Strangers Settled Here Amongst Us Laura Hunt Yungblut, 2003-09-02 During the reign of Elizabeth I large numbers of aliens immigrated into England for various reasons most notably to escape religious persecution and the wars that wrecked the Continent in the sixteenth century Much like governments facing immigration issues today England s governors struggled to strike a balance between the potentially beneficial and the potentially dangerous aspects of the aliens presence **Strangers Settled Here Amongst Us** focuses on the link between the aliens native English and the central government It explores policies and attitudes bringing new perspectives to familiar documents as well as introducing documents rarely seen in the subject s scholarship **The Unwanted** Michael Robert Marrus, There have always been homeless people but only in the twentieth century have refugees become an important part of international politics seriously affecting relations between states Since the 1880s the number of displaced persons has climbed astronomically with people scattered over vaster distances and for longer periods of time than ever before Tracing the emergence of this new variety of collective alienation **The Unwanted** covers everything from the late nineteenth century to the present encompassing the Armenian refugees the Jews the Spanish Civil War migr s the Cold War refugees in flight from Soviet states and much more Marrus shows not only the astounding dimensions of the subject but also depicts the shocking apathy and antipathy of the international community toward the homeless He also examines the impact of refugee movements on Great Power diplomacy and considers the evolution of agencies designed to assist refugees noting outstanding successes and failures **The Oxford Handbook of Church and State in the United States** Derek Davis, 2010-11-18 21 essays present a scholarly look at the intricacies and past and current debates that frame the American system of church and state within 5 main areas history politics sociology theology philosophy and law **The Fall of the Prison** Lee Griffith, 1993 Examining prisons from the perspectives of sociology theology history and biblical exegesis Griffith argues that the church has taken a woefully wrong turn by aligning itself with the traditional justice system He shows how prisons are clearly ineffective at deterring crime and rehabilitating offenders and maintains that Christians should be even more concerned with how the prison fails in principle than how it

fails in practice *Purity and Exile* Liisa H. Malkki, 2012-12-14 In this study of Hutu refugees from Burundi driven into exile in Tanzania after their 1972 insurrection against the dominant Tutsi was brutally quashed Liisa Malkki shows how experiences of dispossession and violence are remembered and turned into narratives and how this process helps to construct identities such as Hutu and Tutsi Through extensive fieldwork in two refugee communities Malkki finds that the refugees current circumstances significantly influence these constructions Those living in organized camps created an elaborate mythico history of the Hutu people which gave significance to exile and envisioned a collective return to the homeland of Burundi Other refugees who had assimilated in a more urban setting crafted identities in response to the practical circumstances of their day to day lives Malkki reveals how such things as national identity historical consciousness and the social imagination of enemies get constructed in the process of everyday life The book closes with an epilogue looking at the recent violence between Hutu and Tutsi in Rwanda and Burundi and showing how the movement of large refugee populations across national borders has shaped patterns of violence in the region **People of Bread** Wolfgang Vondey, 2008 Wolfgang Vondey contends that the story of the church is a story of the people of bread The image of bread is one of the richest and at the same time one of the most neglected biblical images that speak to an ecumenical understanding of the church Drawing from scripture from writers of the early church and from cutting edge debates in contemporary scholarship Vondey unfolds the social moral missiological ecumenical and eschatological dimensions of the church based on the story of bread that far exceeds a eucharistic interpretation People of Bread speaks to a growing interest in an understanding of the church by addressing the widespread revival of the theological imagination BOOK JACKET

Calvinism and the Making of the European Mind , 2014-09-18 Calvinism must be assigned a significant place among the forces that have shaped modern European culture Even now despite its history of religious fragmentation and secularization Europe continues to bear the marks of a pervasive Calvinist ethos The character of that ethos is however difficult to pin down In this volume many of the traditional scholarly conundrums about the relationship between Calvinism and the cultural history of Europe are revisited and re investigated to see what new light can be shed on them For example how has the ethos of Calvinism or more broadly the Reformed tradition affected economic thinking and practice the development of the sciences views on religious toleration or the constitution of European polities In general what kind of transformations did Calvinism s distinct spirituality bring about Such questions demand painstaking and detailed scholarly work a fine sample of which is published in this volume
