## **Talking Back To Presidents Dictators And Assorted Scoundrels:**

**Talking Back** Andrea Mitchell, 2006-12-26 No TV reporter today is more respected than NBC's Andrea Mitchell. She's covered stories from Jonestown to the fall of the Berlin Wall, gotten unexpected answers from such interviewees as Fidel Castro and Hillary Clinton, and balanced her high wire career with a very public marriage to former Federal Reserve Board Chairman Dr. Alan Greenspan. Mitchell's candid, funny, and riveting memoir is filled with unprecedented behind-the-scenes views of the television news industry and official Washington. A classic of contemporary journalism by a woman who has taken on her profession's entire old boy network, **Talking Back** deserves a place on the shelf alongside the memoirs of Hillary Clinton and Katherine Graham.

**The Man Who Knew** Sebastian Mallaby, 2017-12-05 Exceptional. Deeply researched and elegantly written. As a description of the politics and pressures under which modern independent central banking has to operate, the book is incomparable. Financial Times. The definitive biography of the most important economic statesman of our time from the bestselling author of *The Power Law* and *More Money Than God*. Sebastian Mallaby's magisterial biography of Alan Greenspan, the product of over five years of research based on untrammelled access to his subject and his closest professional and personal intimates, brings into vivid focus the mysterious point where the government and the economy meet. To understand Greenspan's story is to see the economic and political landscape of our time and the presidency from Reagan to George W. Bush in a whole new light. As the most influential economic statesman of his age, Greenspan spent a lifetime grappling with a momentous shift: the transformation of finance from the fixed and regulated system of the post-war era to the free-for-all of the past quarter century. The story of Greenspan is also the story of the making of modern finance for good and for ill. Greenspan's life is a quintessential American success story: raised by a single mother in the Jewish migr. community of Washington Heights, he was a math prodigy who found a niche as a stats-crunching consultant. A master at explaining the economic weather to captains of industry, he translated that skill into advising Richard Nixon in his 1968 campaign. This led to a perch on the White House Council of Economic Advisers and then to a dazzling array of business and government roles from which the path to the Fed was relatively clear. A fire-breathing libertarian and disciple of Ayn Rand in his youth, who once called the Fed's creation a historic mistake, Mallaby shows how Greenspan reinvented himself as a pragmatist once in power. In his analysis and in his core mission of keeping

inflation in check he was a maestro indeed and hailed as such At his retirement in 2006 he was lauded as the age's necessary man the veritable God in the machine the global economy's avatar His memoirs sold for record sums to publishers around the world But then came 2008 Mallaby's story lands with both feet on the great crash which did so much to damage Alan Greenspan's reputation Mallaby argues that the conventional wisdom is off base Greenspan wasn't a naive ideologue who believed greater regulation was unnecessary He had pressed for greater regulation of some key areas of finance over the years and had gotten nowhere To argue that he didn't know the risks in irrational markets is to miss the point He knew more than almost anyone the question is why he didn't act and whether anyone else could or would have A close reading of Greenspan's life provides fascinating answers to these questions answers whose lessons we would do well to heed Because perhaps Mallaby's greatest lesson is that economic statesmanship like political statesmanship is the art of the possible The Man Who Knew is a searching reckoning with what exactly comprised the art and the possible in the career of Alan Greenspan

TV News Anchors and Journalistic Tradition Kimberly Meltzer, 2010 Through the lens of TV news anchors this book examines the impact that television news has had on traditional journalistic standards and practices It provides a historical overview of the impact they have had on American journalism uncovering the changing values codes of behavior and boundaries of the journalistic community book cover

**The Education of Ronald Reagan** Thomas W. Evans, 2006-12-05 In October 1964 Ronald Reagan gave a televised speech in support of Republican presidential nominee Barry Goldwater The Speech as it has come to be known helped launch Ronald Reagan as a leading force in the American conservative movement However less than twenty years earlier Reagan was a prominent Hollywood liberal the president of the Screen Actors Guild and a fervent supporter of FDR and Harry Truman While many agree that Reagan's anticommunism grew out of his experiences with the Hollywood communists of the late 1940s the origins of his conservative ideology have remained obscure Based on a newly discovered collection of private papers as well as interviews and corporate documents The Education of Ronald Reagan offers new insights into Reagan's ideological development and his political ascendancy Thomas W. Evans links the eight years 1954-1962 in which Reagan worked for General Electric acting as host of its television program GE Theater and traveling the country as the company's public relations envoy to his conversion to conservatism In particular Evans reveals the profound influence of GE executive Lemuel Boulware who would become Reagan's political and ideological mentor Boulware known for his tough stance against union officials and his innovative

corporate strategies to win over workers championed the core tenets of modern American conservatism free market fundamentalism anticommunism lower taxes and limited government Building on the ideas and influence of Boulware Reagan would soon begin his rise as a national political figure and an icon of the American conservative movement

Reagan's Gun-Toting Nuns Theresa Keeley,2020-09-15 In Reagan s Gun Toting Nuns Theresa Keeley analyzes the role of intra Catholic conflict within the framework of U S foreign policy formulation and execution during the Reagan administration She challenges the preponderance of scholarship on the administration that stresses the influence of evangelical Protestants on foreign policy toward Latin America Especially in the case of U S engagement in El Salvador and Nicaragua Keeley argues the bitter debate between U S and Central American Catholics over the direction of the Catholic Church shaped President Reagan s foreign policy The flash point for these intra Catholic disputes was the December 1980 political murder of four American Catholic missionaries in El Salvador Liberal Catholics described nuns and priests in Central America who worked to combat structural inequality as human rights

advocates living out the Gospel's spirit. Conservative Catholics saw them as agents of class conflict who furthered the so-called Gospel according to Karl Marx. The debate was an old one among Catholics but as Reagan's Gun Toting Nuns contends it intensified as conservative anticommunist Catholics played instrumental roles in crafting U.S. policy to fund the Salvadoran government and the Nicaraguan Contras. Reagan's Gun Toting Nuns describes the religious actors as human rights advocates and against prevailing understandings of the fundamentally secular activism related to human rights, highlights religion inspired activism during the Cold War. In charting the rightward development of American Catholicism, Keeley provides a new chapter in the history of U.S. diplomacy and shows how domestic issues such as contraception and abortion joined with foreign policy matters to shift Catholic laity toward Republican principles at home and abroad.
