The Culture Of Exception Sociology Facing The Camp:

The Culture of Exception Bülent Diken, Carsten Bagge Laustsen, 2005 The camp is no longer an exception but the rule This book investigates the paradox of the camp which represents both an old fear of enclosure and a new dream of belonging

Gender, Identity and Migration in India Nasreen Chowdhury, Paula Banerjee, 2022-02-10 The book focuses on voices of displaced women who constitute a critical part of the migration process through an unravelling of the engendered displacement It draws attention to the various processes methods and approaches by national and international human rights and humanitarian laws and principles and the experiences of the relevant communities organisations towards peaceful co existence The contributions to this volume embellish the argument that there is a direct correlation between an academic researcher s positionality methods and trajectories of critical knowledge production In particular feminist epistemologies with specific emphasis on post coloniality utilized in conjunction with scholarship related to transnational migration studies constitute a distinctly powerful vantage point for challenging methodological nationalism and the syndrome of seeing like the state in the area of forced migration studies

Terror and the Dynamism of Islamophobia in 21st Century Britain Madeline-Sophie Abbas, 2021-08-04 This book provides powerful insights into the dynamics nature and experiences of the terrors of counter terrorism measures in the UK Abbas links her analysis to wider concerns of nation construction and belonging racial profiling and policing the state of exception and pre emptive counter terrorism measures community based counter terrorism measures and restrictions to political engagement freedom of speech and hate speech What makes this work distinct is its advancement of an original framework the Concentrationary Gothic to delineate the racialised mechanisms of terror involved in the governance of Muslim populations in the war on terror context The book illuminates the various ways in which Muslims in Britain experience terror through racialised surveillance and policing strategies operating at state group inter and intra and individual levels in diverse contexts such as the street workplace public transport and the home Abbas situates these experiences within wider racial politics and theory drawing connections to anti-Semitism anti blackness anti Irishness and whiteness to provide a complex mapping of the ways in which racial terror has operated in both historical and contemporary contexts of colonialism slavery and the camp and offering a unique point of analysis through the use of Gothic tropes of haunting monstrosity and abjection This vital work will be of interest to students and scholars across

sociology criminology anthropology terrorism studies Islamic studies and critical Muslim studies researching race and racialisation security immigration nationhood and citizenship **Crossing Borders** Mimi Sheller, Kevin Hannam, 2018-10-18 Crossing Borders examines how translocal transnational and internal borders of various kinds distribute uneven capabilities for moving dwelling and circulating The contributors offer nuanced understandings of the politics of mobility across various kinds of borders and forms of cultural circulation showing how people experience and practice crossing many different borders Several chapters draw on interviews and ethnographic methods to analyze transnational migration while others focus on material relations and cultural practices Rather than the usual narrative of mobility as a kind of freedom border crossing emerges here as an instrumental practice for building translocal livelihoods a tactic for simply getting by and a material practice potentially generating new forms of future sociality Ultimately these diverse perspectives on crossing borders offer new ways to think about the mobility of political relations and the politics of mobile relations in a world of growing circulation across borders but also flexible forms of re bordering This book was originally published as a special issue of *Mobilities* Global Powers of Horror Francois Debrix, 2016-12-19 Global Powers of Horror examines contemporary regimes of horror into horror's intricacies and into their deployment on and through human bodies and body parts To track horror's work what horror decomposes and perhaps recomposes Debrix goes beyond the idea of the integrality and integrity of the human body and it brings the focus on parts pieces or fragments of bodies and lives Looking at horror's production of bodily fragments both against and beyond humanity the book is also about horror's own attempt at re forming or re creating matter from the perspective of post human non human and inhuman fragmentation Through several contemporary instances of dismantling of human bodies and pulverization of body parts this book makes several interrelated theoretical contributions It works with contemporary post geo political figures of horror faces of concentration camp dwellers body parts of victims of terror attacks the outcome of suicide bombings graphic reports of beheadings re compositions of melted and mingled remnants of non human and human matter after 9 11 to challenge regimes of terror and security that seek to forcefully and ideologically reaffirm a biopolitics and thanatopolitics of human life in order to anchor today's often devastating deployments of the metaphysics of substance Critically enabling one to see how security and terror form a geo political continuum of violent mobilization utilization and often destruction of human and non human bodies and lives this book will be of interest to graduates and scholars of bio politics international relations and security studies **Under Surveillance** Randolph Lewis, 2017-11-01 An engaging alarming and enlightening book one that is certain to be among the most important books on surveillance in the twenty first century Siva Vaidhyanathan author of *Antisocial Media* Never before has so much been known about so many CCTV cameras TSA scanners NSA databases big data marketers predator drones stop and frisk tactics Facebook algorithms hidden spyware and even old fashioned nosy neighbors surveillance has become so ubiquitous that we take its presence for granted While many types of surveillance are pitched as ways to make us safer almost no one has

examined the unintended consequences of living under constant scrutiny and how it changes the way we think and feel about the world In *Under Surveillance* Randolph Lewis offers a highly original look at the emotional ethical and aesthetic challenges of living with surveillance in America since 9 11 Taking a broad and humanistic approach Lewis explores the growth of surveillance in surprising places such as childhood and nature He traces the rise of businesses designed to provide surveillance and security including those that cater to the Bible Belt s houses of worship And he peers into the dark side of playful surveillance such as eBay s online guide to Fun with Surveillance Gadgets A worried but ultimately genial guide to this landscape Lewis helps us see the hidden costs of living in a control society in which surveillance is deemed essential to governance and business alike Written accessibly for a general audience *Under Surveillance* prompts us to think deeply about what Lewis calls the soft tissue damage inflicted by the culture of surveillance A sprightly tour down some of the surveillance society s most claustrophobic corridors Cory Doctorow New York Times bestselling author

Constituting Communities P. Mouritsen, 2008-02-27 From a cross disciplinary and conceptual perspective this book discusses the political solutions of constitutional patriotism republicanism and liberal nationalism to cultural conflict It places these debates in the context of real national traditions where all civic language inevitably also reflects culture *Exceptionalism and the Politics of Counter-Terrorism* Andrew W. Neal, 2009-10-16 This book is an analysis and critique of the concepts of exception and exceptionalism in the context of the politics of liberty and security in the so called War on Terror Since the destruction of the World Trade Centre on September 11th 2001 a notable transformation has occurred in political discourse and practice Politicians and commentators have frequently made the argument that the rules of the game have changed that this is a new kind of war and that exceptional times require exceptional measures Under this discourse of exceptionalism an array of measures have been put into practice such as detention without trial extraordinary rendition derogations from human rights law sanction or connivance in torture the curtailment of civil liberties and aggressive war against international law Situating exceptionalism within the post 9 11 controversy about the relationship between liberty and security this book argues that the problem of exceptionalism emerges from the limits and paradoxes of liberal democracy itself It is a commentary and critique of both contemporary practices of exceptionalism and the critical debate that has formed in response Through a detailed assessment of the key theoretical contributions to the debate this book develops exceptionalism as a critical tool It also engages with the problem of exceptionalism as a discursive claim as a strategy as a concept as a theoretical problem and as a practice This is the first book to capture the importance of the exceptionalism debate in a single volume and will be of much interest to students of critical security studies political philosophy IR theory and sociology

Beyond Security, Ethics and Violence Anthony Burke, 2007-02-12 In a world plagued by war and terror *Beyond Security Ethics and Violence* sounds a warning not only are global patterns of insecurity violence and conflict getting ever more destructive and out of hand but the ways we understand and respond to them will only prolong the crisis When security is

grounded in exclusion and alienation ethics licenses killing and war and freedom is a mask for imperial violence how should we act Anthony Burke offers a groundbreaking analysis of the historical roots of sovereignty and security his critique of just war theory and important new essays on strategy the concept of freedom and US exceptionalism He pursues critical engagements with thinkers such as Giorgio Agamben Hardt and Negri Emmanuel Levinas Carl Von Clausewitz Jean Bethke Elshtain Michael Walzer Michel Foucault and William Connolly Combining a diversity of critical thought with analyses of the War on Terror Iraq the Israeli Palestinian conflict the Vietnam War the Indonesian crisis globalization and the new drive for empire Burke refuses easy answers or to abandon hope This innovative study will be of interest to students and researchers of politics and international relations security studies social and cultural theory and philosophy

Visual Worlds John R Hall, Blake Stimson, Lisa Tamiris Becker, 2006-02-01 As many observers have noted the world is becoming increasingly visually mediated with the rise of computers and the internet being central factors in the emergence of new tools and conventions Exploring the social structure of visuality this volume contains a collection of essays by internationally renowned artists and scholars from a variety of fields including art history literary theory and criticism cultural studies film and television studies intellectual history and sociology It was conceived to address a bold query how is our experience and understanding of vision and visual form changing under pressure from the various social economic and cultural factors that are linked under the term globalization The essays overlap in their considerations of the tensions between cultures and worlds political life everyday social experience and war The resulting conversation that develops between the chapters touches on points from many visual worlds and provides a unique opportunity for considering the changing character of visual experience today This book will attract readers from a wide range of academic disciplines and will especially be valuable as a textbook for graduate and undergraduate courses in visual culture and cultural studies

Theories of the Information Society Frank Webster, 2014-03-21 Information is regarded as a distinguishing feature of our world Where once economies were built on industry and conquest we are now part of a global information economy Pervasive media expanding information occupations and the development of the internet convince many that living in an Information Society is the destiny of us all Coping in an era of information flows of virtual relationships and breakneck change poses challenges to one and all In Theories of the Information Society Frank Webster sets out to make sense of the information explosion taking a sceptical look at what thinkers mean when they refer to the Information Society and critically examining the major post war approaches to informational development The fourth edition of this classic study brings it up to date with new research and with social and technological changes from the Twitter Revolutions of North Africa to financial crises that introduced the worst recession in a life time to the emergence of social media and blogging and reassesses the work of key theorists in the light of these changes More outspoken than in previous editions Webster urges abandonment of Information Society scenarios preferring analysis of the informatization of long established relationships This interdisciplinary book is

essential reading for those trying to make sense of social and technological change in the post war era It addresses issues of central concern to students of sociology politics geography communications information science cultural studies computing and librarianship *Revolt, Revolution, Critique* Bulent Diken, 2012-03-15 In contemporary society the idea of revolution seems to have become obsolete What is more untimely than the idea of revolution today At the same time however the idea of radical change no longer refers to exceptional circumstances but has become normalized as part of daily life Ours is a culture of permanent revolution in which constant systemic disembedding demands a meta stable subjectivity in continuous transformation In this sense the idea of revolution is painfully timely This paradoxical coincidence the simultaneous absence and presence of the desire for radical change in contemporary society is the point of departure for the symptomatic reading this book offers The book addresses the social political and cultural significance of revolt and revolution in three dimensions First it analyzes revolt and revolution as events which are of history but not reducible to it Second it elaborates on theories that grant revolt and revolution a central place in their structure Thirdly it discusses revolutionary or emancipatory theories that seek to participate in radical change Further since both revolt and revolution involve the critique of what exists of actual reality the implications of the intimate relationship between revolt revolution and critique are explicated **Stillness in a**

Mobile World David Bissell, Gillian Fuller, 2013-01-11 This edited collection of essays on the conceptual political and philosophical importance of stillness is positioned within a world that has increasingly come to be understood through the theoretical and conceptual lens of movement With contributions from leading scholars in the field the diversity of this collection illuminates the multiplicity of ontological and epistemological registers through which stillness moves from human geography to media studies cultural theory to fine arts With the help of luminaries such as Deleuze Bergson Barthes and Beckett this book interweaves cutting edge theoretical insight with empirical illustrations which examine and traverse a multitude of practices spaces and events In an era where stasis slowness and passivity are often held to be detrimental this collection puts forward a new set of political and ethical concerns which help us to come to terms with understand and account for im mobile life Stillness in a Mobile World in an essential source of reference for both undergraduate and post graduate students working within disciplines such as cultural studies sociology mobility studies and human geography

Unintended Outcomes of Social Movements Fang Deng, 2014-03-18 Why did the 1989 Chinese student movement end in violent confrontation at Tiananmen Square despite the fact that both the Chinese government and the students very much wanted to avoid violence This puzzle which lies at the heart of the tragic events at Tiananmen is addressed here from a fresh perspective that sheds new insight into these dramatic events Throughout *Unintended Outcomes in Social Movements* Deng applies the formal methods of game theory to elucidate some of the contingent strategic decision making by both sides in a social movement state confrontation and how those decisions can and did lead to an unintended outcome In identifying the necessary cause of the Tiananmen tragedy namely a newly created social system with four highly specific properties this

book provides the first adequate explanation of the Tiananmen events Because of this it stands to make a significant stride toward convincing students of political conflict of the explanatory power of formal game theoretic models This book is an excellent source of reference for both undergraduate and postgraduate students in areas including Chinese politics social movements game theory economics and social theory

Staging Mobilities Ole B. Jensen, 2013-03-05 In recent years the social sciences have taken a mobilities turn There has been a developing realisation that mobilities do not just happen Mobilities are carefully and meticulously designed planned and staged from above However they are equally importantly acted out performed and lived as people are staging themselves from below Staging mobilities is a dynamic process between being staged for example being stopped at traffic lights and the mobile staging of interacting individuals negotiating a passage on the pavement Staging Mobilities is about the fact that mobility is more than movement between point A and B It explores how the movement of people goods information and signs influences human understandings of self other and the built environment Moving towards a new understanding of the relationship between movement interaction and environments the book asks what are the physical social technical and cultural conditions to the staging of contemporary urban mobilities Jensen argues that we need to understand the contemporary city as an assemblage of circulating people goods information and signs in relational networks creating the meaning of movement The book will be of interest to students and scholars of sociology urban studies mobility studies architecture and cultural studies

China Constructing Capitalism Michael Keith, Scott Lash, Jakob Arnoldi, Tyler Rooker, 2013-09-23 China has been growing at over ten per cent annually since 1978 but this has only come to very widespread notice in the past decade This received wisdom about China has been largely of two types both of which more or less understand China in the context of neoliberalism The more business or business studies oriented literature seems to argue that if China does not adapt the rule of clear and distinct property and contract law in short of Western institutions its economy will stall The second set of voices is more clearly from the left arguing that the Chinese economy and city is neo liberal For them China does not diverge widely from the Anglo American model that from 2008 has brought the world economy to its knees China Constructing Capitalism takes issue with these analyses The authors argue that it is not Western neo liberalism that is constructing the Chinese economy but instead that China is constructing its own version of capitalism The two central theses of their argument are economic life neo liberal economic life is individualized and disembedded while the China model is relational and situated urban change China has created a form of local state capitalism which stands in contrast to neoliberal versions of the city This book analyses China as a risk culture examining among others Chinese firms and political ties property development migrant urbanisms and share trading rooms It scrutinises the ever present shadow of the risk averse yet uncertainty creating state China Constructing Capitalism is a must read for social scientists policy makers and investors

Jean Baudrillard David B. Clarke, Marcus Doel, William Merrin, Richard G. Smith, 2008-09-25 Containing two previously unpublished essays by Jean Baudrillard this book provides a

series of dazzling demonstrations of the power of Baudrillard's thought from many of his most accomplished commentators

Mobile Lives Anthony Elliott, John Urry, 2010-06-10 How should we understand the personal and social impacts of complex mobility systems Can lifestyles based around intensive travel transport and tourism be maintained in the 21st century What possibility post carbon lifestyles In this provocative study of life on the move Anthony Elliott and John Urry explore how complex mobility systems are transforming everyday ordinary lives The authors develop their arguments through an analysis of various sectors of mobile lives networks new digital technologies consumerism the lifestyles of globals and intimate relationships at a distance Elliott and Urry introduce a range of new concepts miniaturized mobilities affect storage network capital meetingness neighbourhood lives portable personhood ambient place globals to capture the specific ways in which mobility systems intersect with mobile lives This book represents a novel approach in post carbon social theory It will be essential reading for advanced undergraduate students postgraduates and teachers in sociology social theory politics geography international relations cultural studies and economics and business studies *Multicultural Horizons* Anne-Marie Fortier, 2008-03-07 Introducing the concept of multicultural intimacies this book offers a new form of critical engagement with the cultural politics of multiculturalism one that attends to ideals of mixing loving thy neighbour and feelings for the nation In the first study of its kind Fortier considers the anxieties desires and issues that form representations of multicultural Britain available in the public domain
