Successful Personal Injury Investigation Francis D. Ritter, 2000 *The Tape-recorded Interview* Edward D. Ives, 1989 Interpreters and the Legal Process Joan Colin, Ruth Morris, 1996-05-01 Deals with spoken language and sign language It concentrates on England and Wales but several sections are of international import The book should be of use to interpreters who need to know about interpreting related issues within the legal system but also encompasses a wider audience *Sustaining the Borderlands in the Age of NAFTA* Suzanne Simon, 2014-06-20 Sustaining the Borderlands in the Age of NAFTA provides the only book length study of the impact on residents of the US Mexico border of NAFTA s Environmental and Labor Side Accords which required each state to enforce labor and environmental regulations Through field research in Matamoros Tamaulipas anthropologist Suzanne Simon tests the premise that the side accords would

encourage Mexican grassroots democratization The effectiveness of the side accords was tied to transparency and accountability and practically bound to opportunities for Mexican border populations to participate in the side accord petitioning and civil society input mechanisms Simon conducted sixteen months of fieldwork with both a group of environmental activists and a group of those fighting for labor justice in Mexico Both of these groups became enmeshed in the types of cross border advocacy networks and coalition building efforts that are typical of the NAFTA era Although the key to the side accords anticipated success lay in their ostensibly generous encouragement of a participatory politics and sustainable development opportunities Sustaining the Borderlands reveals that the Mexican border populations for which they were largely created are effectively excluded from participating due to the ongoing online territorial class and cultural barriers that shape the borderlands Rather than experiencing the side accords and their companion institutions as transparent and accessible residents experienced them as opaque and indecipherable Simon concludes that the side accords have failed to deliver on their promise of bringing democracy to Mexico because practical mechanisms that would ensure their effective implementation were never put in place NAFTA took effect at a time when Mexico was undergoing a democratic transition The treaty was supposed to encourage this transition and improve environmental and labor conditions on the US Mexico border This book demonstrates that twenty years later the promises of NAFTA have not come to pass

Radical Sisters Anne M. Valk, 2024-03-18 *Radical Sisters* offers a fresh exploration of the ways that 1960s political movements shaped local grassroots feminism in Washington D C Rejecting notions of a universal sisterhood Anne M Valk argues that activists periodically worked to bridge differences for the sake of alleviating women's plight even while maintaining distinct political bases While most historiography on the subject tends to portray the feminist movement as deeply divided over issues of race Valk presents a more nuanced account showing feminists of various backgrounds both coming together to promote a notion of sisterhood and being deeply divided along the lines of class race and sexuality

The Lost World of the Craft Printer Maggie Holtzberg, 1992 She finds that a significant number of printers independently developed similar responses to the deskilling of their craft and the threat of unemployment Demonstrating a widespread consistency in themes and expressive forms in the printers' occupational narratives Holtzberg Call shows that what once served as the printers' rhetoric of tradition is now their rhetoric of displacement Initiation rites long apprenticeships a complex and peculiar jargon and a gallery of legendary figures once bound hot metal printers into a specialized highly regarded occupational folk community The hot metal printers' lore has survived in an exemplary form that functions as a source of reconciliation with the demise of their craft Holtzberg Call analyzes how and why the printers traditionalize and idealize their work experience drawing parallels between the shift from mechanical to computer typesetting and an equally disconcerting transition in the nineteenth century when Linotype deposited handset type She also shares her knowledge of the many aspects of hot metal printing culture from the life of the tramp printer to the meanings of various printing terms to the operation of a Linotype machine One gains a sense of the conditions in the old type shops where long hours excessive heat and poorly ventilated fumes from solvent ink and molten lead were the crucible in which camaraderie pride and fulfillment were forged

A Bluestocking in Charleston Louise Anderson Allen, 2001 In early 20th century Charleston Laura Bragg was called a woman ahead of her time a fresh drink of water in a cultural desert but never a proper Southern lady This biography tells the story of the woman who changed the cultural face of Charleston and the nation's approach to museum education

Managing Innovation in the Arts Marian Fitzgibbon, 2001-09-30 A main justification for public funding of the arts is to protect the arts from the marketplace and to encourage experimentation and innovation But little is known about the actual innovation process Is funding the only issue Protecting the arts from the marketplace has up to now been the main item in any discussion of artistic creativity This publication of Fitzgibbons carefully researched investigation provides a privileged insight which both fills out and refocuses the picture She examines the operation of three

performing arts companies from Ireland a country whose reputation for creativity bears little relation to its small size and population and finds that innovation in the arts requires uncommon dedication persistence and yes sacrifice qualities that have been blurred by the mythology of what makes for artistic innovation She studies the social and organizational context of most arts work today with emphasis on the effort that goes into the achievement of innovation and comes away with a new vocabulary and grammar for managing it Innovation in the arts is an arduous stressful process as it is in all areas of high achievement but the perception most people have of it is misinformed says Fitzgibbon Creativity management is confused with what is commonly known as creative management She shows it is possible to identify a number of factors that bear heavily on innovation in arts organizations So far the first study of the management of arts innovation specifically Fitzgibbon's work offers a privileged and pragmatic insight into the workings of highly innovative arts organizations The result is a graphic analysis that strips innovation down to its essentials and begins to answer vital questions This work is essential reading for arts policy makers managers administrators and those who would be donors and for serious students of arts and culture management in the academic community
