Task-Based Language Teaching in Foreign Language Contexts Ali Shehadeh, Christine A. Coombe, 2012-10-17 This volume extends the Task Based Language Teaching Issues Research and Practice books series by deliberately exploring the potential of task based language teaching TBLT in a range of EFL contexts It is specifically devoted to providing empirical accounts about how TBLT practice is being developed and researched in diverse educational contexts particularly where English is not the dominant language By including contributions from settings as varied as Japan China Korea Venezuela Turkey Spain and France this collection of 13 studies provides strong indications that the research and implementation of TBLT in EFL settings is both on the rise and interestingly diverse not least because it must respond to the distinct contexts constraints and possibilities of foreign language learning The book will be of interest to SLA researchers and students in applied linguistics and TESOL It will also be of value to course designers and language teachers who come from a broad range of formal and informal educational settings encompassing a wide range of ages and types of language learners

Reflections on Task-Based Language Teaching Rod Ellis, 2018-06-18 Task based language teaching is now a well established pedagogic approach but problematic issues remain such as whether it is appropriate for all learners and in all instructional contexts This book draws on the author's experience of working with teachers together with his knowledge of relevant research and theory to examine the key issues It proposes flexible ways in which tasks can be designed and implemented in the language classroom to address the problems that teachers often face with task based language teaching It will appeal to researchers and teachers who are interested in task based language teaching and the practical and theoretical issues involved It will also be of interest to students and researchers working in the areas of applied linguistics TESOL and second language acquisition

Task-Based Language Teaching from the Teacher's Perspective Martin East, 2012-01-01 Task based language teaching TBLT is being encouraged as part of a major overhaul of the entire school languages curriculum in New Zealand However teachers often struggle with understanding what TBLT is and how to make TBLT work in classrooms Using the stories that emerged from a series of interviews with teachers the curriculum implementers and with advisors the curriculum leaders this book highlights the possibilities for TBLT innovation in schools It also identifies the constraints and proposes how these might be addressed The result is a book that whilst rooted in a particular local context provides a valuable sourcebook of teacher stories that have relevance for a wide range of people working in a diverse range of contexts This book will be of genuine interest to all those who wish to understand more about

TBLT innovation and the opportunities and challenges it brings **Task-Based Language Learning and Teaching with Technology** Michael Thomas,Hayo Reinders,2010-11-04 *Task-based Language Learning and Teaching. many exercises in EFL classrooms have no clear connection to real world situations researchers and modern English teachers try to put emphasis on tasks which help learners to use the target language effectively in different situations outside the classroom This term paper has its focus on the implementation of task based learning and teaching in EFL classrooms and the way task based activities can be designed Based on the fact that motivation plays an important role in language learning it is also necessary to concentrate on possibilities to make the English language attractive also for young learners and to help them realizing that through task based learning activities they can learn something which can be transferred to real life situations Since I did not know a lot about task based language learning and teaching I was looking forward to being engaged in this topic The most interesting and also surprising aspect that I learned was that there are so many advantages of TBL First of all TBL allows students to be free of language control because they use all their language resources rather than just practicing one preselected item Furthermore a natural context is developed from the students experiences with the language that is personalized and relevant to them Another essential advantage is the more varied exposure to language with TBL since they will be exposed to a whole range of lexical phrases collocations and patterns as well as language forms An important aspect of TBL is that the language explored arises from the students needs It is no more the decision made by the teacher or the coursebook Lastly the most important advantage in my opinion is the strong communicative approach because students spend a lot of time communicating I am sure that TBL is enjoyable and motivating for students as well as for teachers
