## **Target Of Opportunity Tales And Contrails Of The Second World War:**

*Targets of Opportunity* Samuel Weber, 2009-08-25 The title of this book echoes a phrase used by the Washington Post to describe the American attempt to kill Saddam Hussein at the start of the war against Iraq Its theme is the notion of targeting skopos as the name of an intentional structure in which the subject tries to confirm its invulnerability by aiming to destroy a target At the center of the first chapter is Odysseus s killing of the suitors the second concerns Carl Schmitt s Roman Catholicism and Political Form the third and fourth treat Freud s Thoughts for the Times on War and Death and The Man Moses and Monotheistic Religion Weber then traces the emergence of an alternative to targeting first within military and strategic thinking itself Network Centered Warfare and then in Walter Benjamin s readings of Capitalism as Religion and Two Poems of Friedrich Hlderlin

**Duxford and the Big Wings, 1940-45** Martin W. Bowman, 2009-10-19 A pulsating account of the young RAF and American fighter boys who flew Spitfires Hurricanes Thunderbolts and Mustangs during 1940 45 It is unique in that the story is told using first person accounts from RAF German and American Eagles who fought in the skies over England in the Battle of Britain in the summer of 1940 and the great air offensives over occupied Europe from 1942 onwards The first five and a half chapters cover the Battle of Britain period when the RAF squadrons fought dog fights with the Luftwaffe and then fought them in gathering strength using the Big Wings to meet the bomber fleets attacking London The second part of the book covers the Eagle squadron period which was expanded with Americas entry into the war The action moves to the USAAF Big Wings of Thunderbolts and Mustang fighters that flew escort missions and dueled with the Luftwaffe over the continent during the massive bomber raids on German targets in France the Low Countries and the Reich itself A whole host of incredible first hand accounts by British Polish Czech German and American fighter pilots permeate the action and describe the aerial battles as only they can This unique book also includes many accounts and photos that have not previously been seen before while the rich mix of combat accounts from all sides are brought together for the first time in one volume

**Target of Opportunity** Richard A. Hewitt, 2000 [The Men Who Killed the Luftwaffe](#) Jay A. Stout, 2010-10-15 Dramatic story of World War II in the air How the U S built an air force of 2 3 million men after starting with 45 000 and defeated the world s best air force Vivid accounts of aerial combat Winner 2011 San Diego Book Awards for Military Politics In order to defeat Germany in World War II the Allies needed to destroy the Third Reich s industry and invade its territory but before they could effectively do either they had to defeat the Luftwaffe whose state of the art aircraft and experienced pilots protected German industry and would batter any attempted invasion This difficult task fell largely to the U S which at the outset lacked the necessary men materiel and training Over the ensuing years thanks to visionary leadership and diligent effort the U S Army Air Force developed strategies and tactics and assembled a well trained force that convincingly defeated the Luftwaffe

[Fighter Bases of WW II US 8th Army Air Force Fighter Command USAAF, 1943-45](#) Martin W. Bowman, 2009-08-19 This book covers the bases used during the Second World War by the American

fighter units that flew in support of the 8th Air Forces heavy bomber forces The long range Lightnings Thunderbolts and Mustangs escorted the Mighty Eighths Flying Fortresses and Liberators on their deep penetration raids into occupied Europe and Germany Fighter cover was vital since the USAAF flew daylight raids and in the early months the number of US aircraft lost to the defending Luftwaffe fighters was unacceptably high The airfields included are Bodney Bottisham Boxted Debden Duxford East Wretham Fowlmere Halesworth Honington Horsham St Faith Kings Cliffe Leiston Martlesham Heath Raydon Steeple Morden Wattisham and Wormingford This book looks at the history and personalities associated with each base what remains today and explores the favorite local wartime haunts where aircrew and ground crew would have sought well deserved entertainment and relaxation Other museums and places that are relevant will also be described and general directions on how to get them included

**The Build Up to the Beginning** Martin W. Bowman, 2013-01-19 This is the first volume of a most impressive tribute and accurate four part work that uniquely presents a complete account of the air operations throughout Market Garden in September 1944 when British US and Polish airborne troops made a gallant attempt to seize and hold bridges across the Lower Rhine in Holland as a springboard for crossing into Germany Market the aerial side of the proceedings was at the time the largest airborne operation in history In this unprecedented and insightful account the exploits of the First Allied Airborne Army are relayed in full detail supplemented with historical notes regarding the ground operations this is sure to offer an unparalleled account of the events as they unfolded in the skies above Holland If successful the war could be over by Christmas What could go wrong That it did and on such a massive scale is the underlying theme throughout this series The action was at times very confused so a narrative of events contained in sixteen timelines at intervals throughout this series cuts through the fog of battle to explain the situation from its over optimistic beginning to the tragic conclusion
