The Country House Explained:

The Country House Explained Trevor Yorke, 2003 Thousands of people visit country houses every year and spend a few pounds on a visitor's guide but what if you want a more general guide to English houses as a whole The Country House Explained is just such a book With lots of photographs and sketches Trevor Yorke looks at the exteriors interiors gardens and parks of English country houses *The Country House Revealed* Dan Cruickshank, 2012-07-31 Spanning the architectural history of the country house from the disarming Elizabethan charm of South Wraxall the classical rigour of Kinross in Scotland the majesty and ingenuity of Hawksmoor's Easton Neston the Palladian sweep of Wentworth Woodhouse with over 300 rooms and frontage of 600 feet the imperial exuberance of Clandeboye through to the ebullient vitality of Lutyens Marshcourt the stories of these houses tell the story of our nation All are the buildings of the greatest architectural interest each with a fascinating human story to tell and all remain private homes that are closed to the public But their owners have opened their doors and allowed Dan Cruickshank to roam the corridors and rummage in the cellars as he teases out the story of each house who built them the generations who lived in them and the families who lost them Along the way he has uncovered tales of excess and profligacy tragedy comedy power and ambition And as these intriguing narratives take shape Dan shows how the story of each house is inseparable from the social and economic history of Britain Each one is built as a wave of economic development crests or crumbles Each one's architecture and design is thus expressive of the aims strengths and frailties of those who built them Together they plot the psychological economic and social route map of our country's ruling class in a rich new telling of our island story The Story of the Country House Clive Aslet, 2021-09-14 The fascinating story of the evolution of the country house in Britain from its Roman precursors to the present The Story of the Country House is an authoritative and vivid account of the British country house exploring how they have evolved with the changing political and economic landscape Clive Aslet reveals the captivating stories behind individual houses their architects and occupants and paints a vivid picture of the wider context in which the country house in Britain flourished and subsequently fell into decline before enjoying a renaissance in the twenty-first century The genesis style and purpose of architectural masterpieces such as Hardwick Hall Hatfield House and Chatsworth are explored alongside the numerous country houses lost to war and economic decline We also meet a cavalcade of characters owners with all their dynastic obsessions and diverse sources of wealth and architects such as Inigo Jones Sir John Vanbrugh Robert Adam Sir John Soane and A W N Pugin who dazzled or in some cases outraged their contemporaries The Story of the Country House takes a fresh look at this enduringly popular building type exploring why it continues to hold such fascination for us today The Country House Revisited Tereza Topolovská, 2017-08-01 This monograph provides an insight into English country house fiction by twentieth and twenty-first century authors with a focus on the works of E M Forster Evelyn Waugh Iris Murdoch Alan Hollinghurst and Sarah Waters The country house is explored within the wider social and cultural contexts of the period

including contemporary architectural development The variety of literary depictions of the country house reflects the physical diversification of buildings which can be classified as such from smaller variants to formerly grand residences on the brink of physical collapse Within the scope of contemporary fiction architecture and poetics of space the country house given its uniquely integrating and exceptionally evocative qualities accentuates different conceptions of dwelling Consequently literary portrayals of the country house can be seen as both prefiguring and reflecting the contemporary practice of living

The Elizabethan Country House Entertainment Elizabeth Zeman Kolkovich, 2016-07-04 This is the first full length critical study of country house entertainment a genre central to late Elizabethan politics It shows how the short plays staged for the Queen at country estates like Kenilworth Castle and Elvetham shaped literary trends and intervened in political debates including whether women made good politicians and what roles the church and local culture should play in definitions of England In performance and print country house entertainments facilitated political negotiations rethought gender roles and crafted regional and national identities In its investigation of how the hosts used performances to negotiate local and national politics the book also sheds light on how and why such entertainments enabled female performance and authorship at a time when English women did not write or perform commercial plays Written in a lively and accessible style this is fascinating reading for scholars and students of early modern literature theatre and women's history

Country houses and the British Empire, 1700–1930 Stephanie Barczewski, 2017-02-01 Country houses and the British empire 1700 1930 assesses the economic and cultural links between country houses and the Empire between the eighteenth and twentieth centuries Using sources from over fifty British and Irish archives it enables readers to better understand the impact of the empire upon the British metropolis by showing both the geographical variations and its different cultural manifestations Barczewski offers a rare scholarly analysis of the history of country houses that goes beyond an architectural or biographical study and recognises their importance as the physical embodiments of imperial wealth and reflectors of imperial cultural influences In so doing she restores them to their true place of centrality in British culture over the last three centuries and provides fresh insights into the role of the Empire in the British metropolis

The British Country House Revival Ben Cowell, 2024 British country houses have experienced a renaissance since the early 1970s A new accord is needed today recognising the increasingly contested contribution of country houses to British cultural life Fifty years ago the future for country houses in Britain looked bleak The Victoria Albert Museum's exhibition *The Destruction of the Country House* which opened in October 1974 charted the loss of over a thousand country houses in the preceding century The makers of the exhibition warned that history could be about to repeat itself because of the threats besetting mansion properties principally from higher taxation Houses faced the prospect of having to be stripped of their collections and sold for use as offices hotels or hospitals with their parks and gardens turned into golf clubs Government might afford to save just a handful of the most significant of these places working in tandem with charities such as the National Trust The rest would be consigned to history This book traces

the history of country houses in Britain from the Destruction exhibition to the present day The wave of country house losses anticipated in 1974 never actually happened Instead over the next five decades Britain's country houses experienced a renaissance Fiscal rules changed in the mid 1970s to make it easier for owners to hold on to their assets Economic improvements in the 1980s and 1990s allowed many houses and estates to develop profitable commercial businesses All of this was achieved only after dedicated campaigning from heritage organisations in support of the country house cause The book argues that a new accord is needed today to recognise and value the ongoing if increasingly contested contribution of country houses to British life and culture in the twenty first century

The Country House Lady Mary Fox, 1843 The Country Houses of Shropshire Gareth Williams, 2021 A gazetteer of the many fine Shropshire country houses which covers the architecture the owners family history and the social and economic circumstances that affected them Shropshire is the largest English inland county and has a wide variety of important landed country houses with owners from diverse social groups with links to trade in Liverpool Manchester and London as well as the local gentry This book is not simply about the houses they built but also about the people who lived in them and the context in which the houses are set The architecture is of course fully covered What is distinctive about the author's approach is that he treats the histories of the families their artistic tastes and their estates as an integral part of the character of each house Country houses can serve as a barometer of national tastes and of the social and economic times in which they were built The work includes reference to the important sporting associations fine and decorative art collections and to important guests and social networks Unlike most architectural guides this aims at a wider readership and will be an important resource for social historians genealogists and local historians The Country Houses of Shropshire considers the history of 347 identified houses of varying importance those with a significant or influential history are given a main entry of up to 6000 words whilst lesser houses are treated with an entry of less than 1000 words All houses have footnoted entries enabling the reader to refer directly to source and to undertake further research themselves

The Country House in English Renaissance Poetry

William Alexander McClung,2023-11-15 The Country House in English Renaissance Poetry explores a unique literary genre that emerged during the seventeenth century celebrating the ideals of the English manor estate while critiquing the societal shifts that threatened its values These poems written by figures such as Ben Jonson Andrew Marvell Robert Herrick and Thomas Carew praise the virtues of traditional manorial life hospitality responsibility and order set against the backdrop of expansive and ostentatious estates built by political elites of the Elizabethan and Jacobean periods By juxtaposing the modest yet harmonious homes of families like the Sidneys of Penshurst against the grandiose mansions of newly affluent courtiers these works reflect a nostalgia for a simpler more virtuous era tied to a hierarchical and agrarian ideal The book examines the classical and social influences on the genre tracing its roots to Roman poets like Martial and its connections to the myth of the Golden Age It also delves into the architectural and societal contexts of the period demonstrating how poets critiqued modern extravagance and upheld the moral prestige of country living Through a detailed analysis of seminal works the study reveals how these poets used the country house as both a symbol of cultural stability and a stage for their critiques of contemporary life blending aesthetic appreciation with social commentary The genre deeply intertwined with notions of labor productivity and divine order serves as a lens through which to view the changing dynamics of seventeenth century England This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977
