The Rigoberta Menchú Controversy Arturo Arias, David Stoll, 2001 Guatemalan indigenous rights activist Rigoberta Menchú first came to international prominence following the 1983 publication of her memoir I Rigoberta Menchú which chronicled in compelling detail the violence and misery that she and her people suffered during her country's brutal civil war The book focused world attention on Guatemala and led to her being awarded the Nobel Peace Prize in 1992 In 1999 a book by David Stoll challenged the veracity of key details in Menchú's account generating a storm of controversy Journalists and scholars squared off regarding whether Menchú had lied about her past and if so what that would mean about the larger truths revealed in her book In The Rigoberta Menchú Controversy

Arturo Arias has assembled a casebook that offers a balanced perspective on the debate. The first section of this volume collects the primary documents: newspaper articles, interviews, and official statements in which the debate raged, many translated into English for the first time. In the second section, a distinguished group of international scholars assesses the political, historical, and cultural contexts of the debate and considers its implications for such issues as the culture wars, historical truth, and the politics of memory. Also included is a new essay by David Stoll in which he responds to his critics.

Maya or Mestizo? Ronald Loewe, 2010-09-01. The Maya of the Yucatán have long been drawn into the Mexican state's attempt to create modern Mexican citizens, mestizos. At the same time, they have contended with globalization pressures: first with hemp production and more recently with increased tourism and the fast-growing influence of American-based evangelical Protestantism. Despite these pressures to turn Maya into mestizo, the citizens of the small town of Maxcan have used subtle forms of resistance: humor, satire, and language to maintain aspects of their traditional identity. Loewe offers a contemporary look at a Maya community caught between tradition and modernity. He skilfully weaves the history of Mexico and this particular community into the analysis, offering a unique understanding of how one local community has faced the onslaught of modernization.

Native American Studies in Higher Education Duane Champagne, 2002. In this collection, Champagne and Stauss demonstrate how the rise of Native studies in American and Canadian universities exists as an extraordinary achievement in higher education. In the face of historically assimilationist agendas, institutional racism, and structural opposition by Western educational institutions, collaborative programs continue to grow and promote the values and goals of sovereign tribal communities. The contributors show how many departments grew significantly following the landmark 1969 Senate report, *Indian Education: A National Tragedy, A National Challenge*. They evaluate the university efforts to offer Native students intellectual and technical skills and the long battle to represent Native cultures and world views in the university curriculum. In twelve case studies, Indian and non-Indian teachers provide rich contextual histories of their programs through three decades of growth. They frankly discuss successes and failures as innovative strategies and models are tested. Programs from University of California, Davis; Harvard; Saskatchewan; Arizona; and others provide detailed analyses of academic battles over curriculum content, the marginalization of indigenous faculty, and

students the pedagogical implications of integrating native instructors the vagaries of administrative support and funding Native student retention the vulnerability of native language programs and community collaborations A vision of Indian education that emerges from these pages that reveals the university's potential as a vehicle for Indian nation building one in which the university curriculum also benefits from sustained contacts with tribal communities As Native populations grow and the demand for university training increases this book will be a valuable resource for Native American leaders educators in Native American studies race and ethnic studies comparative education minorities in education anthropology sociology higher education administration and educational policy Indigenous Cosmolectics Gloria Elizabeth Chacón, 2018-09-28

Latin America's Indigenous writers have long labored under the limits of colonialism but in the late twentieth and twenty-first centuries they have constructed a literary corpus that moves them beyond those parameters Gloria E Chacón considers the growing number of contemporary Indigenous writers who turn to Maya and Zapotec languages alongside Spanish translations of their work to challenge the tyranny of monolingualism and cultural homogeneity Chacón argues that these Maya and Zapotec authors reconstruct an Indigenous literary tradition rooted in an Indigenous cosmolectics a philosophy originally grounded in pre-Columbian sacred conceptions of the cosmos time and place and now expressed in creative writings More specifically she attends to Maya and Zapotec literary and cultural forms by theorizing *kab awil* as an Indigenous philosophy Tackling the political and literary implications of this work Chacón argues that Indigenous writers use of familiar genres alongside Indigenous language use of oral traditions and new representations of selfhood and nation all create space for expressions of cultural and political autonomy Chacón recognizes that Indigenous writers draw from universal literary strategies but nevertheless argues that this literature is a vital center for reflecting on Indigenous ways of knowing and is a key artistic expression of decolonization **Speaking for the Generations** Simon J. Ortiz, 2022-02-08

Now it is my turn to stand At Acoma Pueblo meetings members rise and announce their intention to speak In that moment they are recognized and heard In *Speaking for the Generations* Acoma Pueblo poet Simon Ortiz brings together contemporary Native American writers to take their turn Each offers an evocation of herself or himself describing the personal social and cultural influences on her or his development as a writer Although each writer's viewpoint is personal and unique together they reflect the rich tapestry of today's Native literature Of varied backgrounds the writers represent Indian heritages and cultures from the Pacific Northwest to the northern plains from Canada to Guatemala They are poets novelists and playwrights And although their backgrounds are different and their statements intensely personal they share common themes of their relationship to the land to their ancestors and to future generations of their people From Gloria Bird's powerful recounting of personal and family history to Esther Belin's vibrant tale of her urban Native homeland in Los Angeles these writers reveal the importance of place and politics in their lives Leslie Marmon Silko calls upon the ancient tradition of Native American storytelling and its role in connecting the people to the land Roberta J Hill and Elizabeth Woody

ponder some of the absurdities of contemporary Native life while Guatemalan Victor Montejo takes readers to the Mayan world where a native culture had writing and books long before Europeans came Together these pieces offer an inspiring portrait of what it means to be a Native writer in the twentieth century With passion and urgency these writers are speaking for themselves for their land and for the generations
