Strategic Heart Using The New Science To Lead Growing Organizations:

The Strategic Heart Michael H. Shenkman, 1996-10-30 The title *The Strategic Heart* evokes the idea that when people focus on a mission they believe is important they put their hearts into making their work and company a success Shenkman uses insights from the new sciences of Complexity and Flow to help business leaders create the adaptable flexible and high performance organizations that succeed in today's competitive world Part One introduces some of the central themes of the science of complex systems and shows their relevance to growing businesses He demonstrates how to marshal people's talents around strong values and focused actions that can be evaluated measured and improved Part Two presents the work of Mihaly Csikszentmihalyi whose renowned studies have shown that when people are fully engaged in their experience they enjoy learning and growing He calls this kind of optimal experience Flow Managers can create opportunities for Flow by identifying what people need and want to learn on the job using teams and acting as coach and mentor *The Strategic Heart* offers insights and tools that have been proven to help managers reshape the way they envision and lead their organizations Case studies show that when using these ideas older companies have been revitalized and new businesses have been able to mobilize around their dreams to become profitable Shenkman provides innovative tools for managers on all levels of business and teaching tools for courses on growing businesses and entrepreneurial management

Transforming the Organization Howard W. Oden, 1999-11-30 The rapidly increasing rate of world change demands not just incremental change that organizations have used in the past but fast radical alterations of their strategy culture structure and processes Nothing less than transformation will do says Dr Oden a complex continuing effort that may be closer to revolution than evolution Oden lays it out in his customarily clear programmatic way He covers actions that must precede the initiation of a transformation guidance on how to perform the technical social and behavioral tasks and the actions required to wrap up and integrate everything into a complete workably transformed organization His book provides a clear goal for the transformation an excellent description of transformational leadership and a simple powerful model of the process The result is essential reading for upper management in private and public sector organizations and for their colleagues in the academic community Part I covers the preparatory actions that organizations should take before initiating a transformation without which the effort is doomed to failure says Dr Oden In Part II he covers the technical or engineering aspects of the transformation First he develops a process map of the organization as the basis for process improvement then he diagnoses the existing and future organization to determine how processes should be improved In Part III he looks at the various organizational change methods that are available conducts a broad design of the total organization and then designs the human resource support processes for the transformed organization Finally in Part IV Dr Oden shows how to incorporate the redesigned processes into the existing system the most difficult part of the transformation and ends by showing how better integration can be achieved to provide better overall transformational results

Shenkman,2009-01-23 Mentoring differs from instruction teaching and coaching in that it emphasizes not talents and skills used in executing a project but the qualities and values of life needed to sustain oneself in the creative endeavor In *Leader Mentoring* author Michael Shenkman makes the case for leader mentoring No mentors no leaders he says Yet this great ancient and necessary catalyst for learning has been neglected by our training and development industry For any executive who wants to succeed coaching has proven its worth But mentoring touches something else how managers can shape their lives so that they can step into larger challenges and risks to accomplish something greater than they ever have before This book looks at the true significance of mentoring as well as the tradition and spirit that motivates it In addition Shenkman s colleagues and clients share their own life changing mentoring experiences Today at a time when great leaders need to be found and set to work *Leader Mentoring* shows the way
