One secret-filled island

Two opposing worlds

Three new friends

One life-changing adventure they'll never forget

Olly Summerson runs away from bullies on a school trip to the island of Portland. He soon finds himself hiding out in top secret tunnels under the island where he discovers a portal to another world.

Sibel Jandali finds herself alone and very far from home, having been washed up on the island following a terrible storm. In a strange country and desperate to find her family, Sibel soon comes face-to-face with a fantastic sea creature she thought only existed in storybooks.

April Bortwein skips school to search for treasure after a massive storm. She soon finds two new friends, uncovers a shocking family secret, and travels to a world far beyond anything she could have imagined.

When mysterious sea creatures start arriving on the island, the three new friends must overcome their differences to work together to help each other find family, new homes, and for one of them, unlock their destiny.

Provincials Sumana Roy, 2024-03-26 An enchanting and joyous exploration of life and creativity at the geographical edges of the modern world Who is a provincial In this subversive book Sumana Roy assembles a striking cast of writers artists filmmakers cricketers tourist guides English teachers lovers and letter writers private tutors and secret keepers whose lives and work provide varied answers to that question Combining memoir with the literary sensory and emotional history of an ignored people she challenges the metropolitan s dominance to reclaim the joyous dignity of provincial life its tics and taunts enthusiasms and tragicomedies In a wide ranging series of postcards from the peripheries of India Europe America and the Middle East Roy brings us deep into the imaginative world of those who have carried their provinciality like a birthmark Ranging from Rabindranath Tagore to William Shakespeare John Clare to the Bhakti poets T S Eliot to J M Coetzee V S Naipaul to the Bront s and Kishore Kumar to Annie Ernaux she celebrates the provincials humor and hilarity playfulness and irony belatedness and instinct for carefree accidents and freedom Her unprecedented account of provincial life offers an alternative portrait of our modern world

The Found Voice Denis Sampson, 2016-05-12 The Found Voice Writers Beginnings uses the means of literary biography and criticism to do something rarely attempted to understand how a key creative period establishes the authoritative voice of a unique artist The essays which explore this hidden process of the writer writing focus on some of the major writers of recent times V S Naipaul J M Coetzee Alice Munro William Trevor and Mavis Gallant The focus of investigation is a single work by each author and many of them identify the book in which this turning point was reached The writers have a somewhat different sense of what the voice is a true voice the voice in the mind the writing voice etc yet all of them accept the phrase finding a voice as a decisive and necessary process towards a unique style and vision their raison d tre as artists These essays allow each one to define his or her sense of the process of writing and their style is exploratory Nevertheless certain patterns emerge of migration and cultural displacement of linguistic self consciousness of memory and a reimagining of the first home of absorbing and rejecting mentors and models Crucially the essays rely not just on what led up to the moment of creation but on a sense of the career that emerged from it Most of the writers have written retrospectively in memoirs interviews or essays about the pivotal work and its foundational significance They are the best witnesses to the process although their silence or their commentary is understood in terms of the many strands of the narrative that each essay presents

Three Sons Daniel L. Medin, 2010-01-11 Franz Kafka was a self conscious writer whose texts were highly if mysteriously autobiographical Three giants of contemporary fiction J M Coetzee Philip Roth and W G Sebald have all acknowledged their debt to the work of Kafka both in interviews and in their own academic essays and articles for a general readership about him In this striking feat of literary scholarship Daniel Medin finds that the use of Kafka by Coetzee Roth and Sebald is similarly self reflexive and autobiographical That writers from such divergent national and ethnic traditions can have such unique critical readings of Kafka and that Kafka could exert such a

powerful influence over their oeuvres Medin contends attests to the central place of Kafka in the contemporary literary imagination

Critical Modesty in Contemporary Fiction Thom Dancer, 2021-09-09 From climate catastrophe to pandemics and economic crises the problems facing humanity can feel impossible to solve Critical Modesty in Contemporary Fiction argues that contemporary fiction helps those who may feel despair at the enormity of such problems not as usually assumed through the ambitious search for grand solutions but rather by cultivating a temperament of modesty This new temperament of critical modesty locates the fight for freedom and human dignity within the limited and compromised conditions in which we find ourselves Through readings of Ian McEwan Zadie Smith J M Coetzee and David Mitchell Critical Modesty in Contemporary Fiction advances a claim for the value of temperament in general as a crucial analytic for understanding contemporary experience as well as for a particular temperament of critical modesty as crucial in negotiating the limits of critical and human agency that constitute our daily lives Exploring modest forms of entangled human agency that represent an alternative to the novel of the large scale that have been most closely associated with the Anthropocene this volume makes the surprising case that by adopting a modest stance the novel has the potential to play a more important socio cultural role than it has done In doing so it offers an engaging response to the debate over critical and surface readings bringing novels themselves into the conversation and arguing for a fictional mode that is both critical and modest reminding us how much we are already engaged with the world implicated and compromised before we start developing theories writing stories or acting within it
