Early Childhood Curriculum for All Learners Ann M. Selmi, Raymond J. Gallagher, Eugenia R. Mora-Flores, 2014-08-12

Early Childhood Curriculum for All Learners Integrating Play and Literacy Activities is designed to teach early childhood professionals about the latest research on play and early literacy and then to show them practical methods for adapting this research to everyday classroom practices that will encourage the development of learning skills The authors link solid play based research to specific developmentally appropriate practices By combining these two areas the text demonstrates that academic learning and play activities are highly compatible and that children can and do develop academic skills through play In addition the text focuses on socio dramatic play a recently acknowledged essential aspect of child initiated play interactions It provides specific strategies that link these interactive behaviors with the early academic skills needed for the initial primary grades Implementation of the information presented in this book will enable children to experience a richer transition into primary education classrooms

Developing and Sustaining Play Therapy Clinics Dugan, Erin M., Vaughn, Krystal, Camelford, Kellie, 2019-04-26 Play therapy training clinics are an important aspect of the clinical mental health field An approved play therapy training center should offer direct play therapy services to children and families and provide quality education training research and supervision While each setting may have a set of contractual standards for supervision few offer advice for setting up such approved centers and training clinics *Developing and Sustaining Play Therapy Clinics* is a collection of innovative research on policies and procedures for university based play therapy clinical settings to help guide practitioners in multiple areas including emergency and crisis situations paperwork requirements and mandated reporting requirements While highlighting topics including adventure therapy clinic branding and playroom design this book is ideally designed for clinic directors psychologists psychiatrists play therapy practitioners academics administrative supervisors and researchers

Hands On, Minds On Claire E. Cameron, 2018 A growing body of research indicates that three foundational cognitive skills executive function motor skills and spatial skills form the basis for children to make a strong academic behavioral and social transition to formal school Given inequitable early learning environments or opportunity gaps in the United States these skills are also a source of substantial achievement and behavioral gaps *Hands On Minds On* describes the importance of children s foundational cognitive skills for academic achievement in literacy and mathematics as well as their connections with other areas of school readiness including physical health social and emotional development and approaches to learning The author emphasizes how social relationships and interactions both in and outside the classroom encourage or constrain young children s development in these skills The book concludes with a summary of the growing evidence in favor of guided object play which teachers can introduce to children to exercise and strengthen foundational cognitive skills Teachers both novice and veteran are eager to learn how to apply brain research to their practice and Dr Cameron has offered some very real knowledge and support to this effort From the Foreword by Sharon
