In this landmark work on a subject too often dismissed as paranormal or disreputable, Jeff Meldrum gives us the first book on Sasquatch to be written by a scientist with impeccable academic credentials: an objective look at the facts in a field mined with hoaxes and sensationalism. Meldrum reports on the work of a team of experts from a wide variety of fields who were assembled to examine the evidence for a large yet undiscovered North American primate. He reviews the long history of this mystery, which long predates the Bigfoot flap of the late fifties, and explains all the scientific pros and cons in a clear and accessible style, amplified by over 150 illustrations. stronger than ever in today's pop culture Exploring the history movies and literature the conspiracy theorizing and the world of the supernatural The Bigfoot Book The Encyclopedia of Sasquatch Yeti and Cryptid Primates is a comprehensive resource to the man beast With nearly 200 entries and 120 photographs drawings and illustrations it is the definitive guide to understanding hunting and avoiding the brute as well as discovering the facts behind the sightings and horrifying tales It covers 400 years of folklore mythology history and pop culture including Native American lore the wild men reports in the pages of 19th century era American newspapers Florida's Myakka Skunk Ape Australia's Yowie China's Yeren Himalayas Yeti Russian expeditions Harry and the Hendersons Exists and the countless movies titled Bigfoot as well as specials on the television shows Animal Planet Discovery Channel and National Geographic Channel scientific reports and findings and much much more Various documentaries and reality television shows have all superficially tackled the subject but Nick Redfern presents a truly complete and comprehensive look at cryptid primates It is a richly researched reference overflowing with fascinating information to make readers think and reconsider their next camping trip [BIGFOOT NATION](#) David Childress, 2018-04-11 Childress takes a deep look at Bigfoot Nation the seemingly real world of bigfoot around us in the United States and Canada Whether real or imagined that bigfoot has made his way into the American psyche cannot be denied He appears in television commercials movies and on roadside billboards In fact bigfoot is everywhere with actors portraying him in variously believable performances and it has become the popular notion that bigfoot is both dangerous and horny Indeed bigfoot is out there stalking lover's lanes and is even more lonely than those frightened teenagers that he sometimes interrupts Bigfoot tall and strong as he is makes a poor leading man in the movies with his awkward personality and typically anti social behavior He doesn't care a skunk's gland how many movies or commercials are made about him without any royalties whatsoever being paid To him Bigfoot Nation is all about style a lifestyle shall we say that keeps bigfoot on the fringes of society gently creeping into our dreams Join David on a wild ride from the very first bigfoot reports in the 1800s to right now Chapters include 1800 to 1899 The Wildmen of the Frontier The Oldest Bigfoot Photo 1900 to 1940 The Pre War Years 1950 to 1990 The Post War Years The Skunk Apes of Swamp Nation Bigfoot in the Southwest 2000 to 2020 Post Millennial Bigfoot more Includes 16 pages of color photos that document Bigfoot Nation [The Lost Tribes of Bigfoot](#) Maxim W. Furek, 2024-08-22 Paranormal author and rock journalist Maxim Furek has emerged as the 21st century incarnation of John Keel In The Lost Tribes of Bigfoot Furek explores the uncharted waters surrounding the cryptid's forbidden realm in a rousing and controversial expos Doug Hajicek MonsterQuest In his latest book Maxim Furek a former psychologist and rock journalist delves into the intriguing world of Bigfoot synchronicity embracing interdimensional theories mass hallucinations and Jung's collective unconscious Furek's dedication to the subject is evident in the hundreds of accounts from researchers who strive to answer the question If it's not flesh and blood then what is it This question forms the heart of the author's evocative thesis as he tirelessly scours American and Canadian records for evidence of this elusive

cryptid For centuries early newspapers printed accounts of bipedal creatures variously listed as Wild Men Hairy Giants or Sasquatch a narrative that has expanded into a larger scientific religious and paranormal reality This reality as Furek presents it is a complex web of scientific theories religious interpretations and paranormal phenomena that intersect in the study of Bigfoot Furek s investigation into the tribes of true believers congregating at conferences campsites and online websites is a testament to their shared philosophy and Bigfoot s sociocultural energy He takes issue with hoaxers whom he charges have sold their souls but his respect for the believers is unwavering The author challenges traditional beliefs about Bigfoot and encourages readers to embrace the seemingly impossible After reading this book your perspective on Sasquatch will be forever changed as you look at traditional science anthropology and religion through a different lens and with a different expectation
