**American Book Publishing Record** ,2003 The Cosmos and the Creative Imagination Anna-Teresa Tymieniecka, Patricia Trutty-Coohill, 2016-02-03 The essays in this book respond to Anna Teresa Tymieniecka s recent call to explore the relationship between the evolution of the universe and the process of self individuation in the ontopoietic unfolding of life The essays approach the sensory manifold in a number of ways They show that theories of modern science become a strategy for the phenomenological study of works of art and vice versa Works of phenomenology and of the arts examine how individual spontaneity connects with the design s of the logos of the whole and of the particulars while the design s rest not on some human concept but on life itself Life s pliable matrices allow us to consider the expansiveness of contemporary science and to help create a contemporary phenomenological sense of cosmos *Atlantic Monthly* ,1925 The Atlantic Monthly ,1925

The Christian Work and the Evangelist ,1906 The Philosophical Reflection of Man in Literature Anna-Teresa Tymieniecka, 2012-12-06 Creative Understanding Hermann Graf von Keyserling, 1929 *The Essays of Erich Neumann, Volume 3* Erich Neumann, 2017-03-14 The Israeli analytical psychologist Erich Neumann whom C G Jung regarded as one of his most gifted students devoted much of his later writing to the theme of creativity This is the third volume of Neumann s essays on that subject Neumann found his examples not only in the work of writers and artists William Blake Goethe Rilke Kafka Klee Chagall Picasso Trakl but as well in that of physicists biologists psychiatrists and philosophers Confronting the problem of portraying men and women as creative beings Neumann expanded the concepts of Jungian psychology with a more comprehensive definition of the archetype and a new concept unitary reality Whether or not humanity can be restored

to health from its present situation as a self endangered species depends according to Neumann on whether we can experience ourselves as truly creative in touch with our own being and the world's being. The six essays comprising this volume: *The Psyche and the Transformation of the Reality Planes*, *The Experience of the Unitary Reality*, *Creative Man and the Great Experience*, *Man and Meaning*, *Peace as the Symbol of Life* and *The Psyche as the Place of Creation* all originated as lectures at the Eranos Conferences in the years 1952 to 1960. **Creative Freedom** Joseph Warren Teets Mason, 1926      **Psychoanalysis, Mysticism and the Problem of Epistemology** Alice Bar Nes, 2021-09-09. This book presents key psychoanalytic theories from a fresh perspective that of the mystical element. The author explores the depth structure of central assumptions in psychoanalytic theory to uncover the mystical core of conventional analytic thinking. Exploring authors from Freud and Ferenczi through Bion and Winnicott to contemporary voices such as Ogden Bollas and Eigen, the book shows that psychoanalysis has always operated on the assumption of psychic overlap, a soul to soul contact between patient and analyst. Surprisingly, the book shows how this magical facet goes hand in hand with a pragmatic worldview that explores the epistemological complexities of psychoanalysis in search of a way to join the subjective even the mystical with the practical aim of serving as a validated mental health discipline. This is accomplished through an interdisciplinary and intertextual encounter between psychoanalysis and the innovative pairing of William James' pragmatic philosophy and Martin Buber's dialogic thought. The author's paradoxical stance surrounding the nature and role of psychoanalysis and its mystical facet resonates the great challenge embedded in Winnicott's insistence on tolerating paradox and Bion's demand to respect all parts of the psychoanalytic truth in this case, the practical and mundane alongside the mystical and magical. The book's broad interdisciplinary outlook will captivate both psychoanalysts and psychoanalytic therapists as well as scholars of philosophy. *Vikalpa*, 1985      [Romanian Cultural Identity and Education for Civil Society](#) Magdalena Dumitrana, 2004      *The Creative Process* Brewster Ghiselin, 1952

**Conscious Love** Richard Smoley, 2008-03-31. Though love is a perennial topic for writers of all kinds, much of what is written about love is simplistic and unsatisfying. In *Conscious Love*, Richard Smoley, an expert on the esoteric traditions of mystical Christianity, incorporates insights and wisdom about love from noted thinkers in literature, art, philosophy, sociology, cultural criticism, and even neurology. This remarkable book offers a blueprint for infusing conscious love into human relationships.
