## **Targeting Development:**

**Targeting Development** Richard Black, Howard White, 2003-11-20 The Millennium Development Goals accepted by the UN in 2000 are along with the targets set by the OECD in 1996 the subject of this expertly written book Is development achievable in the time frames given How useful were the goals in the first place How far have we come in solving the aching problems of the developing world These questions and more are asked and answered This impressive collection featuring an array of respected contributors and a preface from Mark Malloch Brown of the UNDP will be required reading among development economists and those interested in development studies more generally Perhaps more importantly the lessons learned from this book shall need to be understood and acted upon by policy makers at both national and international levels

**The Ugandan Dairy Sub-Sector: Targeting Development Opportunities , Targeting Regional Economic Development** Stephan J. Goetz, Steven Deller, Tom Harris, 2009-03-25 Targeting regional economic development TRED has a long and rich tradition among academic economists and in the world of economic development practitioners This book builds on a series of workshops and papers organized by The Northeast Regional Center for Rural Development NERCRD at the Pennsylvania State University and the Rural Policy Research Centre RUPRI at the University of Missouri Through the coordinated efforts of NERCRD and RUPRI a network of university based researchers and Extension education specialists was developed and provides the foundation of this new edited volume For the first time in a single book Goetz Deller and Harris present an innovative approach through a collection of chapters discussing industry targeting and the relevance of TRED as an important analytical tool for practical targeting purposes The papers present issues surrounding community economic development clusters in industry and rural communities and the role of agglomeration economies The book provides the reader with insights into not only the theoretical foundations of targeting as well as empirical methods but also approaches for using the community level analysis to affect policy directions The State's Role in Urban Economic

Development Leanne Aronson, 1980 Handbook of Innovation & Appropriate Technologies for International Development Régnier, Philippe, Frey, Daniel, Pierre, Samuel, Varghese, Koshy, Wild, Pascal, 2022-10-20 This timely Handbook provides a conceptual discussion and an empirical review of new disruptive forms of innovation producing appropriate technologies which address both the needs of low income populations worldwide and provides alternative solutions for sustainable development **NASA Technical Note** ,1972 *Coastal Zone Management* United States. Congress. House. Committee on Merchant Marine and Fisheries. Subcommittee on Oceanography, 1980

**Re-envisioning Sovereignty** Trudy Jacobsen, Professor Charles Sampford, Professor Ramesh Thakur, 2013-02-28 Sovereignty as a concept is in a state of flux In the course of the last century traditional meanings have been worn away while the limitations of sovereignty have been altered as transnational issues compete with domestic concerns for precedence This volume presents an interdisciplinary analysis of conceptions of sovereignty Divided into six overarching elements it explores a wide range of issues that have

altered the theory and practice of state sovereignty such as human rights and the use of force for human protection purposes norms relating to governance the war on terror economic globalization the natural environment and changes in strategic thinking The authors are acknowledged experts in their respective areas and discuss the contemporary meaning and relevance of sovereignty and how it relates to the constitution of international order City Choices Kenneth K. Wong,1990-07-05 *City Choices* argues that both economic concerns and political factors can be synthesized in a new framework in city policymaking This synthesis is based on a systematic empirical study of policymaking in two large cities Using numerous governmental documents and conducting extensive interviews with local state and federal officials the author examines how the two cities have implemented both federal redistributive and development programs in education and housing The author uses three models in explaining city choices economic constraint clientele participation and institutional diversity and concludes by offering his political choice perspective which identifies specific sets of local political forces that are likely to alter the city s rational choices in development and redistributive issues *Guidelines to increase the resilience of agricultural supply chains* Food and Agriculture Organization of the United Nations,2023-05-05 The effects of the COVID 19 pandemic on food and agriculture have been felt all over the world As the pandemic unfolded considerable attention began to be paid to the resilience of agricultural supply chains to COVID 19 related shocks as well as to natural and human induced shocks more generally These Guidelines to increase the resilience of agricultural supply chains are intended for policymakers and other stakeholders who need a broad grasp of the concepts issues and possible approaches involved Efforts to strengthen resilience to risks need to be based on a thorough analysis of the exposure and vulnerability of supply chains to them and on a cost benefit assessment of damages versus interventions In addition not all decisions can be based on commercial and economic considerations as political priorities will also play a role Governments may take the lead in setting policy priorities based on assessments of risk and resilience capacities but it is actors throughout the supply chain who are directly affected and who need to consider business strategies and interventions to be able to adapt and transform for the future Governments play an essential role by supporting the efforts of supply chain businesses and by building general resilience through establishing an appropriate policy and institutional environment and through the investments they make in physical infrastructure in putting social protection in place and in facilitating and promoting collaboration and cooperation Enhancing general resilience against future risks is important as new risks emerge and the frequency and intensity of known risks grow with climate change and increasing pressure on natural resources Financing Municipal Needs United States. Congress. Joint Economic Committee. Subcommittee on Economic Growth and Stabilization,1977 Hearings, Reports and Prints of the Joint Economic Committee United States. Congress. Joint Economic Committee,1977 **Social Uses And Radio Practices** Lucila Vargas,2019-06-21 This book is about the social value of participatory or communityoriented radio and stresses how the politics of race ethnicity class and gender shape the extent and quality of

people's participation in development efforts. It shows ethnographically how a number of Mexican ethnic minorities use the communication resources made available to them by a network of radio stations sponsored by the federal government through its Instituto Nacional Indigenista (INI).

**The MDGs, Capabilities and Human Rights** Sakiko Fukuda-Parr, Alicia Yamin, 2017-10-02 Heralded as opening a new chapter in international development the Millennium Development Goals (MDGs) have led to the use of global goals and quantitative targets as a central instrument for defining global priorities. This book explores the implications of this new approach. How does target setting influence policy priorities of national governments bilateral donors multilateral agencies NGOs and other stakeholders? What are the intended and unintended consequences? Why is the use of numeric indicators effective? How does quantification reshape meanings of challenges such as women's empowerment? Building on 11 case studies and a conceptual framework this book provides a goal-by-goal analysis by leading specialists in the relevant fields. These specialists analyse the choices made as well as the empirical and normative effects of the MDGs to offer insights for a more rigorous use of indicators and cautions on their limitations and perverse consequences. This book was originally published as a special issue of the Journal of Human Development and Capabilities.

**Multidimensional Poverty among Social Groups in Kerala** K.C. Baiju, Shibu Sivaraman, 2018-07-27 This book narrates the living conditions and incidence of poverty among households belonging to the different social groups in Kerala, India. Using a micro-level study it investigates the inter-group variations with regards to the incidence of multidimensional poverty in the sample area the Kasaragod District, Kerala. The Regional Human Development Enabling Index (RHDEI) and the Multidimensional Poverty Index (MPI) are the main tools used for analysis here. The book highlights the incidence intensity and disparity of multidimensional poverty in Kerala and clearly pinpoints the

intra state mirage of the achievements of Kerala in the dimensions of human development among the social groups living in the state The book also explores the socio cultural barriers of these marginalized groups which should become the focus and concern for policy makers and stakeholders in governance      *Aid Impact and Poverty Reduction* S. Folke,2015-12-25

Developing broad holistic notions of impact to measure the effects of international development assistance this book makes a significant contribution to understanding the international political economy Leading experts focus on enhancing aid s ability to reduce poverty in poor countries      **Development of the Nervous System** Dan H. Sanes,Thomas A. Reh,William A.

Harris,2000-06-07 Development of the Nervous System presents a broad outline of neural development principles as exemplified by key experiments and observations from past and recent times The text is organized along a development pathway from the induction of the neural primordium to the emergence of behavior It covers all the major topics including the patterning and growth of the nervous system neuronal determination axonal navigation and targeting synapse formation and plasticity and neuronal survival and death This new text reflects the complete modernization of the field achieved through the use of model organisms and the intensive application of molecular and genetic approaches Original artist rendered drawings combined with clear concise writing make Development of the Nervous System well suited to anyone approaching this complex field for the first time Key Features Provides a synopsis of concepts and experimental strategies Includes designs of critical experiments that are easy to understand Outlines the molecular and genetic bases for many developmental events Presents new information on the function of the developing central nervous system Richly illustrated with original drawings Treats the field as an experimental rather than a descriptive science Written at a level that is appropriate for undergraduates and beyond
