Praise Her in the Gates Nancy Wilson, 2000 For a Christian woman motherhood is the subtle art of building a house in grace The wise woman builds her house but the foolish pulls it down with her hands Prov 14 1 Each day's work is significant for it contributes toward the long term plan Each nail helps a house stand in a storm But motherhood isn't a simple formula Building a home childbirth education discipline requires holy joy and a love of beauty The mother who fears God does not fear the future

International Responses to Mass Atrocities in Africa Kurt Mills, 2015-08-18 Since the end of World War II and the founding of the United Nations genocide crimes against humanity and other war crimes mass atrocities have been explicitly illegal When such crimes are committed the international community has an obligation to respond the human rights of the victims outweigh the sovereignty claims of states that engage in or allow such human rights violations This obligation has come to be known as the responsibility to protect Yet parallel to this responsibility two other related responsibilities have developed to prosecute those responsible for the crimes and to provide humanitarian relief to the victims what the author calls the responsibility to palliate Even though this rhetoric of protecting those in need is well used by the international community its application in practice has been erratic at best In *International Responses to Mass Atrocities in Africa* Kurt Mills develops a typology of responses to mass atrocities investigates the limitations of these responses and calls for such responses to be implemented in a more timely and thoughtful manner Mills considers four cases of international responses to mass atrocities in Rwanda the Democratic Republic of the Congo Uganda and Darfur putting the cases into historical context and analyzing them according to the typology showing how the responses interact Although all are intended to address human suffering they are very different types of actions and accomplish different things over different timescales on different orders of magnitude and by very different types of actors But the critical question is whether they accomplish their objectives in a mutually supportive way and what the trade offs in using one or more of these responses may be By expanding the understanding of international responsibilities Mills provides critical analysis of the

possibilities for the international community to respond to humanitarian crises The Pursuit of Peace Betsy E.
