**Modernity and Male Migrant Workers in China** Xiaodong Lin, 2013-07-18 Rural urban migration within China has transformed and reshaped rural people's lives during the past few decades and has been one of the most visible phenomena of the economic reforms enacted since the late 1970s. Whilst Feminist scholars have addressed rural women's experience of struggle and empowerment in urban China in contrast research on rural men's experience of migration is a neglected area of study. In response this book seeks to address the absence of male migrant workers as a gendered category within the current literature on rural urban migration. Examining Chinese male migrant workers identity formation this book explores their experience of rural urban migration and their status as an emerging sector of a dislocated urban working class. It seeks to understand issues of gender and class through the rural migrant men's narratives within the context of China's modernization and provides an in depth analysis of how these men make sense of their new lives in the rapidly modernizing post Mao China with its emphasis on progress and development. Further this book uses the men's own narratives to challenge the elite assumption that rural men's low status is a result of their failure to adopt a modern urban identity and lifestyle. Drawing on interviews with 28 male rural migrants Xiaodong Lin unpacks the gender politics of Chinese men and masculinities and in turn contributes to a greater understanding of global masculinities in an international context. This book will be of great interest to students and scholars working in the fields of Chinese culture and society gender studies migration studies sociology and social anthropology. Shortlisted for this year's BSA Philip Abrams Memorial Prize. **Taoism** Russell Kirkland, 2004 Presents volume thirteen of a fourteen volume series on World Religions exploring the origins of Taoism in China its central beliefs and restoration under China's religious freedom clause rituals sacred sites and more.

**Photography** Nicole Hudgins, 2020-09-02 It would be unthinkable now to omit early female pioneers from any survey of photography's history in the Western world. Yet for many years the gendered language of American British and French

photographic literature made it appear that women's interactions with early photography did not count as significant contributions Using French and English photo journals cartoons art criticism novels and early career guides aimed at women this volume will show why and how early photographic clubs journals exhibitions and studios insisted on masculine values and authority and how Victorian women engaged with photography despite that dominant trend Focusing on the period before 1890 when women were yet to develop the self assurance that would lead to broader recognition of the value of their work this study probes the mechanisms by which exclusion took place and explores how women practiced photography anyway both as amateurs and professionals Challenging the marginalization of women's work in the early history of photography this is essential reading for students and scholars of photography history and gender studies **Transtopia in**

**the Sinophone Pacific** Howard Chiang, 2021-04-06 As a broad category of identity transgender has given life to a vibrant field of academic research since the 1990s Yet the Western origins of the field have tended to limit its cross cultural scope Howard Chiang proposes a new paradigm for doing transgender history in which geopolitics assumes central importance Defined as the antidote to transphobia transtopia challenges a minoritarian view of transgender experience and makes room for the variability of transness on a historical continuum Against the backdrop of the Sinophone Pacific Chiang argues that the concept of transgender identity must be rethought beyond a purely Western frame At the same time he challenges China centrism in the study of East Asian gender and sexual configurations Chiang brings Sinophone studies to bear on trans theory to deconstruct the ways in which sexual normativity and Chinese imperialism have been produced through one another Grounded in an eclectic range of sources from the archives of sexology to press reports of intersexuality films about castration and records of social activism this book reorients anti transphobic inquiry at the crossroads of area studies medical humanities and queer theory Timely and provocative **Transtopia in the Sinophone Pacific** highlights the urgency of interdisciplinary knowledge in debates over the promise and future of human diversity **Writing Gender in Early**

**Modern Chinese Women's Tanci Fiction** Li Guo, 2021-06-15 Women's tanci or plucking rhymes are chantefable narratives written by upper class educated women from seventeenth century to early twentieth century China **Writing Gender in Early Modern Chinese Women's Tanci Fiction** offers a timely study on early modern Chinese women's representations of gender nation and political activism in their tanci works before and after the Taiping Rebellion 1850 to 1864 as well as their depictions of warfare and social unrest Women tanci authors redefinition of female exemplarity within the Confucian orthodox discourses of virtue talent chastity and political integrity could be burgeoning expressions of female exceptionalism and could have foreshadowed protofeminist ideals of heroism They establish a realistic tenor in affirming feminine domestic authority and open up spaces for discussions of womanly becoming female exceptionalism and shifting family power structures The vernacular mode underlying these texts yields productive possibilities of gendered self representations bodily valences and dynamic performances of sexual roles The result is a vernacular discursive frame that

enables women's appropriation and refashioning of orthodox moral values as means of self affirmation and self realization. Validations of women's political activism and loyalism to the nation attest to tanci as a premium vehicle for disseminating progressive social incentives to popular audiences. Women's tanci marks early modern writers' endeavors to carve out a space of feminine becoming, a discursive arena of feminine appropriation, reinvention, and boundary crossings. In this light, women's tanci portrays gendered mobility through depictions of a heroine's voyages or social ascent and entails a forward-moving historical progression toward a more autonomous and vested model of feminine subjectivity.

**Gender and Friendship in Chinese Literature**, 2024-09-23. Canvassing a range of materials that include early tales of exemplarity, medieval song lyrics, Ming-Qing poetry, and plucked rhymes, twentieth-century writings about revolutionaries, opera stars, missionaries, and contemporary fiction, this volume illustrates the discourse and representation of friendship in which women gain agency and participate in broader arguments about ethics, politics, and religious transcendence. Friendship prompts reflections on gender roles, becomes the venue of literary self-consciousness, and heightens the sense of literary community. Gender and community function in new ways through the public dimension of friendship, and most importantly, the intersections of gender and friendship enable us to rethink other relationships.

**Gender, Power, and Talent** Jinhua Jia, 2018-03-13. During the Tang dynasty (618-907), changes in political policies, the religious landscape, and gender relations opened the possibility for Daoist women to play an unprecedented role in religious and public life. Women from imperial princesses to the daughters of commoner families could be ordained as Daoist priestesses and become religious leaders, teachers, and practitioners in their own right. Some achieved remarkable accomplishments: one wrote and transmitted texts on meditation and inner cultivation; another, a physician, authored a treatise on therapeutic methods, medical theory, and longevity techniques. Priestess-poets composed major works, and talented priestess-artists produced stunning calligraphy. In *Gender, Power, and Talent*, Jinhua Jia draws on a wealth of previously untapped sources to explain how Daoist priestesses distinguished themselves as a distinct, gendered religious and social group. She describes the life journey of priestesses from palace women to abbesses and ordinary practitioners, touching on their varied reasons for entering the Daoist orders, the role of social and religious institutions, forms of spiritual experience, and the relationships between gendered identities and cultural representations. Jia takes the reader inside convents and cloisters, demonstrating how they functioned both as a female space for self-determination and as a public platform for both religious and social spheres. The first comprehensive study of the lives and roles of Daoist priestesses in Tang China, *Gender, Power, and Talent* restores women to the landscape of Chinese religion and literature and proposes new methodologies for the growing field of gender and religion.
