have survived in one [The Creation of Beethoven's 35 Piano Sonatas](#) Barry Cooper,2017-04-05 Beethoven's piano sonatas are a cornerstone of the piano repertoire and favourites of both the concert hall and recording studio. The sonatas have been the subject of much scholarship but no single study gives an adequate account of the processes by which these sonatas were composed and published. With source materials such as sketches and correspondence increasingly available, the time is ripe for a close study of the history of these works. Barry Cooper, who in 2007 produced a new edition of all 35 sonatas including three that are often overlooked, examines each sonata in turn, addressing questions such as: Why were they written? Why did they turn out as they did? How did they come into being and how did they reach their final form? Drawing on the composer's sketches, autograph scores and early printed editions, as well as contextual material such as correspondence, Cooper explores the links between the notes and symbols found in the musical texts of the sonatas and the environment that brought them about. The result is a biography not of the composer but of the works themselves. [The Art and Design Teacher's Handbook](#) Susie Hodge,2010-09-02 The ultimate art and design teacher's handbook with guidance on planning lessons inspiring creativity and imagination in pupils and getting great results. [Epic Landscapes](#) Julia Sienkewicz,2019-11-13 Epic Landscapes is the first study devoted to architect Benjamin Henry Latrobe's substantial artistic oeuvre from 1795 when he set sail from Britain to Virginia to late 1798 when he relocated to Pennsylvania. Thus this book offers the only extended consideration of Latrobe's Virginian watercolors, including a series of complex trompe l'oeil studies and three significant illustrated manuscripts. Though Latrobe's architecture is well known, his watercolors have received little critical attention. Epic Landscapes rediscovers Latrobe's watercolors as an ambitious body of work and reconsiders the close relationship between the visual and spatial sensibility of these images and his architectural designs. It also offers a fresh analysis of Latrobe within the context of creative practice in the Atlantic world at the end of the eighteenth century as he explored contemporary ideas concerning the form of art for Republican society and the social impacts of revolution.
