Stranraer Larne:

Sealink British Ferries Ian Collard, 2019-09-15 A lavishly illustrated look at this much missed company Ian Collard tells the fascinating story of this unique shipping company **The counties of Ireland: an historical sketch of their origin, constitution and gradual delimitation, a paper read before the Roy. Irish acad. and repr. from the 'Proceedings'.** Caesar Litton Falkiner, 1903 Tourist guide to north south & central Wales, Lake district, Buxton and Leamington London and north western railway, 1900 *Bradshaw's monthly railway and steam navigation guide* George Bradshaw, 1905

Guide to Belfast and the Adjacent Counties. By Members of the Belfast Naturalists' Field Club. [With a Map.] Belfast Naturalists' Field Club (BELFAST), 1874 **Parliamentary Papers** Great Britain. Parliament. House of Commons, 1914 Railway News, Finance and Joint-stock Companies' Journal, 1903 **The World's First Railway System** Mark Casson, 2009-09-10 The British railway network was a monument to Victorian private enterprise Its masterpieces of civil engineering were emulated around the world But its performance was controversial praised for promoting a high density of lines it was also criticised for wasteful duplication of routes This is the first history of the British railway system written from a modern economic perspective It uses counterfactual analysis to construct an alternative network to represent the most efficient alternative rail network that could have been constructed given what was known at the time the first time this has been done It reveals how weaknesses in regulation and defects in government policy resulted in enormous inefficiency in the Victorian system that Britain lives with today British railway companies developed into powerful regional monopolies which then contested each other's territories When denied access to existing lines in rival territories they built duplicate lines instead Plans for an integrated national system sponsored by William Gladstone were blocked by Members of Parliament because of a perceived conflict with the local interests they represented Each town wanted more railways than its neighbours and so too many lines were built The costs of these surplus lines led ultimately to higher fares and freight charges which impaired the performance of the economy The book will be the definitive source of reference for those interested in the economic history of the British railway system It makes use of a major new historical source deposited railway plans integrates transport and local history through its regional analysis of the railway system and provides a comprehensive classified bibliography **Britain's Changing Train Liveries** David Goodyear, 2023-11-23 Railway liveries play an important role in establishing much valued recognition of the many operating companies through the variety of colors worn by their trains which ply our British railways These reinforce the pride that their uniform bestows This is demonstrated by the immaculate designs which adorned the Pre grouping steam locomotives through to the stamp of Network South East which certainly raised the profile of many ordinary commuter trains at least around London and the Home Counties Similarly it is a quality which is especially evident in the ubiquitous all pervading British Railways blue era which now features as an essential ingredient in diesel preservation as also in a multitude of colors and futuristic designs bestowed by the

contemporary privatized passenger and freight companies Furthermore consider the appeal of retro liveries which decorate some of the locomotives hauling charter trains a trend which reinforces the popularity of liveries which were once merely part of the mundane everyday scene Any glimpse through the news reviews and photographs published in monthly railway magazines will reveal such a kaleidoscope of colors adorning the locomotives and rolling stock which traverse the UK s modern and preserved railways This book endeavors to facilitate a brief overview of some of these liveries in the hope that it will whet the readers appetite to explore their own world of railway liveries
