The Tar Baby Bryan Wagner,2019-11-12 Perhaps the best known version of the tar baby story was published in 1880 by Joel Chandler Harris in *Uncle Remus His Songs and His Sayings* and popularized in *Song of the South* the 1946 Disney movie Other versions of the story however have surfaced in many other places throughout the world including Nigeria Brazil Corsica Jamaica India and the Philippines The Tar Baby offers a fresh analysis of this deceptively simple story about a fox a rabbit and a doll made of tar and turpentine tracing its history and its connections to slavery colonialism and global trade Southern Writers Joseph M. Flora,Amber Vogel,2006-06-21 This new edition of *Southern Writers* assumes its distinguished predecessor s place as the essential reference on literary artists of the American

South Broadly expanded and thoroughly revised it boasts 604 entries nearly double the earlier edition s written by 264 scholars For every figure major and minor from the venerable and canonical to the fresh and innovative a biographical sketch and chronological list of published works provide comprehensive concise up to date information Here in one convenient source are the South s novelists and short story writers poets and dramatists memoirists and essayists journalists scholars and biographers from the colonial period to the twenty first century What constitutes a southern writer is always a matter for debate Editors Joseph M Flora and Amber Vogel have used a generous definition that turns on having a significant connection to the region in either a personal or literary sense New to this volume are younger writers who have emerged in the quarter century since the dictionary s original publication as well as older talents previously unknown or unacknowledged For almost every writer found in the previous edition a new biography has been commissioned Drawn from the very best minds on southern literature and covering the full spectrum of its practitioners Southern Writers is an indispensable reference book for anyone intrigued by the subject

House Beautiful ,1905 **The Natural History of Make-Believe** John Goldthwaite,1996-02-22 The Man in the Moon has dropped down to earth for a visit Over the hedge a rabbit in trousers is having a pipe with his evening paper Elsewhere Alice is passing through a looking glass Dorothy riding a tornado to Oz and Jack climbing a beanstalk to heaven To enter the world of children s literature is to journey to a realm where the miraculous and the mundane exist side by side a world that is at once recognizable and real and enchanted Many books have probed the myths and meanings of children s stories but Goldthwaite s Natural History is the first exclusively to survey the magic that lies at the heart of the literature From the dish that ran away with the spoon to the antics of Brer Rabbit and Dr Seuss s Cat in the Hat Goldthwaite celebrates the craft the invention and the inspired silliness that fix these tales in our minds from childhood and leave us in a state of wondering to know how these things can be Covering the three centuries from the fairy tales of Charles Perrault to Maurice Sendak s Where the Wild Things Are he gathers together all the major imaginative works of America Britain and Europe to show how the nursery rhyme the fairy tale and the beast fable have evolved into modern nonsense verse and fantasy Throughout he sheds important new light on such stock characters as the fool and the fairy godmother and on the sources of authors as diverse as Carlo Collodi Lewis Carroll and Beatrix Potter His bold claims will inspire some readers and outrage others He hails Pinocchio for example as the greatest of all children s books but he views C S Lewis s The Chronicles of Narnia as a parable that is not only murderously misogynistic but deeply blasphemous as well Fresh incisive and utterly original this rich literary history will be required reading for anyone who cares about children s books and their enduring influence on how we come to see the world
