How can we fully understand aikido or any other martial art for that matter when we have only been exposed to part of it While learning about the art we can easily make assumptions and be tricked by false impressions In most cases even instructors do not have enough background to grasp the entirety of the art and are happy to work with part of it The content in this special two volume anthology details the many facets of aikido as it was formulated by Morihei Ueshiba 1883 1969 O Sensei the great teacher Each chapter contributes to a piece of the aikido puzzle by providing historical details insightful technical drills bare handed and with weapons and components that have flavored this art with a spiritual essence From the Ueshiba wellspring flows a number of streams political splinter groups offering their own take on what aikido should be and how it should be practiced Each branch may stand on its own but a good number of scholars and practitioners prefer a more encompassing representation of what O Sensei taught So chapters in these volumes help put Humpty Dumpty back together again Volume I includes ten chapters and volume II another fourteen The authors twenty three in all present superb credentials as scholars and practitioners of aikido On the academic side you ll find chapters that detail aikido s philosophy from ethical relationships and practical theory to the subtle spiritual dimension A few authors highlight the circumstances regarding the transmission of aikido from teacher to student Some authors show how culture influences the perception and understanding of aikido when it travels outside Japan Aikido is often practiced as a system of body movement encompassing a philosophy of peace and harmony Others may focus on learning the art for its effective methods of self defense Composed of material previously published in the Journal of Asian Martial Arts this two volume anthology is heavy on the technical aspects of aikido that both teachers and students would benefit by reading Training methods are discussed in detail supported by hundreds of illustrations of attack and defense Whatever your primary interest is in aikido Aikido O Sensei s Sublime Synthesis will prove to be a great reference for the scholar and practitioner We hope this convenient collection of quality material dealing with Morihei Ueshiba s martial discipline will benefit your research and inspire the practice of this elegant art *High Performance Technical Textiles* Roshan Paul,2019-02-19 An authentic resource for the fundamentals applied techniques applications and recent advancements of all the main areas of technical textiles Created to be a comprehensive reference High Performance Technical Textiles includes the review of a wide range of technical textiles from household to space textiles The contributors noted experts in the field from all the continents offer in depth coverage on the fibre materials manufacturing processes and techniques applications current developments sustainability and future trends The contributors include discussions on synthetic versus natural fibres various textile manufacturing techniques textile composites and finishing approaches that are involved in the manufacturing of textiles for a specific high performance application Whilst the book provides the basic knowledge required for an understanding of technical textiles it can serve as a
