Strategic Decision Analysis A General Management Framework By Patz Alan L:

Managing Innovation and Change Sven B. Lundstedt, Thomas H. Moss, 2013-03-14 Technological innovations as well as the social innovations needed to provide adequate support systems for them are among the important foundations for economic and industrial growth in the world today Consequently the discussions in this important volume of the emerging sociotechnical trends in various industries around the world are highly instructive and timely We can learn much of value from others around the world who are facing similar problems of economic and industrial development Sociotechnical innovation requires a global setting to be fully understood and appreciated because so much new economic activity that serves the economy of the United States as well as the economies of other countries is found in other parts of the world including not only manufacturing innovations but innovations in the service industries For all of our economic self interests we need to view innovation globally Sociotechnical innovation is linked with the successful development of cutting edge technologies such as ultra large scale integrated electronic systems new larger computers the myria process systems in computing architecture that use thousands of processors new biochemical solutions in high cost feedstock applications of genetic engineering to crop improvement and biotechnological improvements in the pharmaceutical industries There are also developments in the materials field new fiber reinforced plastics rapid solidification technologies new polymers and ceramics And there are advances in air transport technologies that may replace current technologies 1 *Strategy and Ethnic Conflict* Laure Paquette, 2002-02-28 Ethnic conflict now presents the thorniest problems for military and civilian strategists of all stripes This book presents a new general theory of strategy encompassing studies of the relationship between values interest and strategy as these relate to ethnic conflicts It focuses on the relationship between values and strategy building a theory on the hypothesis that national values influence national strategy Paquette's research reveals that national values influence national strategy through three mechanisms cognition appreciation and evaluation Each mechanism and indeed the whole value focused approach to strategic thinking is described using a network of interrelated statements Paquette develops a methodology specific to the issues of international security and ethnic considerations She tests this theory extensively for internal consistency before applying it to a single historical case French decision making on national strategy between 1955 and 1970 however because of its generality this same theory could easily be applied to other cases As with any theory it is possible to vary successively or simultaneously assumptions or conditions and to derive new predictions This process of deriving variations has the potential to help in the training of strategists both military and civilian
