traditional grand narrative correlating the decline of Graeco Roman religion with the rise of Christianity has been under pressure for three decades This book argues that the alternative accounts now emerging significantly underestimate the role of three major cults of Cybele and Attis Isis and Serapis and Mithras Although their differences are plain these cults present sufficient common features to justify their being taken typologically as a group All were selective adaptations of much older cults of the Fertile Crescent It was their relative sophistication their combination of the imaginative power of unfamiliar myth with distinctive ritual performance and ethical seriousness that enabled them both to focus and to articulate a sense of the autonomy of religion from the socio political order a sense they shared with Early Christianity The notion of mystery was central to their ability to navigate the Weberian shift from ritualist to ethical salvation **Rick Steves Spain** Rick

The Spanish and the Portuguese Present Perfect in Discourse Lukas Müller,2023-02-08 This monograph presents a theoretical and empirical study of the Spanish and the Portuguese Present Perfect PP The innovative claim is that the two tense forms operate in the field of tension between temporal quantification and temporal reference Based on this approach it presents the first in depth study that explicitly takes into account the level of discourse The following questions are investigated How do the Spanish and the Portuguese PP interact with discursive factors such as adjacent tense forms What kind of discursive meaning do they generate Which diachronic trends do their discourse functions reveal It is argued that while the Spanish PP tends to a referential drift traditionally labelled as an aoristic drift the Portuguese PP tends to preserve and specialize its quantificational meaning The book is of interest to all those working on the Present Perfect or generally in the field of tense and aspect in discourse
