The Urban Connection Luuk Boelens, 2009 The urban connection develops a promising actor relational approach to urban planning With respect to the usual governmental planning it is focused outside in instead of inside out It derives its leitmotif from the actual debate about state controlled versus neo liberal planning and reflects on innovative post structuralist scholars in the field of planning economics social geography and governance It then takes its own position in that debate reflecting on actor oriented experiments in planning practices These experiments deal with the daily planning practice with a pro active and operational attitude contrary to the usual retrospective case studies Therefore it results in concrete suggestions on how to develop a more robust planning approach in an ongoing globalising and fragmenting world

Hanegraaff,Joyce Pijnenburg,2009 Hermes in the Academy commemorates the tenth anniversary of the Center for History of Hermetic Philosophy and related Currents GHF at the University of Amsterdam The center devotes itself to the study of Western esotericism which includes topics such as Hermetic philosophy Christian kabbalah and occultism This volume shows how over the past ten years the GHF has developed into the leading international center for research and teaching in this domain **The Faroe Islands** Jonathan Wylie,2021-10-21 Stranded in a stormy corner of the North Atlantic midway between Norway and Iceland the Faroe Islands are part of the unknown Western Europe a region of recent economic development and subnational peoples facing uncertain futures This book tells the remarkable story of the Faroes cultural survival since their Viking settlement in the early ninth century At first an unruly little republic the islands soon became tributary to Norway dwindled into a Danish Norwegian mercantilist fiefdom and in 1816 were made a Danish province Today however they are an internally self governing Danish dependency with a prosperous export fishery and a rich intellectual life

carried out in the local language Faroese Jonathan Wylie an anthropologist who has done extensive field work in the Faroes creates here a vivid picture of everyday life and affairs of state over the centuries using sources ranging from folkloric texts to parliamentary minutes and from census data to travelers tales He argues that the Faroes long economic stagnation preserved an archaic way of life that was seriously threatened by their economic renaissance in the nineteenth century especially as this was accompanied by a closer political incorporation into Denmark The Faroese accommodated increasingly profound social change by selectively restating their literary and historical heritage Their success depended on domesticating a Danish ideology glorifying folkish ways and so claiming a nationality separate from Denmark s The book concludes by comparing the Faroes nationality without nationhood to the contrasting situations of their closest neighbors Iceland and Shetland The Faroe Islands is an important contribution to Scandinavian as well as regional and ethnic studies and to the growing literature combining the insights and techniques of anthropology and history Engagingly written and richly illustrated it will also appeal to scholars in other fields and to anyone intrigued by the lands and peoples of the North

An Alchemist in Chains Frederik Stjernfelt,2024-09-23 How could a pious Christian mystic spread radical Enlightenment ideas and freedom of thought Johann Konrad Dippel was a radical pietist an alchemist a philosopher a medical doctor a renegade a firebrand He was also one of the most read authors of early eighteenth century Europe Born at the Burg Frankenstein in the South of Germany he was a truly cosmopolitan figure straying between France Berlin the Netherlands Denmark Sweden and various German states From 1714 1719 he was in Altona near Hamburg then the second city of Denmark Norway Here a labyrinthine case was brought against him terminating with his banishment to the Danish island of Bornholm in the Baltic Sea This book is the first to investigate in detail the Case Against Dippel in Altona pitting him in a struggle against the strongest noble couple of Denmark Norway the Reventlows presiding in Altona It was a case involving libel bribes corruption but also branching into blasphemy and gold making The investigation of the Case Against Dippel is embedded in a narrative of what is known about his frantic life and defiant thought before and after his seven years incarceration The whole story throws a new light upon the challenging question of the origin of Modernity and the clandestine connections between radical pietism and radical Enlightenment
