Hunley, 2014-04-15 Early in the morning of 4 October 1957 T Keith Glennan went to work just as he had for more than a decade at the president s office of the Case Institution of Technology in Cleveland Ohio This work is his summary of his work Return to the Moon Harrison Schmitt, 2007-12-28 Former NASA Astronaut Harrison Schmitt advocates a private investor based approach to returning humans to the Moon to extract Helium 3 for energy production to use the Moon as a platform for science and manufacturing and to establish permanent human colonies there in a kind of stepping stone community on the way to deeper space With governments playing a supporting role just as they have in the development of modern commercial aeronautics and agricultural production Schmitt believes that a fundamentally private enterprise is the only type of organization capable of sustaining such an effort and eventually even making it pay off To See the Unseen Andrew J. Butrica, 1996 A comprehensive illuminating history of this little understood but surprisingly significant scientific activity Quite rigorous systematic in its methodology the book explores the development of the radar astronomy specialty in the larger community of scientists More than just discussing the development of this field however the author uses planetary radar astronomy as a vehicle for understanding larger issues relative to the planning execution of big science by the Fed government Sources interviews technical essay abbreviations index **Handbook of Space Engineering, Archaeology, and Heritage** Ann Darrin, Beth L. O'Leary, 2009-06-26 Some might think that the 27 thousand tons of material launched by earthlings into outer space is nothing more than floating piles of debris However when looking at these artifacts through the eyes of historians and anthropologists instead of celestial pollution they are seen as links to human history and heritage Space The New
