Community Studies Colin Bell, Howard Newby, 2021-10-17 Originally published in 1971 this was the first text on community studies which analysed the major empirical work in this field in a comparative perspective It is concerned both with the sociology of community and the sociology of community studies It takes both the findings of individual studies and the research process itself as significant sociological data in their own right and it asks continually how do we know what we know about communities Community Studies is then not only a contribution to that particular field but also to our understanding of the interaction between theory and method in sociology Studies are analysed from North and Latin America Britain and Western Europe and India Two central problems stratification and power are considered at greater length This book would prove to be an invaluable introduction not only for students of sociology but also for architects planners and all those who had an interest in the community at the time Its authors were and had been actively engaged in field research in this area

Mass Society Salvador Giner, 2013-10-22 Mass Society deals with the total outlook of human including modern politics culture social inequality community life and problems The book reviews the history of democracy and discontent The text analyzes the mob rule the disenchantment of progress and the history of democracy Modern sociological theory explains the opposition of two extreme societal models to describe the historical dynamics of mankind The book is an attempt to explain that a mass society outlook exists and has some inner coherence and distinctive quality The author argues that such outlook or theory is a prominent feature in the cultural imagination of man and that modern secular society cannot be understood without such theory The author then proceeds to identify majority with mass and the identification of human with

mass human This identification will lead to a community vision though the author argues the growth of a mass interpretation of society has a negative effect on the liberal theory of the individual The text can be interesting for political science majors sociologists psychologists and economists **Millhands & Preachers** Liston Pope, Patrick. Pope, 1942-01-01 To explore the question of the church's role in Western economic systems Mr Pope presents a pioneering study of the actual role played by the church in the industrial community Gastonia North Carolina He has written a brilliant criticism of the relationship between the textile mills and the churches with broad implications for industry and church
