## **Strange New Religions:**

**Strange Rites** Tara Isabella Burton, 2020-06-16 A sparkingly strange odyssey through the kaleidoscope of America's new spirituality the cults practices high priests and prophets of our supposedly post religion age Fifty five years have passed since the cover of Time magazine proclaimed the death of God and while participation in mainstream religion has indeed plummeted Americans have never been more spiritually busy While rejecting traditional worship in unprecedented numbers today's Americans are embracing a kaleidoscopic panoply of spiritual traditions rituals and subcultures from astrology and witchcraft to SoulCycle and the alt right As the Internet makes it ever easier to find new tribes and consumer capitalism forever threatens to turn spirituality into a lifestyle brand remarkably modern American religious culture is undergoing a revival comparable with the Great Awakenings of centuries past Faith is experiencing not a decline but a Renaissance Disillusioned with organized religion and political establishments alike more and more Americans are seeking out spiritual paths driven by intuition not institutions In *Strange Rites* religious scholar and commentator Tara Isabella Burton visits with the techno utopians of Silicon Valley Satanists and polyamorous communities witches from Bushwick wellness junkies and social justice activists and devotees of Jordan Peterson proving Americans are not abandoning religion but remixing it In search of the deep and the real they are finding meaning purpose ritual and communities in ever newer ever stranger ways

**Strange New Religions** Leon McBeth, 1977      **The Encyclopedia of Cults, Sects, and New Religions** James R. Lewis, 2001-03 Surpassing the scope and the thoroughness of the first edition this new edition of *The Encyclopedia of Cults, Sects, and New Religions* is the most wide ranging and accessible resource on the historically significant and more obscure sinister and bizarre religious groups Including many entries by scholarly specialists this volume explains more than 1 000 diverse groups and movements from such well known sects as the Branch Davidians Aum Shinrikyo and Heaven's Gate to obscure groups like Ordo Templi Satanas Witches International and the Nudist Christian Church of the Blessed Virgin Jesus In addition to an exhaustive index and handy cross references the second edition includes over a hundred new topical entries on subjects relevant to understanding sectarian movements from snake handling and satanic ritual abuse to brainwashing and exorcism This book a must for all libraries and schools will endure as the first and only point of reference for researchers scholars students and anyone interested in fringe religious groups      **Legitimizing New Religions** James R. Lewis, 2003 James R Lewis has written the first book to deal explicitly with the issue of how emerging religions legitimate themselves He contends that a new religion has at least four different though overlapping areas where legitimacy is a concern making converts maintaining followers shaping public opinion and appeasing government authorities The legitimacy that new religions seek in the public realm is primarily that of social acceptance Mainstream society's acknowledgement of a religion as legitimate means recognizing its status as a genuine religion and thus recognizing its right to exist Through a series of wide ranging case studies Lewis explores the diversification of legitimization strategies of new religions as well the tactics that

their critics use to de legitimate such groups Cases include the Movement for Spiritual Inner Awareness Native American prophet religions spiritualism the Church of Christ Scientist Scientology Church of Satan Heaven s Gate Unitarianism Hindu reform movements and Soka Gakkai a new Buddhist sect Since many of the issues raised with respect to newer religions can be extended to the legitimation strategies deployed by established religions this book sheds an intriguing new light on classic questions about the origin of all religions      *When Prophets Die* Timothy Miller,1991-01-01 When the charismatic founder leader of a religious movement dies the popular belief is that the movement usually disintegrates However many new religions not only survive but prosper despite leadership transition In this book prominent scholars examine what happened to eleven new movements following the deaths of their leaders and why An Introduction by J Gordon Melton serves to integrate the case studies      *Strange Religion* Nijay K. Gupta,2024-02-27 A fresh and rigorously researched take on Christianity s founding Publishers Weekly The first Christians were weird Just how weird is often lost on today s believers Within Roman society the earliest Christians stood out for the oddness of their beliefs and practices They believed unusual things worshiped God in strange ways and lived a unique lifestyle They practiced a whole new way of thinking about and doing religion that would have been seen as bizarre and dangerous when compared to Roman religion and most other religions of the ancient world Award winning author blogger speaker and New Testament teacher Nijay Gupta traces the emerging Christian faith in its Roman context in this accessible and engaging book Christianity would have been seen as radical in the Roman world but some found this new religion attractive and compelling The first Christians dared to be different pushed the boundaries of what was acceptable transformed how people thought about religion and started a movement that grew like wildfire Brought to life with numerous images this book shows how the example of the earliest Christians can offer today s believers encouragement and hope      New Religions Eugene V. Gallagher, Lydia Willsky-Ciollo,2021-02-15 A valuable resource for students and general audiences this book provides a unique global perspective on the history beliefs and practices of emergent faith communities new religious traditions and religious movements worldwide from the 19th century to the present New Religions Emerging Faiths and Religious Cultures in the Modern World provides insightful global perspectives on the emergent faith communities and new traditions and movements of the last two centuries Readers will gain access to the information necessary to explore the significance complexities and challenges that modern religious traditions have faced throughout their history and that continue to impact society today The work identifies the themes and issues that have often brought new religions into conflict with the larger societies of which they are a part Coverage includes new religious groups that emerged in America such as the Seventh day Adventists the Latter day Saints and the Jehovah s Witnesses alternative communities around the globe that emerged from the major Western and Eastern traditions such as Aum Shinrikyo and Al Qaeda and marginalized groups that came to a sudden end such as the Peoples Temple Heaven s Gate and the Branch Davidians The entries highlight thematic and broader issues that

run across the individual religious traditions and will also help students analyze and assess the common difficulties faced by emergent religious communities

**Krishna Consciousness in the West** David G. Bromley, Larry D. Shinn, 1989 Scholars of comparative religion theology philosophy History sociology and psychology and members of the Hare Krishna movement discuss the history theology and organization of the International Society for Krishna Consciousness and public reaction to the movement in America

Japanese Religions on the Internet Erica Baffelli, Ian Reader, Birgit Staemmler, 2013-05-13 Japanese Religions on the Internet draws attention to how religion is being presented represented and discussed on the Japanese Internet Its intention is to contribute to wider discussions about religion and the Internet by providing an important example based on one of the Internet s most prominent languages of how new media technologies are being used and are impacting on religion in the East Asian context while also developing further our understandings of religion in a technologically advanced country Scholars studying the relationship of religion and the Internet can no longer work on prevailing notions that have thus far characterised the field such as the assumption that the Internet is a Western centric phenomenon and that studies of English language sites relating to religion can provide a viable model for wider analyses of the topic Despite this growing amount of research on religion and the Internet comparatively little has focused on non Western cultures The general field of study relating to religion and the Internet has paid scant attention to Asian contexts The field needs a full length and comprehensive study that focuses on the Japanese religious world and the Internet not merely to redress the imbalances of the field thus far but also because such studies will be central to the emerging field of the study of religion and the Internet in future They will provide important means of developing new theories constructing new paradigms and understanding the underlying dynamics of this new media form

### Strange New Religions Introduction

In the digital age, access to information has become easier than ever before. The ability to download Strange New Religions has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Strange New Religions has opened up a world of possibilities. Downloading Strange New Religions provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Strange New Religions has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Strange New Religions. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Strange New Religions. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Strange New Religions, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Strange New Religions has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
