The Bill Of Rights Additional Amendments

Guillaume Favre

The Bill Of Rights Additional Amendments:

The Bill of Rights Carol Berkin, 2015-05-05 Describes how the Bill of Rights came into existence detailing how the Founders argued over the contents of the document reflecting an ideological divide between the power of the federal versus state governments that still exists to this day

The Founders' Second Amendment Stephen P. Halbrook, 2008-04-18 Stephen P Halbrook's The Founders Second Amendment is the first book length account of the origins of the Second Amendment based on the Founders own statements as found in newspapers correspondence debates and resolutions Mr Halbrook investigates the period from 1768 to 1826 from the last years of British rule and the American Revolution through to the adoption of the Constitution and the Bill of Rights and the passing of the Founders generation His book offers the most comprehensive analysis of the arguments behind the drafting and adoption of the Second Amendment and the intentions of the men who created it

The Charters of Freedom, 1993 James Madison and the Struggle for the Bill of Rights Richard Labunski, 2006-07-04 Today we hold the Constitution in such high regard that we can hardly imagine how hotly contested was its adoption In fact many of the thirteen states saw fierce debate over the document and ratification was by no means certain Virginia the largest and most influential state approved the Constitution by the barest of margins and only after an epic political battle between James Madison and Patrick Henry Now Richard Labunski offers a dramatic account of a time when the entire American experiment hung in the balance only to be saved by the most unlikely of heroes the diminutive and exceedingly shy Madison Here is a vividly written account of not one but several major political struggles which changed the course of American history Labunski takes us inside the sweltering converted theater in Richmond where for three grueling weeks the soft spoken Madison and the charismatic Patrick Henry fought over whether Virginia should ratify the Constitution The stakes were enormous If Virginia voted no George Washington could not become president New York might follow suit and reject the Constitution and the young nation would be thrust into political chaos But Madison won the day by a handful of votes mollifying Anti Federalist fears by promising to add a bill of rights to the Constitution To do this Madison would have to win a seat in the First Congress Labunski shows how the vengeful Henry prevented Madison's appointment to the Senate and then used his political power to ensure that Madison would run against his good friend Revolutionary War hero James Monroe in a House district teeming with political enemies Overcoming great odds Madison won by a few hundred votes allowing him to attend the First Congress and sponsor the Bill of Rights Packed with colorful details about life in early America this compelling and important narrative is the first serious book about Madison written in many years It will return this under appreciated patriot to his rightful place among the Founding Fathers and shed new light on a key turning point in our nation's history
