Targets Of Treatment In Chronic Inflammatory Bowel Diseases:

Targets of Treatment in Chronic Inflammatory Bowel Diseases H. Herfarth, B.G. Feagan, U.R. Fölsch, J. Schölmerich, M.H. Vatn, M. Zeitz, 2003-07-31 The first gene responsible for Crohn's disease has now been identified and the pathophysiological understanding of inflammatory bowel disease as well as its practical treatment have made much progress in recent years. Thus it is obviously important to consider the targets and the aims of treatment in context. The Falk Symposium No 131 Part II of the Gastroenterology Week Freiburg 2002 held in October 2002 in Freiburg Germany in its first part was dedicated to newly defined and partly alternative therapeutic targets. In addition an attempt was made to learn from experts from other fields such as pneumology or dermatology. The second part was dedicated to the aims of treatment in daily practice. Aside from general treatment aims such as amelioration of symptoms pre conditions of treatment the view of the patients and aspects of life quality were dealt with. This volume is the proceedings of the symposium and is important reading for both clinicians and basic scientists. IBD Management - Novel Targets and Therapeutic Perspectives Luca Antonioli, Barbara Romano, Corrado Blandizzi, Matteo Fornai, 2020-05-28 **Targets of treatment in chronic inflammatory bowel diseases**, 2002 Inflammatory Bowel Disease Stephan R. Nielsen,2015-07-08 The introduction of anti tumour necrosis factor TNF antibodies into the treatment of patients with IBD about fifteen years ago has dramatically improved the quality of life for patients with severe Crohn s disease and ulcerative colitis But despite the fact this therapeutic approach has been around for quite some time there has been no comprehensive overview to date The book at hand aims to amend this shortcoming presenting for the first time a thorough overview on TNF action mechanisms of anti TNF therapy treatment strategies side effects monitoring biosimilars and related issues Including state of the art information and research results this publication will be a valuable source of information and guide clinicians to the optimal treatment decision improving the quality of life of patients with inflammatory bowel disease Moreover rheumatologists or even dermatologists might also find this book of interest

Iron as Therapeutic Targets in Human Diseases Paolo Arosio,Maura Poli,Raffaella Gozzelino,2020-02-11 Iron is an essential element for almost all organisms a cofactor playing a crucial role in a number of vital functions including oxygen transport DNA synthesis and respiration However its ability to exchange electrons renders excess iron potentially toxic since it is capable of catalyzing the formation of highly poisonous free radicals As a consequence iron homeostasis is tightly controlled by sophisticated mechanisms that have been partially elucidated Because of its biological importance numerous disorders have been recently linked to the deregulation of iron homeostasis which include not only the typical disorders of iron

overload and deficiency but also cancer and neurodegenerative diseases This leads iron metabolism to become an interesting therapeutic target for novel pharmacological treatments against these diseases Several therapies are currently under development for hematological disorders while other are being considered for different pathologies The therapeutic targeting under study includes the hepcidin ferroportin axis for the regulation of systemic iron homeostasis complex cytosolic machineries for the regulation of the intracellular iron status and its association with oxidative damage and reagents exploiting proteins of iron metabolism such as ferritin and transferrin receptor A promising potential target is a recently described form of programmed cell death named ferroptosis in which the role of iron is essential but not completely clarified This Special Issue has the aim to summarize the state of the art and the latest findings published in the iron field as well as to elucidate future directions
