Garlic Capital of the World Pauline Adema, 2010-02-17 According to Pauline Adema you smell Gilroy California before you see it In *Garlic Capital of the World* the folklorist and culinary anthropologist examines the role of food and festivals in creating a place brand or marketable identity The author scrutinizes how Gilroy California successfully transformed a negative association with the pungent bulb into a highly successful tourism and marketing campaign This book explores how local initiatives led to an iconization of the humble product in Gilroy The city a well established agricultural center and bedroom community south of San Francisco rapidly built a place brand identity based on its now famous moniker Garlic Capital of the World To understand Gilroy's success in transforming a local crop into a tourist

draw Adema contrasts the development of this now thriving festival with events surrounding the launch and demise of the PigFest in Coppell Texas Indeed the Garlic Festival is so successful that the event is all that many people know about Gilroy Adema explores the creation and subsequent selling of foodscapes or food themed place identities This seemingly ubiquitous practice is readily visible across the country at festivals celebrating edibles like tomatoes peaches spinach and even cauliflower Food Adema contends is an attractive focus for image makers charged with community building and place differentiation Not only is it good to eat food can be a palatable and marketable symbol for a town or region

Pastrami on Rye Ted Merwin, 2015-10-06 For much of the twentieth century the New York Jewish deli rivaled and in some ways surpassed the synagogue as the primary gathering place for the Jewish community The deli argues Merwin reached its full flowering not in the immigrant period but in the interwar era when the children of Jewish immigrants celebrated the first flush of their

success in America by downing sandwiches and cheesecake in theater district delis But it was the kosher deli that followed Jews to the outer boroughs of the city and became the most tangible symbol of their continuing desire to maintain a connection to their heritage Making Slow Food Fast in California Cuisine Victor W. Geraci, 2017-03-02 This book follows the development of industrial agriculture in California and its influence on both regional and national eating habits Early California politicians and entrepreneurs envisioned agriculture as a solution to the food needs of the expanding industrial nation The state's climate geography vast expanses of land water and immigrant workforce when coupled with university research and governmental assistance provided a model for agribusiness In a short time the San Francisco Bay Area became a hub for guaranteeing Americans access to a consistent quantity of quality foods To this end California agribusiness played a major role in national food policies and subsequently produced a bifurcated California Cuisine that sustained both Slow and Fast Food proponents Problems arose as mid twentieth century social activists battled the unresponsiveness of government agencies to corporate greed food safety and environmental sustainability By utilizing multidisciplinary literature and oral histories the book illuminates a more balanced look at how a California Cuisine embraced Slow Food Made Fast **Chop Suey, USA** Yong Chen, 2014-11-04 American diners began to flock to Chinese restaurants more than a century ago making Chinese food the first mass consumed cuisine in the United States By 1980 it had become the country's most popular ethnic cuisine Chop Suey USA offers the first comprehensive interpretation of the rise of Chinese food revealing the forces that made it ubiquitous in the American gastronomic landscape and turned the country into an empire of consumption Engineered by a politically disenfranchised numerically small and economically exploited group Chinese food's tour de America is an epic story of global cultural encounter It reflects not only changes in taste but also a growing appetite for a more leisurely lifestyle Americans fell in love with Chinese food not because of its gastronomic excellence but because of its affordability and convenience which is why they preferred the quick and simple dishes of China while shunning its haute cuisine Epitomized by chop suey American Chinese food was a forerunner of McDonald's democratizing the once exclusive dining out experience for such groups as marginalized Anglos African Americans and Jews The rise of Chinese food is also a classic American story of immigrant entrepreneurship and perseverance Barred from many occupations Chinese Americans successfully turned Chinese food from a despised cuisine into a dominant force in the restaurant market creating a critical lifeline for their community Chinese American restaurant workers developed the concept of the open kitchen and popularized the practice of home delivery They streamlined certain Chinese dishes such as chop suey and egg foo young turning them into nationally recognized brand names *The Restaurants Book* David Beriss, David Sutton, 2007-12-15 Is the restaurant an ideal total social phenomenon for the contemporary world Restaurants are key sites for practices of social distinction where chefs struggle for recognition as stars and patrons insist on seeing and being seen This text brings together anthropological insights into these postmodern places *From Canton Restaurant to Panda Express* Haiming Liu, 2015-09-09 Received an

Consumers' Imperium Kristin L. Hoganson, 2010-03-15 Histories of the Gilded Age and Progressive Era tend to characterize the United States as an expansionist nation bent on Americanizing the world without being transformed itself In *Consumers Imperium* Kristin Hoganson reveals the other half of the story demonstrating that the years between the Civil War and World War I were marked by heightened consumption of imports and strenuous efforts to appear cosmopolitan Hoganson finds evidence of international connections in quintessentially domestic places American households She shows that well to do white women in this era expressed intense interest in other cultures through imported household objects fashion cooking entertaining armchair travel clubs and the immigrant gifts movement From curtains to clothing from around the world parties to arts and crafts of the homelands exhibits Hoganson presents a new perspective on the United States in the world by shifting attention from exports to imports from production to consumption and from men to women She makes it clear that globalization did not just happen beyond America s shores as a result of American military might and industrial power but that it happened at home thanks to imports immigrants geographical knowledge and consumer preferences Here is an international history that begins at home
