The Black Man In The Old Testament And Its World:

The Black Man in the Old Testament and Its World Alfred G. Dunston,1992 An attempt to portray the Black man as he was viewed during the Old Testament times *Africa and the Africans in the Old Testament* David T. Adamo,2001-06-06

Ordinary People Can Do the Extraordinary Bennie E. Goodwin,1993 Readers will receive inspiration and encouragement as they seek to reach their potential in Christ This is a great study of the strengths and weaknesses of notable Old Testament leaders 12 lessons Leader s guide available **The Blessing of Africa** Keith Augustus Burton,2007-07-25 Keith A Burton traces the story of biblical Africa and the place of the Bible in the land of Ham He ends with an examination of the modern era and the achievements of African Christianity This invigorating work places the story of the Bible and African Christianity in a wider global context and challenges readers to think differently about history and the biblical world History in Black Yaacov Shavit,2013-11-12 The development of Afrocentric historical writing is explored in this study which traces this recording of history from the Hellenistic Roman period to the 19th century Afrocentric writers are depicted as searching for the unique primary source of culture from one period to the next Such passing on of cultural traits from the ancient model from the classical period to the origin of culture in Egypt and Africa is shown as being a product purely of creative history **The Curse of Ham** David M. Goldenberg,2005-08-07 In this book David Goldenberg seeks to discover how dark skinned peoples especially black Africans were portrayed in the Bible and by those who interpreted the Bible Jews Christians and Muslims Unprecedented in rigor and breadth his investigation covers a 1 500 year period from ancient Israel around 800 B C E to the eighth century C E after the birth of Islam By tracing the development of anti Black sentiment during this time Goldenberg uncovers views about race color and slavery that took shape over the centuries most centrally the belief that the biblical Ham and his descendants the black Africans had been cursed by God with eternal slavery Publisher description *The Power of Love and Democracy in the Philosophies of Martin Luther King, Jr. and Cornel West* Timothy L. Lake,2025-09-18 This book locates an ethic of love as central to the democratic philosophies of Martin Luther King Jr and Cornel West While much has been written about King s moral vision social activism and theology there has been no book length treatment of the implications of his thinking to democratic theory Additionally Cornel West is the leading African American public intellectual of our time but the range of his cultural criticism and academic scholarship obscures his intellectual and social projects This project synthesizes West s vast corpus and places him within the modern African American intellectual tradition he shares with Du Bois King Maulana Karenga the creator of Kwanza and others Deeply grounded in the African American intellectual and philosophical traditions in which King and West are rooted as well as the Western mainstream political philosophical traditions in which they were educated this book offers a penetrating interpretation and comparative analysis of their thought on the ideals of democracy and of their critiques of American democracy It also reflects on the nature and values of democracy exploring how love is inseparable from justice in

a democratic society **Stony the Road We Trod** Cain Hope Felder, 2021-11-30 The publication of *Stony the Road We Trod* thirty years ago marked the emergence of a critical mass of Black biblical scholars as well as a distinct set of hermeneutical concerns Combining sophisticated exegesis with special sensitivity to issues of race class and gender the authors of this scholarly collection examine the nettling questions of biblical authority Black and African people in biblical narratives and the liberating aspects of Scripture The original volume reshaped and redefined the questions concerns and scholarship that determine how the Bible is appropriated by the church the academy and the larger society today To the original eleven essays this expanded edition adds a new introduction by Brian K Blount and three new chapters by Kimberly D Russaw Shively T J Smith and Jennifer T Kaalund Not only does Blount's new introduction access the impact of the first edition but the new contributions extend the implications of Cain Hope Felder's vision for the book **Routes of Passage: Rethinking the African Diaspora** Ruth Simms Hamilton, 2006-11-09 *Routes of Passage* provides a conceptual substantive and empirical orientation to the study of African people worldwide The book addresses issues of geographical mobility and geosocial displacement changing culture political and economic relationships between Africa and its diaspora interdiaspora relations political and economic agency and social mobilization including cultural production and psychocultural transformation existence in hostile and oppressive political and territorial space and confronting interconnected relations of social inequality especially class gender nationality and race *Symbolic Blackness and Ethnic Difference in Early Christian Literature* Gay L Byron, 2003-10-04 There has been growing interest in recent years in the presence and image of blacks and blackness in classical antiquity However this pioneering and much needed work is the first to survey and theorise the black as seen by early Christian writers
