The Crash of '79 Paul Erdman,1977 *The Crash of '79* Paul E. Erdman,1973 **The Crash of '79** Paul Emil Erdman,1981 **Birth of the Financial Thriller** Mikkel Krause Frantzen,2025-03-31 Discover the untold story of the financial thriller a genre pioneered by Canadian banker turned author Paul Erdman from a Swiss prison cell Starting with the publication of *The Billion Dollar Sure Thing* in 1973 this book explores the genre s evolution as a popular and even vulgar genre of financialisation characterised by volatile plots centred on currency speculation where the central mystery is money not murder By contextualising the rise of financial thrillers within the dramatic events of the 1970s such as the abolition of the Bretton Woods system and the oil crises this book illustrates how a genre found the world of finance during a particular historical moment but also how the world of finance found its genre This compelling narrative connects the past to our present financial landscape making it essential for anyone interested in the intersection of economic literary and cultural history New York Magazine ,1979-02-28 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *Imperfect Strangers* Salim Yaqub,2016-08-10 In *Imperfect Strangers* Salim Yaqub argues that the 1970s were a pivotal decade for U S Arab relations whether at the upper levels of diplomacy in street level interactions or in the realm of the imagination In those years Americans and Arabs came to know each other as never before With Western Europe s imperial legacy fading in the Middle East American commerce and investment spread throughout the Arab world The United States strengthened its strategic ties to some Arab states even as it drew closer to Israel Maneuvering Moscow to the sidelines Washington placed itself at the center of Arab Israeli diplomacy Meanwhile the rise of international terrorism the Arab oil embargo and related increases in the price of oil and expanding immigration from the Middle East forced Americans to pay closer attention to the Arab world Yaqub combines insights from diplomatic political cultural and immigration history to chronicle the activities of a wide array of American and Arab actors political leaders diplomats warriors activists scholars businesspeople novelists and others He shows that growing interdependence raised hopes for a broad political accommodation between the two societies Yet a series of disruptions in the second half of the decade thwarted such prospects Arabs recoiled from a U S brokered peace process that fortified Israel s occupation of Arab land Americans grew increasingly resentful of Arab oil pressures attitudes dovetailing with broader anti Muslim sentiments aroused by the Iranian hostage crisis At the same time elements of the U S intelligentsia became more respectful of Arab perspectives as a newly assertive Arab American community emerged into political life These patterns left a contradictory legacy of estrangement and accommodation that continued in later decades and remains with us today The Crash of the

Subcommittee on Taxation and Debt Management Generally,1978 *Citizenship, Security And Democracy Muslim Engagement With The West* Wanda Krause,2009-01-01 Citizenship Security and Democracy provides greater analysis of and seeks solutions to the challenges of citizenship security and democracy through fresh and more varied perspectives as is related to Islamic discourse and Muslim communities and their activism in the West These concerns have never been more pressing than today Democracy has been a global endeavour and concern as in its ideal form it gives promise to liberty freedoms and rights However after especially 9 11 and 7 7 securitization has become a more immediate goal making security the driving discourse today But both security

and democracy are becoming ever less attainable in today's climate of increased division and cleavages along ideological lines and Islamophobia an acute problem for citizenship in humanity On September 13 2006 the Association of Muslim Social Scientists AMSS UK and the Foundation for Political Economic and Social Research SETA held a three day conference to explore the challenges of democracy and security and importantly explore issues around citizenship and identity of Muslim diaspora Given the backdrop to a growing political discourse on the Muslim Other framed through the events of 9/11 and 7/7 and increased tension as a result of this discourse framing the aim was to help discern causes to the major challenges facing governments and the safety freedoms and dignity of individuals globally This was attempted through the study of Islamic thought and on the ground case study research of Muslim societies and communities This conference marks one of the major events to have been organised where such a large number of scholars experts and activists from a wide range of ideological positions and professional backgrounds come together in an ambitious attempt to resolve the most pressing issues at the turn of the 21st century Editor These papers have been published to widen discourse stimulate debate and hopefully pave the way for further research Doubtless readers may agree with some of the issues raised and disagree with others but it is hoped that overall both general and specialised readers will benefit from the perspectives offered and some of the more focused issues examined in the book
