The Creation of Nikolai Gogol Donald Fanger, 2009 Repetition and Creation Radosvet Kolarov, 2020-12-29 This book advances the notion of autotextuality the dialogue between works in an author's oeuvre and the ways in which new texts are created in self repetition through the tracing and revisiting of past texts and the subsequent uncovering of undisclosed meanings unexhausted constructive principles and alternative versions Kolarov draws on cognitive models such as dual coding theory and conceptual blending to substantiate a theory of autotextuality and build on previous work on self repetition and difference to highlight the notion of discursive desire in which new meanings are generated through repetition and its distinct relationship to creativity Drawing on analyses of well established works in Bulgarian as well as the established oeuvres of such authors as Gogol Dostoevsky Kafka and Baudelaire the volume explores key themes in autotextuality such as the functions of creative memory the connections between word and image and the hermeneutic relationships and steps of transformation between texts This innovative work addresses topical questions of importance in literary theory today and will be of interest to students and scholars in literary studies and related areas of study within such fields as cognitive science quantum mechanics and psychology **The Cambridge History of Russian Literature** Charles Moser, 1992-04-30 An updated edition of this comprehensive narrative history first published in 1989 incorporating a new chapter on the latest developments in Russian literature and additional bibliographical information The individual chapters are by well known specialists and provide chronological coverage from the medieval period on giving particular attention to the nineteenth and twentieth centuries and including extensive discussion of works written outside the Soviet Union The book is accessible to students and non specialists as well as to scholars of literature and provides a wealth of information Encyclopedia of the Romantic Era 1760-1850 Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism Essays on Gogol Susanne Fusso, Priscilla Meyer, 1994 These fourteen essays reflect the increasingly interdisciplinary character of Russian literature research in general and of the study of Gogol in particular focusing on specific works Gogol's own character and the various approaches to aesthetic religious and philosophical issues raised by his writing *Literary Biographies in The Lives of Remarkable People Series in Russia*, Ludmilla A. Trigos, Carol Ueland, 2022-03-14 The legendary Russian biography series The Lives of Remarkable People has played a significant role in Russian culture from its inception in 1890 until today The longest running biography series in world literature it spans three centuries and widely divergent political and cultural epochs Imperial Soviet and Post Soviet Russia The authors argue that

the treatment of biographical figures in the series is a case study for continuities and changes in Russian national identity over time Biography in Russia and elsewhere remains a most influential literary genre and the distinctive approach and branding of the series has made it the economic engine of its publisher Molodaia gvardiia The centrality of biographies of major literary figures in the series reflects their heightened importance in Russian culture The contributors examine the ways that biographies of Russia's foremost writers shaped the literary canon while mirroring the political and social realities of both the subjects and their biographers times Starting with Alexander Pushkin and ending with Joseph Brodsky the authors analyze the interplay of research and imagination in biographical narrative the changing perceptions of what constitutes literary greatness and the subversive possibilities of biography during eras of political censorship **The**

Saints and Revolutionaries Marcia A. Morris, 1993-02-04 An examination of literary works spanning more than seven centuries, this volume studies the ascetic hero and asceticism, exploring the elusive interplay between religion, politics, and belles lettres in Russia. The first part places works including the thirteenth-century Kievan *Crypt Patericon* and *Life of Avraamii Smolenskii Epifanii's Life of Sergii Radonezhskii* and other lives written in the north of Russia in the context of crucial religious doctrines such as apocalypticism and deification. The author shows how Old Russian literature plays a major cultural role in the continuing development of these doctrines on Russian soil. The second part traces a revival of the Russian fascination with themes of apocalypse and perfectibility to the nineteenth and early twentieth centuries. Morris also documents the development of a divergence in ideological approach between Russian writers who continued to view apocalypticism and deification as religious phenomena and those who used them as tools of social and political struggle. Works by Gogol, Tolstoy, Dostoevsky, Chernyshevsky, and Gorky, as well as classic novels of the socialist realist tradition, are analyzed as evidence of the underlying unity of the literary manifestations of this ostensibly bifurcated intellectual tradition.

A History of Russian Literature Andrew Kahn, Mark Lipovetsky, Irina Reyfman, Stephanie Sandler, 2018-04-05 Russia possesses one of the richest and most admired literatures of Europe, reaching back to the eleventh century. *A History of Russian Literature* provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day, still rife with the creative experiments of post-Soviet literary life. The volume proceeds chronologically in five parts, extending from Kievan Rus in the 11th century to the present day. The coverage strikes a balance between extensive overview and in-depth thematic focus. Parts are organized thematically in chapters which include a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers, institutions, and texts that take the reader up close. Visual material also underscores the interrelation of the word and image at a number of points, particularly significant in the medieval period and twentieth century. The History addresses major continuities and discontinuities in the history of Russian literature across all periods and, in particular, brings out trans-historical features that contribute to the notion of a national literature. The volume's time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries, space, Holy Russia, and the charismatic king that offers culturally relevant material to later writers. This volume delivers a fresh view on a series of key questions about Russia's literary history by providing new mappings of literary history and a narrative that pursues key concepts rather than individual authorial careers. This holistic narrative

underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures historical events and literary politics literary theory and literary innovation Historical Dictionary of Russian Theatre Laurence Senelick, 2015-08-13 A latecomer continually hampered by government control and interference the Russian theatre seems an unlikely source of innovation and creativity Yet by the middle of the nineteenth century it had given rise to a number of outstanding playwrights and actors and by the start of the twentieth century it was in the vanguard of progressive thinking in the realms of directing and design Its influence throughout the world was pervasive Nikolai Gogol Anton Chekhov and Maksim Gor'kii remain staples of repertoires in every language the ideas of Konstantin Stanislavskii Vsevolod Meierkhold and Mikhail Chekhov continue to inspire actors and directors while designers still draw on the graphics of the World of Art group and the Constructivists What distinguishes Russian theater from almost any other is the way in which these achievements evolved and survived in ongoing conflict or cooperation with the State This second edition of Historical Dictionary of Russian Theatre covers the history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 1000 cross referenced entries on individual actors directors designers entrepreneurs plays playhouses and institutions Censorship Children's Theater migr Theater and Shakespeare in Russia This book is an excellent access point for students researchers and anyone wanting to know more about Russian Theatre

Jonathan Stone, 2012-12-03 Russian literature is most celebrated for its Romantic and modernist poetry and 19th century novels While literary traditions of varying sorts have been part of Slavic and Russian culture for over a millennium it is only since the 18th century that they came to resemble literature from the West The Historical Dictionary of Russian Literature contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 100

cross referenced entries on significant people themes critical issues and the most significant genres that have formed Russian Literature This book is an excellent access point for students researchers and anyone wanting to know more about Russian literature **Gogol's Artistry** Andrei Bely, 2009-07-05 When one great author engages another as Andrei Bely so brilliantly does in Gogol's Artistry the result is inevitably a telling portrait of both writers So it is in Gogol's Artistry Translated into English for the first time this idiosyncratic exhaustive critical study is as interesting for what it tells us about Bely's thought and method as it is for its insights into the oeuvre of his literary predecessor Bely's argument in this book is that Gogol's earlier writing should be given more consideration than most critics have granted Employing what might be called a scientific perspective Bely considers how often certain colors appear he diagrams sentences and discusses Gogol's prose in terms of mathematical equations The result as strange and engaging as Bely's best fiction is also an innovative thorough and remarkably revealing work of criticism **Authenticity and Fiction in the Russian Literary Journey,**

1790-1840 Andreas Schönle, 2000 In illuminating analyses of major texts as well as lesser known but influential works Andreas Schönle surveys the literary travelogue a form marked by a fully developed narrator's voice interpretive impressions scenic descriptions and extended narrative from its emergence in Russia to the end of the Romantic era In Praise of Antiheroes Victor Brombert, 1999-04-15 A book tracing the rise of the antihero in modern literature The author defines him as someone whose courage displays our own needs and deficiencies For example he achieves dignity through humiliation or suffers a reversal through his honesty *How Russian Literature Became Great* Rolf Hellebust, 2024-01-15 How Russian Literature Became Great explores the cultural and political role of a modern national literature orchestrated in a Slavonic key but resonating far beyond Russia's borders Rolf Hellebust investigates a range of literary tendencies philosophies and theories from antiquity to the present Roman jurisprudence to German Romanticism French Enlightenment to Czech Structuralism Herder to Hobsbawm Samuel Johnson to Sainte Beuve and so on Besides the usual Russian suspects from Pushkin to Chekhov Hellebust includes European writers Byron and Shelley Goethe and Schiller Chateaubriand and Baudelaire Dante Mickiewicz and more As elsewhere writing in Russia advertises itself via a canon of literary monuments constituting an atemporal ideal order among themselves T S Eliot And yet this is a tradition that could only have been born at a specific moment in the golden nineteenth century age of historiography and nation building The Russian example reveals the contradictions between immutability and innovation universality and specificity at the heart of modern conceptions of tradition from Sainte Beuve through Eliot and down to the present day The conditions of its era of formation the prominence of the crucial literary historical question of the writer's social function and the equation of literature with national identity make the Russian classical tradition the epitome of a unified cultural text with a complex narrative in which competing stories of progress and decline unfold through the symbolic biographical encounters of the authors who constitute its members How Russian Literature Became Great thus offers a new paradigm for understanding the paradoxes of modern

tradition **The Tender Passion** Peter Gay,1999 The Tender Passion looks at the Victorian middle classes ideal and real notions of love *The Cambridge Companion to Modern Russian Culture* Nicholas Rzhevsky,2012-04-05 A fully updated new edition of this overview of contemporary Russia and the influence of its Soviet past *The Oxford Handbook of European Romanticism* Paul Hamilton,2016 The Oxford Handbook of European Romanticism focuses on the period beginning with the French Revolution and extending to the uprisings of 1848 across Europe It brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The volume begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others Then follows a second section based on the naturally inter disciplinary quality of Romanticism encapsulated by the different discourses with which writers of the time set up an internal comparative dynamic These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of understanding and the Enlightenment encyclopaedic project Discourses typically push their individual claims to resume European culture collaborating and trying to assimilate each other in the process The main examples featuring here are history geography drama theology language geography philosophy political theory the sciences and the media Each chapter offers original and individual interpretation of individual aspects of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and unique overview of European Romanticism
