and short stories by Mary Hunter Austin Originally published with photographs taken by acclaimed American photographer Ansel Adams *The Land of Little Rain* is a classic work of nature writing Austin is now recognized as an early feminist and conservationist who understood the intricacy and fragility of ecosystems as well as the extent to which human civilization threatens their continued existence In a series of stories and essays on the animals landscapes and peoples that make up the American Southwest Mary Hunter Austin proves that the foremost responsibility of a writer is to look With an attentive and deeply respectful eye Austin describes the heat and violence of desert weather the tracks made by disparate animal species as they travel in search of water and the scavengers that depend on death for life Within this collection are brief stories about the people and communities scattered throughout the harsh Mojave desert a miner who longs for wealth and civilization but returns to the wild and unpredictable life of speculation a Shoshone medicine man captured by the Paiute tribe who misses his people and home a town where people live simply depending on nothing but the land and its bounty for their daily existence and abundant happiness *The Land of Little Rain* is both informative and moving an intricate tapestry that celebrates the diversity of life while making an incontrovertible case for its continued preservation Mary Hunter Austin was a gifted writer and an environmentalist ahead of her time In a world faced with the catastrophic effects of a global climate crisis we need writers such as Austin for not only the wisdom and knowledge they offer but the monumental change their words can inspire With a beautifully designed cover and professionally typeset manuscript this edition of Mary Hunter Austin's *The Land of Little Rain* is a classic of American literature and nature writing reimagined for modern readers *The Philosophical Transactions and Collections from the End of the Year 1665 to the End of the Year 1733*, 1721 *The Philosophical Transactions and Collections, to the End of the Year 1700, Abridg'd and Dispos'd Under General Heads ...* By John Lowthorp ...: Containing pt. 1, The mathematical papers; pt. 2, The physiological papers, by H.
