Ayub,2016-06-09 Knowing the Unknown Through Science and Sufism touches on the creation of the universe starting from the Big Bang and following through the phases of evolution until the present day discussing the appearance of life on earth after billions of years of turmoil It looks at the early beginnings of religion in prehistoric societies and how this progressed into organized religion as we know it today This book explores the similarities between the scientific concepts related to evolutionary change and the concepts that Sufis have highlighted with reference to verses of the Quran It discusses the history of mankind and the journey through theological philosophical and spiritual phases The book attempts to expand on the concept of time in relation to evolution and the difficulty in defining time and why the Quran mentions different times in different verses and also on an understanding of time in the present day The subject matter is vast but this book has attempted to address it in a more easily accessible way Mysticism in Heathendom and Christendom Edvard

Lehmann,1910 Taoist Mysteries and Magic John Blofeld,1982 **Science Spirituality and Ontological Mysticism** Lalan Prasad Singh,2016-01-01 This book is the outcome of two decades of author s reflection over this subject Ontological mysticism is the basis for the philosophical and the scientific truth and reality Twenty first century is ushering in an era of spiritual renaissance There is a convergence of science and spirituality The relativity and quantum mechanics are coming closer to Vedantic and Buddhistic concept of truth and reality The book analyses and examines different philosophical and scientific concepts both from the transcendental and the relativistic perspective It has also introduced a new concept in the form of cosmic consciousness as the ultimate reality and the scientific and philosophical importance of subject or perceiver Subject or perceiver may be accepted as the fifth dimension The cosmic consciousness is the only reality that exists This book is full of paradoxes and contradictions it is full of allegories and metaphors they are not truths but pointer to deeper and profound truth Sometimes myths and metaphors fables and allegories speak out greater truth than truth itself as truth is mystical and metaphysical *The System of Antichrist* Charles Upton,2005 The System of Antichrist examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities within their postmodern context Its many references to Rene Guenon and Frithjof Schuon also help introduce these important but little known traditionalist thinkers The book presents lore relating to the latter days of the present cycle from the vantage point of comparative religion drawing upon relevant doctrines from Buddhism Hinduism Judaism Christianity Islam

Zoroastrianism and the Native American traditions It also speculates upon the social psychic and spiritual nature of that being known to Christianity Judaism and Islam as the Antichrist presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents and against the regime which will be and is the social expression of that seduction and that terror Finally in tracing the roots of Antichrist in the fallen nature of man the author sketches the particular quality of spirituality proper to apocalyptic times the dangers it faces the unique opportunities open to it And along the way he describes his own course from the spiritual revolution of the 1960s through the world of New Age spiritualities to the threshold of traditional esoterism and metaphysics As he says speaking of the angst that characterizes the modern world The specific medicine for the shock of despair is the deeper shock of meaning Nothing but the weight of eternity breaking through the thin brittle shell of the postmodern sky can set us on our feet *The Rough Guide to Vietnam* Jan Dodd, Mark Lewis, 2009-10-19 The Rough Guide to Vietnam is ideal for people who want to travel independently and discover more about this incredibly diverse country It includes lively reviews of the best places to eat from street kitchens to the upmarket restaurants of Ho Chi Minh City and Hanoi and practical advice on activities from home stays in ethnic minority villages to boat trips around Ha Long Bay and visits to its national parks There are extensive user friendly descriptions of Vietnam s many sights including Hu s Imperial city temples and pagodas and Vietnam s impressive colonial architecture as well as its deserted beaches and the waterways of the Mekong Delta *The Outline of Knowledge: The story of religion and philosophic thought.
