in the book It appears to me that From Existence to Life the Science of Self Consciousness exactly covers the whole field of that which is herein formulated It is a science for all round use health being but one of the many modes of the Principle of All Knowledge and so

far as man is concerned the science of self consciousness formulated correctly and made use of intelligently should satisfy the mind and comfort the heart in all the emergencies of self conscious life enabling a man to hold on his way and grow stronger and stronger      God's Autopsy and the Living Truth of Soul Hal Childs, 2022-08-22 The Grand Narrative of Christianity that the Bible created is dead and the Bible is silent Does the Bible have anything relevant to say to our modern circumstances We ask where did God come from What happened to God God's Autopsy reinterprets soul and God as historical psychological phenomena related to the cultural structure of consciousness the invisible shared context of thought which has changed dramatically over the past three millennia This book offers a new way to understand the trajectory of Western civilization by making the implicit foundation of Western consciousness soul visible and conscious Our modern Western consciousness is radically different from that of antiquity when the Bible emerged Jung's psychological philosophical insight that whenever we speak about the psyche it is the psyche speaking about itself leads to the realization that today consciousness has come home to itself Beginning with preliterate polytheism the emergence of the transcendent god Yahweh and Christ which led directly to the Enlightenment objective soul continues to unfold itself How did late modernity become a topsy turvy quantum virtual digital impersonal and abstract world that appears to be running away from us The answer is unexpectedly and shockingly in the Bible itself      The Reader, a review of literature, science, and art , 1866-07
