**Creating Laos** Søren Ivarsson, 2008 This book examines the process through which Laos came into existence under French colonial rule through to the end of World War II Here Laos's position at the intersection of two conflicting spatial layouts of Thailand and Indochina made its national form a particularly contested process Rather than analyze this process in terms of administrative and political structures the book discusses how a specific idea about a separate Lao space and its culture was formed

**Commoners and Nobles** Heidi Fjeld, 2005 This study explores how Tibetans manoeuvre within two contradictory value systems those of old Tibet and the new People's Republic of China balancing between ideals and pragmatism More specifically it asks how it is that the social categories of pre communist Lhasa persist and are relevant in daily life despite decades of Chinese rule and the

comprehensive restructuring of Tibetan society      **Private Academies of Chinese Learning in Meiji Japan** Margaret Mehl, 2005 Annotation A comprehensive study of a little known but significant work not only contributes to a better understanding of education in the Meiji period but is also relevant to the reform of Japan's public education system today

Sanctuaries of the City Anni Greve, 2016-04-01 This book proposes that we can learn from Tokyo about the intrinsic importance of in-between realms to an international culture the sanctuaries It argues that certain urban societies are more robust than others because they offer socio-spatial capacities that enable the development of skills for coping with modern forms of living It studies places that may open the way to an international culture namely market places venues for performing arts and religious sites which with particular reference to the Durkheimian tradition are considered here in their quality as sanctuaries From its empirical analysis of such sanctuaries in Tokyo this book develops a more general theory about mega-cities urban sociability and identity      Facilitating an Empire: The Jesuits in Portuguese Territories and Beyond (1540-1975) Maria de Deus Beites Manso, 2025-02-13 This book explores the Jesuit order of its origins historical evolution missionary endeavors and global dynamics with a specific focus on Portugal and the challenges arising from changes in the former Portuguese Empire The narrative unfolds in three parts with the initial section exploring the foundation of the Jesuit order in 1540 approved by Pope Paul III Examining the order's presence in Portugal its connections with the Portuguese monarchy and its educational initiatives the exploration extends to a global Christianization mission aligned with crown and Roman interests The second part shifts focus to Jesuit provinces beyond Europe exploring regions with limited European presence through missionary action Using a comparative and connected historical approach the study analyzes missionary geography identifying parallels and differences shaped by a collective dynamic involving the Society of Jesus the crown Rome and diverse geographical dimensions The third segment addresses the restoration of the Society of Jesus particularly in Portugal navigating global dynamics The evolving landscape of the former Portuguese Empire necessitates a new contextualization signifying the need for currently unfeasible investigations The book will appeal for an academic audience with a specific interest in the detailed examination of the Jesuit order's history its organizational structure and its impact on missionary activities both within Portugal and in regions with limited European presence      *Ninja* John Man, 2012-07-19 The Ninjas today are the stuff of myth and legend in comics film and electronic games But once they were real the medieval equivalent of the SAS spies saboteurs assassins In their secrecy under cover skills and determination to survive they were the opposite of the overt self-destructive samurai Could they fly Make themselves invisible Of course not It was just that their skills gave them a magical aura As a result martial artists and story tellers have turned them into fantasy creatures from James Bond to Mutant Turtles In *Ninja* John Man goes in search of the truth In a journey to the heartland of the ninjas he takes us from their origins over 1 000 years ago through their heyday in the civil wars that ended with Japan's unification in 1600 But that was not the end of the ninja ethos That re-emerged in World War Two as a little known counterpart to Japanese

militarism Ninja ways live on in the real last of the ninjas Hiroo Onoda who held out in the Philippine jungle for 30 years

Cramb, 2007 Land and Longhouse examines the role of community market and state in the historic transformation of upland livelihoods in Southeast Asia Focusing on the Saribas Iban of Sarawak the book combines in depth generation long village case studies with an account of changes in land use and tenure at the regional level spanning a century and a half This analysis demonstrates that far from being passive victims of globalization the Iban have been active agents in their own transformation engaging with both market and state while retaining community values and governance R A Cramb makes a significant new contribution to debates about economic social and environmental change and conflict in upland Southeast Asia His book offers a fascinating empirically rich account of interest to scholars development practitioners and the general reader alike This study is certain to become a major reference point for future work on land use tenure and agrarian change in Upland Southeast Asia Clifford Sather University of Helsinki Rob Cramb has written an excellent book with a much needed longitudinal perspective on agrarian change The book is an important contribution to the urgent need for understanding the dynamics and consequences both environmental and social of upland transformation in Southeast Asia Ole Mertz University of Copenhagen Rob Cramb's study raises provocative questions about Iban society the nature of the Southeast Asia uplands and agrarian history He presents a work distinguished by the depth of its scholarship and the breadth of the questions addressed by it Michael R Dove Yale University The East Asian War, 1592-1598 James B. Lewis, 2014-12-05 As East Asia regains its historical position as a world centre information on the history of regional relations becomes ever more critical Astonishingly Northeast Asia enjoyed five centuries of international peace from 1400 to 1894 broken only by one major international war the invasion of Korea in the 1590s by Japan's ruler Hideyoshi This war involved Koreans Japanese Chinese Southeast Asians and

Europeans it saw the largest overseas landing in world history up to that time and devastated Korea It also highlighted the nature of the strategic balance in the region presenting China's Ming dynasty with a serious threat that perhaps foreshadowed the dynasty's subsequent overthrow by the Manchus played a major part in the establishment of the Tokugawa regime with its policy of peace and controlled access to seventeenth and eighteenth century Japan and demonstrated the importance for regional stability of the subtle relationship of Korea to both China and Japan This book presents a comprehensive analysis of the war and its aftermath in all its aspects military political social economic and cultural As such it deepens understanding of East Asian international relations and provides important insights into the strategic concerns that continue to operate in the region at present

*Violence and Belonging* Are J. Knudsen, 2009 Honor and violence are major themes in the anthropology of the Middle East yet apart from political violence most studies approach violence from the perspective of honour By contrast this important study examines the meanings of lethal conflict in a little studied tribal society in Pakistan's unruly North West Frontier Province NWFP and offers a new perspective on its causes Based on an in depth study of local conflicts the book challenges stereotyped images of a region and people miscast as extremist and militant Being grounded in local ethnography enables the book to shed light on the complexities of violence not only at the structural or systemic level but also as experienced by the men involved in lethal conflict In this way the book provides a subjective and experiential approach to violence that is applicable beyond the field locality and relevant for advancing the study of violence in the Middle East and South Asia The book is the first ethnographic study of this region since renowned anthropologist Fredrik Barth's pioneering study in 1954

**Early Modern East Asia** Kenneth M. Swope, Tonio Andrade, 2017-11-14 This book presents a great deal of new primary research on a wide range of aspects of early modern East Asia Focusing primarily on maritime connections the book explores the importance of international trade networks the implications of technological dissemination and the often unforeseen consequences of missionary efforts It demonstrates the benefits of a global history approach outlining the complex interactions between Western traders and Asian states and entrepreneurs Overall the book presents much interesting new material on this complicated and understudied period

*Other Landscapes* Deborah Sutton, 2009 Deborah Sutton recounts the failed British attempt to settle transform and govern the cooler uplands of South India It is a fascinating story bringing together strands from agrarian environmental administrative and cultural history
