Psychic? Richard Webster, 2012-07-08 You probably know about some of the amazing feats regularly accomplished by animals from salmon who navigate through hundreds of miles of water to their birthplace to spawn to bloodhounds who can track the tiniest trace of a scent with noses one million times stronger than ours Although psychic powers such as telepathic communication have yet to be explained by modern science all animals both human and nonhuman have the potential But like any talent psychic talent must be developed and practiced Part collection of amazing animal stories part psychic manual Is Your Pet Psychic is your guide to understanding and developing your pet's psychic powers Read extraordinary tales of animal heroes animal ghosts and more Discover how you can test your pet's psychic abilities Learn how to communicate telepathically with your pet The exercises in this book will help you and your pet develop the natural psychic potential inherent within all living things As you experiment with them you will explore one of the true wonders of nature and strengthen the special bond you share with your pet *The Sense of Being Stared At* Rupert Sheldrake, 2013-06-22 Explores Rupert Sheldrake's more than 25 years of research into telepathy staring and intention precognition and animal premonitions Shows that unexplained human abilities such as the sense of being stared at and phone telepathy are not paranormal but normal part of our biological nature Draws on more than 5 000 case histories 4 000 questionnaire responses and the results of experiments carried out with more than 20 000 people Reveals that our minds and intentions extend beyond our brains into the world around us and even into the future Nearly everyone has experienced the feeling of being watched or had their stare result in a glance in their direction The phenomenon has been cited throughout history in nearly every culture along with other commonplace paranormal occurrences such as premonitions and telepathy In this newly updated edition Sheldrake shares his more than 25 years of research into telepathy the power of staring remote viewing precognition and animal premonitions Drawing on more than 5 000 case histories 4 000 questionnaire responses and the results of

experiments on staring thought transference phone telepathy and other phenomena carried out with more than 20 000 people as well as reports and data from dozens of independent research teams Sheldrake shows that these unexplained human abilities such as the sense of being stared at are not paranormal but normal part of our biological nature He reveals that telepathy depends on social bonds and traces its evolution from the connections between members of animal groups such as flocks schools and packs Sheldrake shows that our minds and intentions extend beyond our brains into our surroundings with invisible connections that link us to each other to the world around us and even to the future
