of good beer usually do in a British pub The term India Pale Ale is a bit misleading because the beer is not brewed in India but rather originates in Britain previously destined for the Indian marketplace IPA beers originated as October ales named so because they were typically brewed during that month to accompany British sailors on their trips to the East Indies The long journey proved problematic for darker beers although often preferred by the British public these beers would spoil by the end of the journey The creation of the IPA solved the challenges of traveling for months by boat through extreme temperatures IPAs in particular incorporate more hops which contribute to the bitter flowery or citrusy flavors The term hops refers to the flower of a particular vine a quintessential aspect of beer making Historically the production of IPA used hops to help stabilize beer on its journey to the Indies Hops act as a natural preservative so the beer would travel better with more hops during the days before modern refrigeration techniques IPAs eventually gained popularity in Britain and other parts of the world the American Pale Ale is a variation using American hops as brewers served the beer in pubs and consumers began to like and even prefer the flavor MEET THE AUTHOR Cara Batema holds a Bachelor s degree in music and creative writing Cara composes scores and performs for films in addition to writing and editing children s novels and other publications Cara loves food wine fashion bike riding and other general artsy diversions Subscribe to Cara s Los Angeles Coffee Examiner page or follow on Twitter indiesmittty EXCERPT FROM THE BOOK Try contrasting or complementing flavors For example couple a spicy pale ale with a spicy Thai or Indian dish The spice and robustness of the beer works well with the bite of the food On the flipside pick a dry bitter IPA to work with sweet fish like oysters If you are into wine think about lagers as white wine and ales as red wine The heavy hops in the IPA act like acidity in wine so an IPA might be more akin to a Zinfandel or Chianti Most IPAs have medium body so they work well in many dishes but nothing too heavy or too light In general pair lighter beers with lighter food and heavy beers with heavier food Try an IPA with rich vegetables like avocados onion or mushrooms Beef and chicken especially those with a little spice to them also fare well with IPAs At the end of the day if you enjoy a good IPA you will like it with almost any dish Buy a copy to keep reading *Introduction to XXXX (beer)* Gilad James, PhD,
