Jeff Zwiers

The Blue Table:

Towards a Theory of Epistemically Significant Perception Naja El Kassar, 2015-09-25 How does perceptual experience make us knowledgeable about the world In this book Naja El Kassar argues that an informed answer requires a novel theory of perception perceptual experience involves conceptual capacities and consists in a relation between a perceiver and the world Contemporary theories of perception disagree about the role of content and conceptual capacities in perceptual experience In her analysis El Kassar scrutinizes the arguments of conceptualist and relationist theories thereby exposing their limitations for explaining the epistemic role of perceptual experience Against this background she develops her novel theory of epistemically significant perception Her theory improves on current accounts by encompassing both the epistemic role of perceptual experiences and its perceptual character Central claims of her theory receive additional support from work in vision science making this book an original contribution to the philosophy of perception

The Blue Lagoon Henry De Vere Stacpoole, 2019-12-18 The story centers on two cousins Dicky and Emmeline Lestrangle who are marooned with a galley cook on an island in the South Pacific following a shipwreck The galley cook Paddy Button assumes responsibility for the children and teaches them how to survive Two and a half years after the shipwreck Paddy died following a drinking binge The children survive on their resourcefulness and the bounty of their remote paradise They live in a hut and spend their days fishing swimming diving for pearls and exploring the island As the years pass Dicky and Emmeline grow into physically mature young adults and begin to fall in love As they deal with their newfound emotions Dicky s father Arthur believes the two are still alive and he is determined to find them The Garden of God is a sequel to The Blue Lagoon and it picks up precisely where it left off with Arthur Lestrangle in the ship Raratonga discovering his son Dicky and niece Emmeline with their own child lying in their fishing boat which has drifted out to sea It turns out that Dicky and Emmeline died and the child is drowsy but alive and is picked up by the sailors Arthur has a dream vision of the pair they ask him to come to Palm Tree the island where they lived and promise he will see them again Arthur takes the child which gets the nickname Dick M and takes his ship to Palm Tree where he plans to stay with Dick M and Kearney a volunteer from the crew who grows fond of Dick The rest of the crew leave with a promise to return the next year but they get swallowed up in a storm out at sea and the trio stays stuck on the island

The Blue Print , 1903 **The Blue Lagoon** H. De Vere Stacpoole, 2019-11-21 H De Vere Stacpoole s The Blue Lagoon is a captivating tale set against the backdrop of a remote uninhabited island in the South Pacific Written in a lyrical and evocative style the narrative follows two shipwrecked children Emmeline and Dick as they navigate their newfound existence in a paradise devoid of adult influence The book artfully explores themes of innocence nature and the complexities of human emotions through vivid descriptions and poignant reflections making it a noteworthy example of early 20th century adventure literature Stacpoole s narrative is steeped in a romanticism that aligns with the exploration of the noble savage trope

revealing both the beauty and harsh realities of unspoiled life away from society's conventions H De Vere Stacpoole born in 1863 was deeply inspired by his surroundings and personal experiences that included his travels and a fascination with tropical landscapes His career as a novelist and poet evidences a commitment to exploring human relationships set against exotic locales The amalgamation of his maritime exploits and philosophical musings on civilization significantly informed the writing of *The Blue Lagoon* positioning it deeper within the realm of psychological exploration than mere adventure Readers who seek a blend of adventure romance and profound reflections on the human condition will find *The Blue Lagoon* a thought provoking and immersive experience Stacpoole's ability to evoke the raw beauty of isolation and the innocence of childhood will leave a lasting impression making this novel an essential read for anyone interested in classic literature and the complexities of human nature

Simplification, Explication and Normalization Margherita Ippolito, 2014-09-18 The search for general laws and regularities in Translation Studies gained new momentum in the 1990s when Baker 1993 promoted the use of large electronic corpora as research tools for exploring the linguistic features that render the language of translation different from the language of non translated texts By comparing a corpus of translated and non translated English texts Baker and her research team put forward the hypothesis that translated texts are characterized by some universal features namely simplification explication normalization and levelling out The purpose of this study is to test whether simplification explication and normalization apply to Italian translations of children's books In order to achieve this aim a comparable corpus of translated and non translated works of classic fiction for children has been collected and analysed using Corpus Linguistics tools and methodologies The results show that in the translational subcorpus simplification explication and normalization processes do not prevail over the non translational one Therefore it is suggested that the status of translated children's literature in the Italian literary polysystem Even Zohar 1979 1990 and from a general viewpoint all the cultural historical and social conditions that influence translators activities determine translation choices that can also tend towards processes different from those proposed by Baker
