Strangers And Aliens:

Strangers & Aliens Trey Dunham, 2013-04-04 My life is full of doubt and uncertainty It is full of strangeness and a deep sense that I don't really live here that this is not my home And because of that I know there must be a different way a different life to be lived out there somewhere And all this feels like a journey a path laid out by someone bigger and wiser and with a far better perspective than mine Filled with pain and disappointment and struggle and joy and peace and laughter and tears But I know I am on my way home I am on my way to God Strangers Aliens offers a unique look at Peter's first letter through the eyes of new author Trey Dunham A world traveller pastor teacher and church planter Trey's insight humor and authenticity will help you find your way God's way and His place for you as he guides you a stranger and an alien through this life

Strangers in the Light Torrey Seland, 2021-09-20 The author of the present work wants to throw new light on the intended readers of 1 Peter by investigating what it could possibly mean that they were to live as Strangers in the Light It is argued that the author of 1 Peter considers his readers as living a life influenced by social circumstances very much comparable to those of the Diaspora proselytes to Judaism Hence similar discussions in Jewish Diaspora works can illuminate his descriptions and exhortations Among these Diaspora works the works of Philo of Alexandria should be drawn into the discussions in a much more comprehensive way than has been done so far In addition to a study of the role of Silvanus in the making of the letter this volume contains four studies that carry out what the author calls philonic readings of central issues of 1 Peter 2:5-11 The study will demonstrate the usefulness of Jewish diaspora works for understanding the social life of the early Christians

Aliens & Strangers? Anna Strhan, 2015-06-19 In this work of qualitative sociology Anna Strhan offers an in depth study of the everyday lives of members of a conservative evangelical Anglican church in London St John's is a vibrant church with a congregation of young and middle aged members one in which the life of the mind is important and faith is both a comfort and a struggle a way of questioning the order of things within society and for themselves The congregants of St John's see themselves as increasingly counter cultural moving against the grain of wider culture in London and in British society yet they take pride in this and see it as a central element of being Christian This book reveals the processes through which the congregants of St John's learn to understand themselves as aliens and strangers in the world demonstrating the precariousness of projects of staking out boundaries of moral distinctiveness Through focusing on their interactions within and outside the church Strhan shows how the everyday experiences of members of St John's are simultaneously shaped by the secular norms of their workplaces and other city spaces and by moral and temporal orientations of their faith that rub against these Thus their self identification as aliens and strangers both articulates and constructs an ambition to be different from others around them in the city rooted in a consciousness of the extent to which their hopes concerns and longings are simultaneously shaped by their being in the world

Strangers & Aliens Tony Breeden, 2016-10-19 If you've ever wondered about UFOs or extraterrestrial life but then been told that the Bible tells us aliens aren't possible or that aliens are just demons in disguise you need to read this book Join Christian apologist and science fiction author Tony Breeden in the book that has quickly become the Most Hated Book in Creationism as he explores these questions Are aliens behind the UFO phenomenon Do they exist at all Can a Christian believe that God created extraterrestrials Would ET need to be saved Are angels and aliens the same thing Would we even believe in aliens without science fiction or the idea of evolution If aliens exist is creationism a lie Are aliens really just fallen angels in disguise What is the truth Does the Bible have anything to say about all of this The truth is out there and it will set you free **You Shall Love the Stranger as Yourself** Fleur S Houston, 2015-03-24 You Shall Love the Stranger as Yourself

addresses the complex political legal and humanitarian challenges raised by asylum seekers and refugees from a Biblical perspective The book explores the themes of humanity and justice through exegesis of relevant passages in the Old and New Testaments skillfully woven into accounts of contemporary refugee situations Applying Biblical analysis to one of the most pressing humanitarian concerns of modern times Houston creates a timely work that will be of interest to students and scholars of theology religion and human rights *Strange Encounters* Sara Ahmed, 2013-02-01 Examining the relationship between strangers embodiment and community Strange Encounters challenges the assumptions that the stranger is simply anybody we do not recognize and instead proposes that he or she is socially constructed as somebody we already know Using feminist and postcolonial theory this book examines the impact of multiculturalism and globalization on embodiment and community whilst considering the ethical and political implication of its critique for post colonial feminism A diverse range of texts are analyzed which produce the figure of the stranger showing that it has alternatively been expelled as the origin of danger such as in neighbourhood watch or celebrated as the origin of difference as in multiculturalism The author argues that both of these standpoints are problematic as they involve stranger fetishism they assume that the stranger has a life of its own **Theologizing in the Radical Middle** Ryun H. Chang, 2018-09-17 This book doesn't endorse any

systematic theology rather it's about how we theologize Why do two equally trained theologians studying the same book and loving the same Lord arrive at such different conclusions This theological disagreement at times becoming personal spills over from the academia to seminaries and churches And if history is any indicator this always weakens the unity of the church Who needs unity when correct doctrines are at stake right But is the defense of all doctrines worth foregoing the unity of the church despite Jesus' prayer that they may be one even as we are one At bottom our theological contentiousness stems from not recognizing that the way biblical revelation is framed is not designed to be handled the way seminaries typically do Regardless we strive for the rightness of our tidy theology even disowning those who disagree while doing so The disavowal of continuationists by the Strange Fire crowd is the most recent instance in a long line of placing doctrinal purity

over the unity of the body This book uncovers how Scripture is really structured and how therefore we need to theologize differently so that we may grow spiritually in Word and Spirit Home in Motion: The Shifting Grammars of Self and Stranger Pedro F. Marcelino, 2020-05-06 Home in Motion The Shifting Grammars of Self and Stranger is a collection of essays on contemporary identities and ethnoscapas from Australia to South Africa from Morocco to Nepal and everywhere in between
