To Teachers On Psychology And To Students On Some Of Life s Ideals by William James In the general activity and uprising
of ideal interests which every one with an eye for fact can discern all about us in American life there is perhaps no more
promising feature than the fermentation which for a dozen years or more has been going on among the teachers In whatever
sphere of education their functions may lie there is to be seen among them a really inspiring amount of searching of the heart
about the highest concerns of their profession The renovation of nations begins always at the top among the reflective
members of the State and spreads slowly outward and downward The teachers of this country one may say have its future in
their hands We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books
in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of
our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant
literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in
the Classic Library have been scanned from the original works To ensure a high quality product each title has been
meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is
as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for

Talks to Teachers on Psychology and to Students on some of Life s Ideals By William James A Classic Teacher Resource Readers acquainted with my larger books on Psychology will meet much familiar phraseology In the chapters on habit and memory I have even copied several pages verbatim but I do not know that apology is needed for such plagiarism as this The talks to students which conclude the volume were written in response to invitations to deliver addresses to students at women s colleges The first one was to the graduating class of the Boston Normal School of Gymnastics Properly it continues the series of talks to teachers The second and the third address belong together and continue another line of thought I wish I were able to make the second On a Certain Blindness in Human Beings more impressive It is more than the mere piece of sentimentalism which it may seem to some readers It connects itself with a definite view of the world and of our moral relations to the same Those who have done me the honor of reading my volume of philosophic essays will recognize that I

mean the pluralistic or individualistic philosophy According to that philosophy the truth is too great for any one actual mind even though that mind be dubbed the Absolute to know the whole of it The facts and worths of life need many cognizers to take them in There is no point of view absolutely public and universal Private and uncommunicable perceptions always remain over and the worst of it is that those who look for them from the outside never know where The practical consequence of such a philosophy is the well known democratic respect for the sacredness of individuality is at any rate the outward tolerance of whatever is not itself intolerant These phrases are so familiar that they sound now rather dead in our ears Once they had a passionate inner meaning Such a passionate inner meaning they may easily acquire again if the pretension of our nation to inflict its own inner ideals and institutions vi et armis upon Orientals should meet with a resistance as obdurate as so far it has been gallant and spirited Religiously and philosophically our ancient national doctrine of live and let live may prove to have a far deeper meaning than our people now seem to imagine it to possess
