Fletcher, 2003-04-15 Two teenage boys are lost in Minnesota's rugged Boundary Waters wilderness area While struggling to survive they are sucked into the plots of two so called fiction novels that one of the boys has read Every direction they turn leads them deeper into the wilderness and into the extraordinary secrets and dangers encompassing the books plots Perilously tangled up in mystery magic and suspense the boys weave their way toward the books mystical island of Olyqua where they must face the ultimate conflict between the forces of good and evil Is it real That's the plaguing question as supernatural events get in their way and unknown forces try to stop them *Poetry and the Anthropocene* Sam Solnick, 2016-09-19 This book asks what it means to write poetry in and about the Anthropocene the name given to a geological epoch where humans have a global ecological impact Combining critical approaches such as ecocriticism and posthumanism with close reading and archival research it argues that the Anthropocene requires poetry and the humanities to find new ways of thinking about unfamiliar spatial and temporal scales about how we approach the metaphors and discourses of the sciences and about the role of those processes and materials that confound humans attempts to control or even conceptualise them Poetry and the Anthropocene draws on the work of a series of poets from across the political and poetic spectrum analysing how understandings of technology shape literature about place evolution and the tradition of writing about what still gets called Nature The book explores how writers understanding of sciences such as climatology or biochemistry might shape their poetry's form and how literature can respond to environmental crises without descending into agitprop self righteousness or apocalyptic cynicism In the face of the Anthropocene's radical challenges to ethics aesthetics and politics the book shows how poetry offers significant ways of interrogating and rendering the complex relationships between organisms and their environments in a world increasingly marked by technology **Crook Chronicles: The Descendants of Henry & Margareth Crook =**
