At an after dinner dance amid music and merriment the tempo stops with the flash and bang of a pistol going off. A man is shot dead, a daring act of murder in close quarters. It shouldn't take long for Harry, a private eye, to finger the killer. But he's not there; his wife Cardamine is. It's up to her to help the authorities follow clues, avoid red herrings, and nab the killer. But like a tango, this case takes a quick turn. She becomes the prey and must run a maze of death to escape a killer. Don't be a wallflower; get onto the dance floor with Cardamine. But watch out for Death cutting in. **Dance in the Dust** Denise Robins, 2013-10-17. A sweeping historical novel from the Queen of Romance originally published in 1959 and now available for the first time in eBook. Seduction, betrayal, rapture. Esmond, Earl of Mornbury, and the handsomest man in all England had renounced his elegantly reckless lifestyle only to be shattered by a cruel tragedy. Grief-stricken, he resumed his dissolute living and fought a deadly duel before retreating to a monastery to suffer alone. But now Queen Anne urges marriage upon him, and Esmond's thoughts turn to the lovely Magda, whom he has seen just once but who captured his interest and desire. The preparations for the match are put in place. But a shocking discovery awaits Esmond on his wedding day, a revelation that will put love to the ultimate test. He is England's most charming rogue; she is treachery's pawn. They thought nothing could stand between them, but will her terrible betrayal destroy their love. **The Dance of Identities** John D. Palmer, 2010-10-04. Korean adoptees have a difficult time relating to any of the racial identity models because they are people of color who often grew up in white homes and communities. Biracial and nonadopted people of color typically have at least one parent whom they can racially identify with, which may also allow them access to certain racialized groups. When Korean adoptees attempt to immerse into the Korean community, they feel uncomfortable and unwelcome because they are unfamiliar with Korean customs and language. *The Dance of Identities* looks at how Korean adoptees dance or engage with their various identities: white Korean, Korean adoptee, and those in between, and begins the journey toward self-discovery and empowerment. Throughout the author draws closely on his own experiences and those of thirty-eight other Korean adoptees, mainly from the U.S. Chapters are organized according to major themes that emerged from interviews with adoptees. *Wanting to be like White* examines assimilation into a White middle class identity during childhood. Although their White identity may be challenged at times, for the most part adoptees feel accepted as honorary Whites among their families and friends. *Opening Pandora's Box* discusses the shattering of adoptees' early views on race and racism and the problems of being raised colorblind in a race-conscious society. *Engaging and Reflecting* is filled with adoptee voices as they discover their racial and transracial identities as young adults. During this stage, many engage in activities that they believe make more culturally Korean, such as joining

Korean churches and Korean student associations in college Questioning What I Have Done delves into the issues that arise when Korean adoptees explore their multiple identities and the possible effects on relationships with parents and spouses In Empowering Identities the author explores how adoptees are able to take control of their racial and transracial identities by reaching out to parents prospective parents and adoption agencies and by educating Korean and Korean Americans about their lives The final chapter Linking the Dance of Identities Theory to Life Experiences reiterates for adoptees parents adoption agencies and social justice activists and educators the need for identity journeys and the empowered identities that can result The Dance of Identities is an honest look at the complex nature of race and how we can begin to address race and racism from a fresh perspective It will be well received by not only members of the Korean adoption community and transracial parents but also Asian American scholars educators and social workers **Slow Dancing with the Devil** Susan

The Representation of Dance in Australian Novels Melinda Jewell,2011 This book is an analysis of the textual representation of dance in the Australian novel since the late 1890s It examines how the act of dance is variously portrayed how the word dance is used metaphorically to convey actual or imagined movement and how dance is written in a novelistic form The author employs a wide range of theoretical approaches including postcolonial studies theories concerned with class gender metaphor and dance and in particular Jung s concept of the shadow and theories concerned with vision Through these variegated approaches the study critiques the common view that dance is an expression of joie de vivre liberation transcendence order and beauty This text also probes issues concerned with the enactment of dance in Australia and abroad and contributes to an understanding of how dance is translated into literature It makes an important contribution because the study of dance in Australian literature has been minimal and this despite the reality that dance is prolific in Australian novels
