Buckshot and the Boy Peter "Highpockets" Hilgartner,2006-11-17 June was passing quickly Buckshot concentrated on fence repairs and improvements to the corrals Tex was with him constantly holding the other end when needed Slowly the scope of his chores increased including the responsibility of grooming the horses and cleaning the stalls Buckshot became the consummate teacher but he also understood the importance of having some recreation at the end of the day He made certain to include some time for fun or other pleasantries such as storytelling As a result he found Tex a willing and cooperative worker and student One day Buckshot asked Tex how would you like to go shooting with me this afternoon The boy s eyes widened You bet I would Well I have an old single shot 20 gauge shotgun I think you can handle and we ll set some bottles up on yonder fence for you to shoot We can start after we finish fixing this chute and loading ramp for the cattle This will make it quick and easy to load the cows into the trucks The boy smiled He had taken off his shirt and Buckshot observed that his back was completely healed He also noticed some new muscle developing in the lad s slight frame I do believe he s put on a couple of pounds he thought Target practice that afternoon was a big success Buckshot used the opportunity to teach and explain that knowing how to handle the gun safely was as important as good marksmanship Tex took to the instruction like a duck to the water After supper the trio moved into the sitting room for the evening Bible reading When they finished Tex said Thanks Buckshot for the shooting lesson today That was sure fun He was quiet for a moment then asked Buckshot have you ever had any bad guys come onto the property and do rustling or things like that Well son as a matter of fact we have Buckshot leaned back in his chair a signature move indicating he was about to tell a story

The Boy with Wings Berta Ruck,1915 *The Boy Genius and the Mogul* Daniel Stashower,2002-05-07 The world remembers Edison Ford and the Wright Brothers But what about Philo T Farnsworth the inventor of television an innovation that did as much as any other to shape the twentieth

century That question lies at the heart of *The Boy Genius and the Mogul* Daniel Stashower's captivating chronicle of television's true inventor the battle he faced to capitalize on his breakthrough and the powerful forces that resulted in the collapse of his dreams The son of a Mormon farmer Farnsworth was born in 1906 in a single room log cabin on an isolated homestead in Utah The Farnsworth family farm had no radio no telephone and no electricity Yet motivated by the stories of scientists and inventors he read about in the science magazines of the day young Philo set his sights on becoming an inventor By his early teens Farnsworth had become an inveterate tinkerer able to repair broken farm equipment when no one else could It was inevitable that when he read an article about a new idea for the transmission of pictures by radio waves that he would want to attempt it himself One day while he was walking through a hay field Farnsworth took note of the straight parallel lines of the furrows and envisioned a system of scanning a visual image line by line and transmitting it to a remote screen He soon sketched a diagram for an early television camera tube It was 1921 and Farnsworth was only fourteen years old Farnsworth went on to college to pursue his studies of electrical engineering but was forced to quit after two years due to the death of his father Even so he soon managed to persuade a group of California investors to set him up in his own research lab where in 1927 he produced the first all electronic television image and later patented his invention While Farnsworth's invention was a landmark it was also the beginning of a struggle against an immense corporate power that would consume much of his life That corporate power was embodied by a legendary media mogul RCA President and NBC founder David Sarnoff who claimed that his chief scientist had invented a mechanism for television prior to Farnsworth's Thus the boy genius and the mogul were locked in a confrontation over who would control the future of television technology and the vast fortune it represented Farnsworth was enormously outmatched by the media baron and his army of lawyers and public relations people and by the 1940s Farnsworth would be virtually forgotten as television's actual inventor while Sarnoff and his chief scientist would receive the credit Restoring Farnsworth to his rightful place in history *The Boy Genius and the Mogul* presents a vivid portrait of a self taught scientist whose brilliance allowed him to capture light in a bottle A rich and dramatic story of one man's perseverance and the remarkable events leading up to the launch of television as we know it *The Boy Genius and the Mogul* shines new light on a major turning point in American history
