Gender, Race, and American Science Fiction Jason Haslam, 2015-05-08 This book focuses on the interplay of gender race and their representation in American science fiction from the nineteenth century through to the twenty first and across a number of forms including literature and film Haslam explores the reasons why SF provides such a rich medium for both the preservation of and challenges to dominant mythologies of gender and race Defining SF linguistically and culturally the study argues that this mode is not only able to illuminate the cultural and social histories of gender and race but so too can it intervene in those histories and highlight the ruptures present within them The volume moves between material history and the linguistic nature of SF fantasies from the specifics of race and gender at different points in American history to larger analyses of the socio cultural functions of such identity categories SF has already become central to discussions of humanity in the global capitalist age and is increasingly the focus of feminist and critical race studies in combining these earlier approaches this book goes further to demonstrate why SF must become central to our discussions of identity writ large of the possibilities and failings of the human past present and future Focusing on the interplay of whiteness and its various others in relation to competing gender constructs chapters analyze works by Nathaniel Hawthorne Mary E Bradley Lane Edgar Rice Burroughs Philip Francis Nowlan George S Schuyler and the Wachowskis Frank Herbert William Gibson and Octavia Butler Academics and students interested in the study of Science Fiction American literature and culture and Whiteness Studies as well as those engaged in critical gender and race studies will find this volume invaluable

After Human Thomas Connolly, 2021-04-01 Shortlisted for the British Fantasy Awards Non Fiction 2022 Shortlisted for the Locus Science Fiction Foundation Non Fiction Award 2022 SF has long been understood as a literature of radical potential capable of imagining entirely new worlds and ways of being Yet SF has been slow to embrace posthumanist ideas about the human subject The human of the SF tradition is instead a liminal being caught somewhere between the transcendent Man of classical humanism and the subversive cyborg of posthumanist thought This study offers a critical history of the human in SF By examining a range of SF works from 1818 to the 1970s it seeks to answer

some key questions What role does technology play in defining what it means to be or not to be human How do these writers understand the relationship between humanity and the rest of nature And how can we use SF to re examine our ethical position towards the non human world and move to more egalitarian understandings of the human subject GRAVITY MY ENEMY EDMUND ELSNER,2013-03-19 On October 15 1959 a seventeen year old boy was stricken with polio and hospitalized for an entire year emerging with need of a wheelchair a quadriplegic for life On September 16 1964 less than five years later having finished his university studies he sat alone on a prop driven Constellation bound for Colombia South America He was about to embark on eleven years of adventures from the dim forbidden forests of the Darien south of Panama to the tempestuous Pacific coast to the unexplored Orinoco Basin and to live with Indian tribes deep in the Amazon who had rarely seen whites The tales of these experiences depict the dreamlike beauties of the steamy jungle guerrilla activities in the lofty Andes the warmth and charm of the Colombian people and hair raising violence *Mediated Deviance and Social Otherness* Kylo-Patrick R. Hart,2009-01-14 If in fact Lizzie Borden took an axe and gave her step mother forty whacks why from a representational standpoint did her stepmother deserve it If older gay men in Internet chat rooms regularly provide much needed acceptance and advice to younger gay males during the coming out process how is it that they continually reinforce racist ideologies and powerless subjectivities while doing so What sorts of media images are commonly presented of individuals and groups that are regarded as being deviant in society and whose interests do they ultimately serve The answers to these important questions and many others are provided in the pages of *Mediated Deviance and Social Otherness Interrogating Influential Representations* which explores provocative representations of deviance in various media forms including books films musical offerings news accounts television programs and Internet sites and their substantial cultural political and social consequences for the lived realities of individuals of different backgrounds and lifestyles The eye opening chapters of this book enable readers to more fully realize the regularity with which media representations continuously contribute in powerful ways to the formation and perpetuation of influential social constructions of deviance and otherness as they pertain to delinquents criminals and individuals of all ages classes genders races sexual orientations and health dis ability statuses *Mediated Deviance and Social Otherness Interrogating Influential Representations* is a thought provoking anthology that offers fresh insight and new approaches to critically analyzing social constructions of deviancy across a variety of media forms While scholars have long examined the relationship between media and deviancy this collection of essays features a range of theoretical perspectives through which to investigate deviancy and its various interpretations in original ways In the process it deepens our understanding of how deviancy has been constructed across time and in differing social cultural milieus The essays in this anthology reflect the diverse disciplines of their contributing scholars At the same time the anthology does not waver from its clear focus on deviancy lending it substantial coherence and readability The book is expertly structured and edited Each of the essays draws inspiration from a refreshing

variety of sources and fields of study The anthology is accordingly divided into six distinct yet related sections that mark its coherence and readability Simultaneously the essays within each section are quite different from one another allowing the reader to make thought provoking connections between representations of deviancy both within sections and among them Mediated Deviance and Social Otherness Interrogating Influential Representations is an important text Considering the growth of new media forms its investigation of both old and new media in relation to social constructions of deviancy represents a timely and topical contribution to the field of media and cultural studies Given its breadth and scope the anthology represents a highly significant scholarly contribution that will greatly benefit scholars students and interested individuals of all levels It offers eye opening insights to anyone with an interest in cultural studies disease and disability studies film and television studies LGBT studies criminal justice sociology and related fields

Brief Reviewer Bio Metasebia Woldemariam Ph D is an associate professor of communication and media studies at Plymouth State University who specializes in media representations of deviancy and otherness Mediated Deviance and Social Otherness Interrogating Influential Representations is an erudite collection offering critical and cultural analysis of media representations within various media forms including journalism film documentary television fiction music and the Internet The book is divided into six sections that highlight the categories of deviance and otherness the contributors emphasize

- 1 Age
- 2 Crime and Criminals
- 3 Disease and Disability
- 4 Gender Race and Class
- 5 Sexual Orientation
- 6 Other Forms of Deviance

which include masochism carnival spectacles and cultures of violence While some chapters feature links to topics common to media studies such as the Motion Picture Production Code what is powerful about the collection is how varied the interpretive standpoints of the contributors are An example of one such unique interpretive perspective comes from Linda K Fuller whose chapter examines the sexual political aspects of African AIDS related films based on her work in West Africa with a sexologist collating and critiquing appropriate media for Life Skills This interpretive variety inspires novel examination of media representations through the originality of varied genres of analysis the collection offers analysis of classic as well as popular literature popular as well as veiled news media award winning as well as obscure television series and outlaw country music as well as rap music Because media is so broadly interpreted within the collection readers are encouraged to view mass media as a crucial cultural landscape for meaning making Each contributor offers a timely perspective about past or contemporary society through the analysis of unique media genres and artifacts or even through analysis of representations in multiple media forms For example Annette Holba examines multiple forms of the media representations of a less emphasized person in the Lizzie Borden case Borden s stepmother Editor Kylo Patrick R Hart s own contribution examines multiple media representations of the visible physical signs of AIDS before focusing on their representation in two particularly noteworthy film melodramas Rather than focusing on stereotypical categories of deviance and otherness the contributors focus on less commonly acknowledged representations or challenge commonly acknowledged understandings of

media This is evident through Christopher J P rez s ethnographic observation of instant messages from Gay com participants which dispels the notion that such online communities allow for positive expressions of gay identity Through its broad interpretation of media the collection offers an ample array of less commonly acknowledged media genres as evident in Margaret Weigel s class analysis of the electric bulb advertising sign spectaculars in Manhattan from 1892 to 1917 Wendy Korwin s visual analysis of a set of four image plates used within prescriptive literature and Amanda Klein s cinematic comparison of portrayed deviance in the 1950s juvenile delinquency teenpic and the 1990s ghetto action film Incorporated also are unique perspectives on traditional news media representations as in Thomas Grochowski s interpretation of celebrity defendant perspectives of O J Simpson Occasionally common themes thread particular chapters together allowing opportunities to understand how critics view the same or similar media differently For example David Sealy and Georges Claude Guilbert as well as Valentin Locoge offer analysis of the HBO television series OZ Additionally contemporary moral dilemmas and societal issues are covered as they appear in various media representations as when Barbara Barnett s discussion of journalistic representations of maternal infanticide and perfection appear alongside Robert Goff s analysis of the textured view of abortion provided by the film Vera Drake Hart s collection is important to expanding the scholarly understanding of media representations because it provokes thinking about what makes media mean so much to humans in particular social cultural historical and even technological contexts The issue of the detrimental effects of shared notions of deviance and social otherness is evident in chapters that highlight original perspectives useful for either scholarly analysis or challenging graduate level classroom discussions Also because the collection includes literary analysis it could serve well those with interest in literary criticism ELESIA RUMINSKI Ph D is an assistant professor of English at Indiana University of Pennsylvania with experience teaching mass communication film studies and visual communication

Evolution and Imagination in Victorian Children's Literature Jessica Straley, 2016-06-06 Evolutionary theory sparked numerous speculations about human development and one of the most ardently embraced was the idea that children are animals recapitulating the ascent of the species After Darwin's *Origin of Species* scientific pedagogical and literary works featuring beastly babes and wild children interrogated how our ancestors evolved and what children must do in order to repeat this course to humanity Exploring fictions by Rudyard Kipling Lewis Carroll Frances Hodgson Burnett Charles Kingsley and Margaret Gatty Jessica Straley argues that Victorian children's literature not only adopted this new taxonomy of the animal child but also suggested ways to complete the child's evolution In the midst of debates about elementary education and the rising dominance of the sciences children's authors plotted miniaturized evolutions for their protagonists and readers and more pointedly proposed that the decisive evolutionary leap for both our ancestors and ourselves is the advent of the literary imagination *Critical Black Futures* Philip Butler, 2021-03-30 *Critical Black Futures* imagines worlds afrofutures cities bodies art and eras that are simultaneously distant parallel present counter and perpetually materializing From an exploration of W E B Du Bois' own afrofuturistic short stories to trans super fluid blackness this volume challenges readers community leaders academics communities and creatives to push further into surreal imaginations Beyond what some might question as the absurd this book is presented as a speculative space that looks deeply into the foundations of human belief Diving deep into this notional rabbit hole each contributor offers a thorough excursion into the imagination to discover what was while also providing tools to push further
