This book tells the history of NASA through the Diary of a person who had an enormous impact of the program itself It goes through original ideas about the space program to missions that took place and many interesting facts [The Birth of NASA](#) Thomas Keith Glennan, 1993 The Birth of NASA The Diary of T Keith Glennan tells the story of the critical formative months of the new agency The Introduction describes the background of T Keith Glennan the first NASA Administrator After the Introduction the book continues with Glennan s recollections of NASA from his appointment until the end of 1959 The 13 chapters are written in a diary format covering month by months his activities until he left the position in 1961 A Postscript written in 1963 gives his views on the space program after he left office A Biographical Appendix gives short sketches of about 400 individuals active in the space program during this period Throughout the diary numerous explanatory footnotes by the editor clarify events and provide references for further details Although Glennan s stay at NASA was short his contributions are most significant as he built the organization that would send men to the moon and serve the nation to the present time **The Birth of Nasa** T. Keith Glennan, Roger Launius, J. D. Hunley, 2014-04-15 Early in the morning of 4 October 1957 T Keith Glennan went to work just as he had for more than a decade at the president s office of the Case Institution of Technology in Cleveland Ohio This work is his summary of his work **Return to the Moon** Harrison Schmitt, 2007-12-28 Former NASA Astronaut Harrison Schmitt advocates a private investor based approach to returning humans to the Moon to extract Helium 3 for energy production to use the Moon as a platform for science and manufacturing and to establish permanent human colonies there in a kind of stepping stone community on the way to deeper space With governments playing a supporting role just as they have in the development of modern commercial aeronautics and agricultural production Schmitt believes that a fundamentally private enterprise is the only type of organization capable of sustaining such an effort and eventually even making it pay off **To See the Unseen** Andrew J. Butrica, 1996 A comprehensive illuminating history of this little understood but surprisingly significant scientific activity Quite rigorous systematic in its methodology the book explores the development of the radar astronomy specialty in the larger community of scientists More than just discussing the development of this field however the author uses planetary radar astronomy as a vehicle for understanding larger issues relative to the planning execution of big science by the Fed government Sources interviews technical essay abbreviations index [Handbook of Space Engineering, Archaeology, and Heritage](#) Ann Darrin, Beth L. O'Leary, 2009-06-26 Some might think that the 27 thousand tons of material launched by earthlings into outer space is nothing more than floating piles of debris However when looking at these artifacts through the eyes of historians and anthropologists instead of celestial pollution they are seen as links to human history and heritage Space The New

Frontier for Ar **Our Germans** Brian E. Crim, 2018-01-15 A gripping history of one of the United States most controversial Cold War intelligence operations Project Paperclip brought hundreds of German scientists and engineers including aerospace engineer Wernher von Braun to the United States in the first decade after World War II More than the freighters full of equipment or the documents recovered from caves and hastily abandoned warehouses the German brains who designed and built the V 2 rocket and other wonder weapons for the Third Reich proved invaluable to America's emerging military industrial complex Whether they remained under military employment transitioned to civilian agencies like NASA or sought more lucrative careers with corporations flush with government contracts German specialists recruited into the Paperclip program assumed enormously influential positions within the labyrinthine national security state Drawing on recently declassified documents from intelligence agencies the Department of Defense the FBI and the State Department Brian E Crim's *Our Germans* examines the process of integrating German scientists into a national security state dominated by the armed services and defense industries Crim explains how the Joint Intelligence Objectives Agency enticed targeted scientists whitewashed the records of Nazis and war criminals and deceived government agencies about the content of security investigations Exploring the vicious bureaucratic rivalries that erupted over the wisdom efficacy and morality of pursuing Paperclip *Our Germans* reveals how some Paperclip proponents and scientists influenced the perception of the rival Soviet threat by volunteering inflated estimates of Russian intentions and technical capabilities As it describes the project's embattled legacy *Our Germans* reflects on the myriad ways that Paperclip has been remembered in culture and national memory As this engaging book demonstrates whether characterized as an expedient Cold War program born from military necessity or a dishonorable episode the project ultimately reflects American ambivalence about the military industrial complex and the viability of an ends justifies the means solution to external threats

Embracing the Song of Appearance: An Psychological Symphony within **The Birth Of Nasa The Diary Of T Keith Glennan**

In a world taken by screens and the ceaseless chatter of instant interaction, the melodic elegance and emotional symphony produced by the prepared term usually diminish into the background, eclipsed by the relentless noise and disruptions that permeate our lives.
