*The Tarantinian Ethics* Fred Botting, Scott Wilson, 2001-03-22 The screenplays and films of Quentin Tarantino raise profound comic and ethical dilemmas Developing ideas from Lacanian psychoanalysis Botting and Wilson explore ethical issues in relation to Tarantino's work postmodernity and recent cultural theory They argue that Tarantino's texts provide a provocative and telling contribution to theorized accounts of contemporary culture The term Tarantinian has been coined to refer to a set of sampled self-authorizing signs that are cinematically assembled in processes of consuming producing expending in the general context of a postmodern capitalism that enjoins excess The Tarantinian ethics are elaborated in the midst of a homogenized fast food movie and video culture in *Film and Ethics* Lisa Downing, Libby Saxton, 2009-09-10 Film Ethics considers a range of films and texts of film criticism alongside disparate philosophical discourses of ethics by Levinas Derrida Foucault Lacanian psychoanalysts and postmodern theorists

**Ethics of Cinematic Experience** Orna Raviv, 2019-10-16 Ethics of Cinematic Experience Screens of Alterity deals with the relationship between cinema and ethics from a philosophical perspective finding an intrinsic connection between film spectatorship and the possibility of being open to different modes of alterity The book's main thesis is that openness to otherness is already found in the basic structures of cinematic experience Through a close examination of the ethical relevance of the philosophy of Maurice Merleau-Ponty Stanley Cavell Emmanuel Levinas and Gilles Deleuze to cinema studies Ethics of Cinematic Experience Screens of Alterity pursues the question of how film can open the viewer to what is not her and so bring her to encounter otherness in a way that is unique to cinematic experience The book sees ethics as not just the subject content or story of a film but part of its aesthetic structure Accompanied by readings of films mainly from mainstream cinema each chapter focuses on a different aspect of the encounter with alterity through cinema The book gives particular attention to how theoretical discussion of the cinematic close-up can lead to ethical insights into the status of both the human and the non-human in film and thus lead to an understanding of the relationships the viewer makes with them The book is a helpful resource for students and scholars interested in the relationship between philosophy film and ethics and is appropriate for students of philosophy and media and cultural studies

The Oxford Handbook of Levinas Michael L. Morgan, 2019-04-10 Emmanuel Levinas 1906-1995 emerged as an influential philosophical voice in the final decades of the twentieth century and his reputation has continued to flourish and increase in our own day His central themes the primacy of the ethical and the core of ethics as our responsibility to and for others speak to readers from a host of disciplines and perspectives However his writings and thought are challenging and difficult The Oxford Handbook of Levinas contains essays that aim to clarify and engage Levinas and his writings in a number of ways Some focus on central themes of his work others on the ways in which he read and was influenced by figures from Plato Hobbes Descartes and Kant to Blanchot Husserl Heidegger and Derrida And there are essays on how his thinking has been appropriated in moral and political thought psychology film criticism and more and on the relation between his thinking

and religious themes and traditions Finally several essays deal primarily with how readers have criticized him and found him wanting The volume exposes and explores both the depth of Levinas s philosophical work and the range of applications to which it has been put with special attention to clarifying why his interests in the human condition the crisis of civilization the centrality and character of ethics and morality and the very meaning of human experience should be of interest to the widest range of readers
